Catchy Names For Training Programs:

Nurturing Children's Spirituality Holly Allen, 2008-03-01 Children's spiritual development is currently a hot topic in Christian circles as well as in other fields and disciplines such as educational psychology, medicine, developmental psychology, education, and sociology. The key question for Christian scholars and educators is: How do Christian beliefs and practices uniquely interrelate with children's spirituality? In 2003 and again in 2006 a national conference entitled Children's Spirituality Conference: Christian Perspectives examined children's spirituality from a distinctly Christian standpoint. This book is a collection of the best materials from the 2006 conference. The first half of the book addresses definitional, historical, and theological concerns related to spiritual development in children. The second half explores best practices for fostering spiritual growth among our children in our homes, families, churches, Christian schools, and among special populations of children from a wide spectrum of Christian scholars and practitioners. The volume closes with John Westerhoff's moving keynote address and Catherine Stonehouse and Scottie May's eloquent culminating plenary address. *Nurturing Children's Spirituality* provides a rich cross-section of the current research and writing by Christian scholars on children's spirituality. Contributors: Holly Catterton, Allen, Michael J., Anthony, Stacy, Berg, Chris J., Boyatzis, MaLesia, Breeding, Marilyn, Brownlee, Linda V., Callahan, Jane, Carr, Mara, Lief, Crabtree, Karen, Crozier, James, Riley, Estep Jr., Jeffrey E., Feinberg, Stephanie, Goins, Judy, Harris, Helm, Dana, Kennamer, Hood, Sungwon, Kim, Kevin, Lawson, Scottie, May, Marcia, McQuitty, Heidi, Schultz, Oswald, Donald, Ratcliff, Pam, Scranton, Timothy A., Sisemore, Catherine, Stonehouse, LaVerne, Tolbert, T. Mertus,2008-02-19 It has become routine for the US government to invoke human rights to justify its foreign policy decisions and military ventures But this human rights talk has not been supported by a human rights walk Policy makers consistently apply a double standard for human rights norms one the rest of the world must observe but which the US can safely ignore Based on extensive interviews with leading foreign policy makers military officials and human rights advocates Mertus tells the story of how America s attempts to promote human rights abroad have paradoxically undermined those rights in other countries The second edition brings the story up to date including new sections on the second half of the Bush administration and the Iraq War and updates on Afghanistan The first edition of Bait and Switch won the American Political Science Association s 2005 Best Book on Human Rights **Program Evaluation for Social Workers** Richard M. Grinnell,Peter Gabor (Sociologist),Yvonne A.

Unrau,2016 First published in 1994 this text is designed to be used by graduate level social work students in courses on evaluation and program design Over the course of 20 years and 6 editions the goals of the book have remained the same to prepare students to participate in evaluative activities within their organizations to prepare students to become critical producers and consumers of professional evaluative literature and to prepare students for more advanced evaluation courses and texts Grinnell Gabor and Unrau aim to meet these objectives by presenting a unique approach that is realistic practical applied and user friendly While a majority of textbooks focus on program level evaluation some recent books present case level evaluation methods but rely on inferentially powerful but difficult to implement experimental baseline designs This text

assumes that neither of these approaches adequately reflects the realities of the field or the needs of students and beginning practitioners. Instead, Program Evaluation for Social Workers offers a blend of the two that demonstrates how they can complement one another. The integration of case level and program level approaches provides an accessible, adaptable, and realistic framework for students to more easily grasp and implement in the real world.
