Intuitive Instructional Speech in Sufism Martin A. M. Gansinger, 2022-08-17 The Sufi tradition remains one of the most mysterious and least understood systems of self realization This book demystifies the practice of the sohbet an ad hoc discourse as the central instructional tool in the globally influential Naqshbandi Haqqani Order It approaches the practice using categories of improvised music to establish a framework for analyzation Its ritualized formal structure illustrated via selected talks of Shaykh Nazim Adil al Haqqani discloses the underlying and assumingly primary function to provoke prolonged states of raised awareness in listeners and condition their sympathetic nervous system In an extensive discussion based on several years of field research in Cyprus the book relates this intention to similar practices in other traditional knowledge systems by proposing psychophysical interpretations based on psychology biochemistry neuroscience or quantum physics It will appeal to scholars and students of Sufism Islamic studies and comparative religion as well as those interested in performance studies and improvised music interpersonal communication and education In Search of the Lost Heart William C.
