Between the Corn Rows Robert Seltz, 2012-08-02 The Schaub family purchased a farm in northwest Iowa in the mid 1930s The worst of the Great Depression was ebbing but the bad economy still had plenty of bite and a world war loomed Werner and his wife Laura mustered all the money they could to buy their own place once they had it they did everything they could to make a living Their children chipped in but they also managed to find adventure around every corner Meanwhile a tempestuous Mother Nature complicated their lives with violent winds and black dust storms The church generally a rock of support for the community became unbending at times World War II improved grain markets but took many sons away from the farms The Schaub family stuck together but financial insecurity lurked in the shadows Getting land paying for it and making a living were tough in the Dust Bowl in the 1930s Even so the Schaub's never gave up as they tried to find the good life Between the Corn Rows

Strung

Together Sean Miller, 2013-03-18 In *Strung Together: The Cultural Currency of String Theory as a Scientific Imaginary* Sean Miller examines the cultural currency of string theory both as part of scientific discourse and beyond it. He demonstrates that the imaginative component of string theory is both integral and indispensable to it as a scientific discourse. While mathematical arguments provide precise prompts for physical intervention in the world, the imaginary that supplements mathematical argument within string theory technical discourse allows theorists to imagine themselves interacting with the cosmos as an abstract space in such a way that strings and branes as phenomena become substantiated and legitimized. And it is precisely this sort of imaginary which Miller calls a scientific imaginary duly substantiated and acculturated that survives the move from string theory technical discourse to popularizations and ultimately to popular and literary discourses. In effect, a string theory imaginary legitimizes the science itself and helps to facilitate a virtual domestication of a cosmos that was heretofore remote, alien, and incomprehensible.

They may be writes author Dorothy Weyer Creigh the last of their kind. Nebraskans have been tied to the land and their history as much as that of any state is a story of interdependence between people and place. As the Great Highway to somewhere else, California and Oregon, Nebraska was marked by the tracks and wagon ruts of restless pioneers searching for the promised land. Some found it here.
