Brown, Peter Nockles, James Pereiro, 2018-01-25 The

Oxford Handbook of the Oxford Movement reflects the rich and diverse nature of scholarship on the Oxford Movement and provides pointers to further study and new lines of enquiry Part I considers the origins and historical context of the Oxford Movement These chapters include studies of the legacy of the seventeenth century Caroline Divines and of the nature and influence of the eighteenth and early nineteenth century High Church movement within the Church of England Part II focuses on the beginnings and early years of the Oxford Movement paying particular attention to the people the distinctive Oxford context and the ecclesiastical controversies that inspired the birth of the Movement and its early intellectual and religious expressions In Part III the theme shifts from early history of the Oxford Movement to its distinctive theological developments This section analyses Tractarian views of religious knowledge and the notion of ethos the distinctive Tractarian views of tradition and development and Tractarian ecclesiology including ideas of the via media and the branch theory of the Church The years of crisis for the Oxford Movement between 1841 and 1845 including John Henry Newman's departure from the Church of England are covered in Part IV Part V then proceeds to a consideration of the broader cultural expressions and influences of the Oxford Movement Part VI focuses on the world outside England and examines the profound impact of the Oxford Movement on Churches beyond the English heartland as well as on the formation of a world wide Anglicanism In Part VII the contributors show how the Oxford Movement remained a vital force in the twentieth century finding expression in the Anglo Catholic Congresses and in the Prayer Book Controversy of the 1920s within the Church of England The Handbook draws to a close in Part VIII with a set of more generalised reflections on the impact of the Oxford Movement including chapters on the judgement of the converts to Roman Catholicism over the Movement's loss of its original character on the spiritual life and efforts of those who remained within the Anglican Church to keep Tractarian ideas alive on the engagement of the Movement with Liberal Protestantism and Liberal Catholicism and on the often contentious historiography of the Oxford Movement which continued to be a source of church party division as late as the centennial commemorations of the Movement in 1933 An Afterword chapter assesses the continuing influence of the Oxford Movement in the world Anglican Communion today with special references to some of the conflicts and controversies that have shaken Anglicanism since the 1960s

Bazaar Literature Leslee Thorne-Murphy, 2023-01-14 Charity bazaars were a key method women used to intervene in political social and cultural affairs Bazaar Literature reorients our understanding of Victorian social reform fiction by reading it in light of the copious amount of literature generated for charity bazaars which shaped the social political and literary movements of its time

Victorian Narratives of Failed Emigration Tamara S Wagner, 2016-05-26 In her study of the unsuccessful nineteenth century emigrant Tamara S Wagner argues that failed emigration and return drive nineteenth century writing in English in unexpected culturally revealing ways Wagner highlights the hitherto unexplored subgenre of anti emigration writing that emerged as an important counter current to a pervasive emigration propaganda machine that was pressing popular fiction into its service The exportation of characters at the end of a novel

indisputably formed a convenient narrative solution that at once mirrored and exaggerated public policies about so called superfluous or redundant parts of society Yet the very convenience of such pat endings was increasingly called into question New starts overseas might not be so easily realizable emigration destinations failed to live up to the inflated promises of pro emigration rhetoric the unwanted might make a surprising reappearance Wagner juxtaposes representations of emigration in the works of Charles Dickens Wilkie Collins Frances Trollope and Charlotte Yonge with Australian New Zealand and Canadian settler fiction by Elizabeth Murray Clara Cheeseman and Susanna Moodie offering a new literary history not just of nineteenth century migration but also of transoceanic exchanges and genre formation *Romanticism and Modernity*

Thomas Pfau, Robert Mitchell, 2014-07-16 Though traditionally defined as a relatively brief time period typically the half century of 1780 1830 the Romantic era constitutes a crucial indeed unique transitional phase in what has come to be called modernity for it was during these fifty years that myriad disciplinary aesthetic economic and political changes long in the making accelerated dramatically Due in part to the increased velocity of change though most of modernity s essential master tropes such as secularization instrumental reason individual rights economic self interest emancipation system institution nation empire utopia and life were also subjected to incisive critical and methodological reflection and revaluation The chapters in this collection argue that Romanticism s marked ambivalence and resistance to decisive conceptualization arises precisely from the fact that Romantic authors simultaneously extended the project of European modernity while offering Romantic concepts as means for a sustained critical reflection on that very process Focusing especially on the topics of form both literary and organic secularization and its political correlates utopia and apocalypse and the question of how one narrates the arrival of modernity this collection collectively emphasizes the importance of understanding modernity through the lens of Romanticism rather than simply understanding Romanticism as part of modernity This book was previously published as a special issue of *European Romantic Review*

Jane Austen's Families June Sturrock, 2014-11-01 Jane Austen s Families focuses on family dynamics in Jane Austen s six novels After a general introduction which places its approach in the context of ethical criticism it divides into two sections The first Family Dynamics consists of three chapters The Function of the Dysfunctional Family Spoilt Children and Usefulness and Exertion The three chapters of section two Fathers and Daughters look at father daughter relationships in Mansfield Park Emma and Persuasion **Charlotte Mary**

Yonge Clare Walker Gore, Clemence Schultze, Julia Courtney, 2022-11-28 This interdisciplinary collection of essays explores the life and work of Charlotte M Yonge a highly influential and popular nineteenth century writer who is emerging from a long period of critical neglect Its wide ranging chapters capture the scope and quality of current work in Yonge studies addressing the full range of her prolific literary output from her best selling novels to her nature writing biographies and letters Considering themes from gender disability and empire to Tractarianism secularism and the idea of progress these essays consider how Yonge reflected and shaped the tastes ideas and anxieties of her readers and contemporaries Exploring

her key role in the Anglican revival her importance as a test case in the development of feminist criticism and her formal innovativeness as a novelist this collection places Yonge centrally in the nineteenth century literary landscape and demonstrates her ongoing relevance to scholars and students of the period

Romance's Rival Talia Schaffer, 2016

Romance's Rival argues that the central plot of the most important genre of the nineteenth century the marriage plot novel means something quite different from what we thought In Victorian novels women may marry for erotic desire but they might instead insist on familiar marriage marrying trustworthy companions who can offer them socially rich lives and futures of meaningful work Romance's Rival shows how familiar marriage expresses ideas of female subjectivity dating back through the seventeenth century while romantic marriage felt like a new risky idea Undertaking a major rereading of the rise of the novel tradition from Richardson through the twentieth century Talia Schaffer rethinks what the novel meant if one tracks familiar marriage virtues This alternative perspective offers new readings of major texts Austen the Brontës Eliot Trollope but it also foregrounds women's popular fiction Yonge Oliphant Craik Broughton Offering a feminist perspective that reads the marriage plot from the woman's point of view Schaffer inquires why a female character might legitimately wish to marry for something other than passion For the past half century scholars have valorized desire individuality and autonomy in the way we read novels Romance's Rival asks us to look at the other side to validate the yearning for work family company or social power as legitimate reasons for women's marital choices in Victorian fiction Comprehensive in its knowledge of several generations of scholarship on the novel Romance's Rival convinces us to re-examine assumptions about the nature and function of marriage and the role of the novel in helping us not simply imagine marriage but also process changing ideas about what it might look like and how it might serve people
