Cuban Missile Crisis:

The Cuban Missile Crisis Robert A. Divine, 1971 **The Cuban Missile Crisis** Roger Hilsman, 1996-03-20 This book shows how President Kennedy and his brother Robert used this information to bring about the withdrawal of the missiles without war **Kennedy and the Cuban Missile Crisis** Cath Senker, 2013 This book explores John F Kennedy's decision to protect his country from a nuclear threat during a momentous event from the Cold War showing how one of the world's most charismatic leaders chose to follow a brave course of action **The Cuban Missile Crisis** Alice George, 2013-03-20 For thirteen days in October of 1962 a truly perilous flirtation with nuclear war developed between the United States and USSR as the superpowers argued over the installation of Soviet nuclear weapons in Cuba Launched by rash judgment and concluded through circumspect leadership the Cuban Missile Crisis acted as a catalyst for change during the Cold War Resolved through back channel negotiations the moment is popularly remembered as the closest the world has ever come to full scale nuclear war Using government memoranda personal letters and newspaper articles *The Cuban Missile Crisis* details the actual events of the political history while explaining widespread public response In six concise chapters Alice George introduces the history of Cold War America and contextualizes its political social and cultural legacy This will be a must read for anyone looking for an in depth summary of these important events For additional resources please visit the companion website at <http://www.routledge.com/cw/criticalmoments> **Reflections on the Cuban Missile Crisis** Raymond Garthoff, 2011-03-01 The Soviet response to the first edition of *Reflections* has been a prime example of the new openness under glasnost in discussing previously taboo subjects Using new revelations such as the fact that Moscow had twice as many troops in Cuba as the Kennedy administration believed from key Soviet and Cuban sources Garthoff has revised his earlier analysis to produce the most accurate eye opening story yet of the 1963 crisis In this book Raymond L Garthoff a participant in the crisis deliberations of the U S government reflects on the nature of the crisis its consequences and its lessons for the future He provides a unique combination of memoir historical analysis and political interpretations He gives particular attention to the aftermath and afterlife of the crisis and to its bearing on current and future policy In the first edition of the book in 1987 the Garthoff presented a number of facts for the first time Since then more information has become available particularly from Soviet sources in part from conferences in which Garthoff participated but even more from individual interviews and research This new information much of it presented here in this volume for the first time helps to fill in gaps in our knowledge about events and motivations on the Soviet side More importantly it enlarges our understanding of the crisis interaction *The Cuban Missile Crisis* M. White, 1995-11-20 Why did the Cuban Missile Crisis happen How was it resolved By focusing on the roles of a number of key individuals such as JFK Robert Kennedy and Nikita Khrushchev and by using recently declassified materials this book frames answers to these questions In so doing it presents a cluster of new findings and arguments including a fresh interpretation of Khrushchev's motives for putting missiles in Cuba

new information on the mystery surrounding Senator Kenneth Keating's secret sources and evidence indicating that JFK planned to carry out a military strike on Cuba at the start of the crisis *Cuban Missile Crisis* Priscilla Roberts, 2012-04-23 Drawing on revealing new research this richly informative volume is the definitive concise introduction to the crisis that took the world to the brink of nuclear war Cuban Missile Crisis The Essential Reference Guide captures the historical context the minute by minute drama and the profound repercussions of the Missiles of October confrontation that brought the very real threat of nuclear attack to the United States doorstep Coinciding with the 50th anniversary of the crisis it takes full advantage of recently opened Soviet archives as well as interviews with key Russian Cuban and U S officials to explore the event as it played out in Moscow Havana Washington and other locations around the world Cuban Missile Crisis contains an introductory essay by the author and alphabetically organized reference entries contributed by leading Cold War researchers The book also includes an exceptionally comprehensive bibliography Together these resources give readers everything they need to understand the escalating tensions that led to the crisis as well as the intense diplomacy that resolved it including new information about the back channel negotiations between Robert Kennedy and Soviet ambassador Anatoly Dobrynin

The Cuban Missile Crisis Len Scott, R. Gerald Hughes, 2015-04-10 This volume brings together a collection of leading international experts to revisit and review our understanding of the Cuban Missile Crisis via a critical reappraisal of some of the key texts In October 1962 humankind came close to the end of its history The risk of catastrophe is now recognised by many to have been greater than realised by protagonists at the time or scholars subsequently The Cuban missile crisis remains one of the mostly intensely studied moments of world history Understanding is framed and informed by Cold War historiography political science and personal experience written by scholars journalists and surviving officials The emergence of Soviet later Russian and other national narratives has broadened the scope of enquiry while scrutiny of the operational especially military dimensions has challenged assumptions about the risk of nuclear war The Cuban Missile Crisis A Critical Reappraisal brings together world leading scholars from America Britain France Canada and Russia to present critical scrutiny of authoritative accounts and to recast assumptions and interpretations The book aims to provide an essential guide for students of the missile crisis the diplomacy of the Cold War and the dynamics of historical interpretation and reinterpretation Offering original ideas and agendas the contributors seek to provide a new understanding of the secrets and mysteries of the moment when the world went to the brink of Armageddon This book will be of great interest to students of the Cuban missile crisis Cold War Studies nuclear proliferation international history and International Relations in general

13 Days in October Howard Brinkley, 2012-12-09 Never has the world come as close to the catastrophic destruction that nearly came to pass in October 1962 The United States and the Soviet Union uneasy allies in World War II but Cold War rivals after the defeat of Germany squared off over the discovery of Soviet nuclear missiles in Cuba This launched 13 days of tense negotiations between the two nations as both President John F Kennedy and Soviet Premier Nikita Khrushchev

prepared for the possibility of nuclear war While neither man wanted a war and understood the potential consequences the situation was not merely in their hands Khrushchev faced pressure from Soviets to take a hardline stance against the U S while Kennedy faced the real possibility of a military coup if he did not follow the strong recommendations of his military advisors to destroy the missiles As Attorney General Robert Kennedy said The 10 or 12 people who participated in all these discussions were bright and energetic people We had perhaps amongst the most able in the country and if any one of a half a dozen of them were president the world would have been very likely plunged into catastrophic war Read more about the history of this short crisis in this book HistoryCaps is an imprint of BookCaps Study Guides With each book a brief period of history is recapped We publish a wide array of topics from baseball and music to science and philosophy so check our growing catalogue regularly to see our newest books *The Brink* David Detzer, 1979 An account of the 1962 confrontation between the United States and Russia caused by the installation of Russian missiles in Cuba
