The Handbook of Adult Clinical Psychology Alan Carr, Muireann McNulty, 2016-03-31 The second edition of the Handbook of Adult Clinical Psychology An Evidence Based Practice Approach like its predecessor provides clinical psychologists in training with a comprehensive practice handbook to help build the skills necessary to complete a clinical placement in the field of adult mental health While practical in orientation the book is based solidly on empirical evidence Building on the success of the previous edition this handbook has been extensively revised in a number of ways Throughout the book the text references and website addresses and have been updated to reflect important developments since the publication the first edition Recent research findings on the epidemiology aetiology course outcome assessment and treatment of all psychological problems considered in this volume have been incorporated into the text Account has been taken of changes in the diagnosis and classification of psychological problems reflected in the DSM 5 Chapters on ADHD in adults emotion focused therapy radically open dialectical behaviour therapy and schema therapy have been added The book is divided into 6 sections Section 1 covers conceptual frameworks for practice lifespan development classification and epidemiology CBT psychodynamic emotion focused systemic and bio medical models and general assessment procedures Section 2 deals with mood problems depression bipolar disorder suicide risk and anger management

Section 3 focuses on anxiety problems social phobia generalized anxiety disorder panic disorder obsessive compulsive disorder post traumatic stress disorder and depersonalization disorder Section 4 deals with psychological problems linked to physical health health anxiety somatization chronic pain adjustment to cancer and eating disorders Section 5 focuses on other significant psychological problems that come to the attention of clinical psychologist in adult mental health services ADHD in adults alcohol and other drug problems psychosis and psychological problems in older adults Section 6 contains chapters on therapeutic approaches to psychological distress related to complex childhood trauma dialectical behaviour therapy for borderline personality disorder racially open dialectical behaviour for over controlled presentations and schema therapy Each of the chapters on clinical problems explains how to assess and treat the condition in an evidence based way with reference to case material Interventions from cognitive behavioural psychodynamic interpersonal systemic and biomedical approaches are described where there is evidence that they are effective for the problem in question Skill building exercises and further reading for psychologists and patients are included at the end of each chapter This book is one of a set of three volumes which cover the lion s share of the curriculum for clinical psychologists in training in the UK and Ireland The other two volumes are the Handbook of Child and Adolescent Clinical Psychology Third Edition by Alan Carr and the Handbook of Intellectual Disability and Clinical Psychology Practice Second Edition edited by Alan Carr Christine Linehan Gary O Reilly Patricia Noonan Walsh John McEvoy

Psychopharmacology in Oncology and Palliative Care Luigi Grassi,Michelle Riba,2014-07-17 This practical manual presents the main drugs and protocols currently used in the psychopharmacological treatment of psychiatric disorders in cancer and palliative care settings and explores the principal issues involved in such treatment Significant clinical challenges encountered in the psychopharmacological management of various psychiatric conditions are discussed covering aspects such as side effects and drug drug interactions Attention is also paid to the emerging theme of adjuvant use of psychotropic drugs for the treatment of symptoms or syndromes not primarily related to psychiatric disorders In addition practical suggestions are provided for dealing with special populations including children and the elderly The book is designed to be easy to read and to reference with helpful concise tables and boxes The authors include some of the most renowned clinicians working in the field of psycho oncology

Oxford Textbook of Communication in Oncology and Palliative Care David William Kissane,Barry D. Bultz,Phyllis N. Butow,Carma L. Bylund,Susie Wilkinson,2017 Communication is a core skill for medical professionals when treating patients Cancer and palliative care present some of the most challenging clinical situations This book provides evidence based guidelines alongside case examples tips and strategies to achieve effective patient centred communication

Psycho-Oncology Thomas N. Wise,Massimo Biondi,Anna Costantini,2013-04-15 Psycho oncology integrates research and clinical wisdom across multiple disciplines including oncology psychiatry psychology surgery radiotherapy and palliative care among others in the service of educating oncologists physicians psychiatrists and other mental health care providers and hospital chaplains about

the psychological and psychosocial challenges faced by patients with neoplastic disorders As cancer treatment has improved the number of patients deemed cancer survivors has grown along with their more complex long term mental health issues This book assists care providers in meeting the challenge presented by this population Written by international experts in psycho oncology the volume offers a compact overview of the clinical elements in this field with a primary focus on the biopsychosocial aspects of individuals with cancer as well as their families and important people in their lives Its bench to bedside approach ensures that the techniques presented are evidence based practical and effective The following are among the book s many helpful features The chapters are designed to stand alone to be shared or consulted as needed but they also develop a coherent and sequential discussion about management of the patient with cancer as well as concerns involving the patient s family Thus the book as a whole serves as a comprehensive textbook in the field The book s structure is based on psychosocial staging much as the disease itself is staged and progresses from discovery to initial diagnosis treatment intervention remission and so forth Each phase has its own challenges for patient family and care provider and supportive strategies are offered Because identifying those patients in need of support and treatment intervention is critical the authors provide screening techniques as well as an entire chapter devoted to quality of life assessment to help clinicians recognize struggling patients and alleviate their distress A final chapter addresses developing trends in psycho oncology and suggests that international standards of care for the cancer patient must include competent and compassionate psychosocial assessment and treatment Concise and clinically focused yet addressing the broad issues as well Psycho oncology offers cutting edge information and invaluable assistance to physicians and mental health professionals responsible for managing patients and the families of patients with neoplastic disorders
