Charles Hauss International Conflict Resolution:

International Conflict Resolution 2nd Ed. Charles Hauss, 2010-04-01 Using a broad range of case studies this book examines conflict and the international relations facing the world today *From Conflict Resolution to Peacebuilding* Charles Hauss, 2019-11-05 *From Conflict Resolution to Peacebuilding* is designed to introduce students to the key concepts of conflict resolution from a real world perspective Covering both micro and macro sites of conflict it offers ways to resolve conflicts at all levels from the interpersonal to the international Starting with the notion that conflict is a fact of life but peacebuilding is not this text analyzes protracted conflicts and wicked problems and also tackles the harder task of how to resolve conflict and build peace Hauss approach to peace and conflict studies is deeply personal and richly informed Based on a strong research base and decades of experience in the field the book offers new paradigms for considering the intractable conflicts in our world Each chapter provides real world examples stories and cases that illustrating practical work at both the grass roots and elite levels In a world where conflict seems to be on the rise at home and abroad this text provides students with the tools to deal with conflict constructively in their daily lives as citizens and as future professionals in the growing field of conflict resolution Features Full suite of textboxes for study and application Key terms and references for further reading Conflict labs to help students apply concepts to real world situations Out on a Limb boxes ask readers to consider bold new ideas and paradigm shifts for analyzing conflict and building peace A dynamic range of open access instructor and student resources can be found at the author s website www.chiphauss.info including Videos of interviews Curated web links Updates on breaking news Author s weekly blog Reviews of new books documentaries and other publications A discussion forum in which students and faculty members can interact with each other and with the author on issues of their choosing Regular video office hours with the author *International Conflict Resolution* Charles Hauss, 2001-08-02 A broad selection of case studies covering the major conflicts the world has faced since 1990 provides readers with material they can use to form their own judgements about the theories This text will be valuable for course use both in IR and peace and conflict resolution studies Jacket *Introduction to international relations*, 2024-07-30 This innovative accessible book highlights contemporary and historical insights into international relations By looking core themes globalization international political economy regionalization the fragmentation of states and cooperative problem solving the authors formulate a likely pattern of future developments in the 21st century **War and Virtual War**, 2021-10-25 If the practice of war is as old as human history so too is the need to reflect upon war to understand its meaning and implications The Pre Socratic philosopher Heraclitus asserted in 600BC that War polemos is justice thus inaugurating a long philosophical tradition of consideration of the morality of war In recent times the increased specialisation of academic disciplines has led to a fragmentation of the thematic of war within the academy the topic of war is as likely to be addressed by sociologists cultural theorists psychologists and even computer scientists as it is by historians philosophers or political scientists This

diversity of disciplinary approaches to war is undoubtedly fruitful in itself but can lead to an isolation of respective disciplinary analyses of war from each other In July 2002 at Mansfield College Oxford an inter disciplinary conference on war entitled War and Virtual War was held so as to redress some of this disciplinary isolationism and to forge an integrative dialogue on war in all its facets The papers in this volume were nominated by delegates as the most paradigmatic of the ethos of the original project and the most successful in achieving its aims of inter disciplinarity and critical dialogue

African Borders, Conflict, Regional and Continental Integration Inocent Moyo, Christopher Changwe Nshimbi, 2019-04-25 This book looks at the ways African borders impact war and conflict as well as the ways continental integration could contribute towards cooperation peace and well being in Africa African borders or borderlands can be a source of problems and opportunity There is often a historical geospatial and geopolitical architecture rooted in trajectories of war conflict and instability which could be transformed into those of peace regional and continental integration and development An example is the cross border and regional response to the Boko Haram insurgency in West Africa This book engages with cross border forms of cooperation and opportunity in Africa It considers initiatives and innovations which can be put in place or are already being employed on the ground within the current regional and continental integration projects Another important element is that of cross border informality which similarly provides a ready resource that if properly harnessed and regulated could unleash the development potential of African borders and borderlands Students and scholars within Geography International Relations and Border Studies will find this book useful It will also benefit civil society practitioners policymakers and activists in the NGO sector interested in issues such as migration social cohesion citizenship and local development

Crafting Peace in Kashmir Verghese Koithara, 2004-08-30 Presenting a completely new perspective on the Kashmir conflict this book argues that resolving the situation can be brought about through a peace strategy rather than a war strategy Through an analysis of the conflicts in Northern Ireland Sri Lanka and Palestine the author draws parallels between the India Pakistan conflict He also presents reasons why a durable peace based on the Line of Control becoming the settled border and the two parts of Jammu and Kashmir being given parallel and substantial autonomy can be achieved in today's conditions The book concludes that peace between India and Pakistan is possible based on political realism and that strategic solutions that safeguard the interests of both countries are available

Ceasefire Agreements and Peace Processes Malin Akebo, 2016-11-10 This book analyses and compares ceasefire agreements as part of peace processes in intrastate armed conflicts Research repeatedly underscores the importance of ceasefire agreements in peace processes but suggests that they can influence such processes in fundamentally different ways However despite contradictory expectations remarkably few studies have so far been devoted to systematic and in depth analysis of ceasefire agreements in contemporary intrastate armed conflicts This book contributes to filling this gap by using a process oriented conflict dynamics approach to analyse and explain how ceasefire agreements are being influenced by and in turn influences

the broader dynamics of peace processes Empirically the book focuses on the armed conflicts in Aceh Indonesia and Sri Lanka Based on document studies and 57 interviews with key actors it presents comparative insights and in depth knowledge about ceasefire agreements in different contextual settings The book problematizes the common assumption in the literature that ceasefire agreements create momentum in peace processes and pave the way to peace and it provides a more nuanced analysis and understanding based on two empirical cases analysed within a comparative framework In contrast to conventional wisdom it demonstrates how ceasefires on the contrary also can have negative implications on peace processes This book will be of much interest to students of conflict resolution peace studies intra state conflict security studies and IR in general
