Cara Mudah UN 09 B.Ing SMP/MTs, [Cara Mudah UN 08 B.Ing SMP](#), [B.R.M. \(Bathroom Reading Material\) for Youth Workers](#) Jeremy Halstead, 2015-01-30 Jeremy Halstead graduated from college with a degree in Specialized Ministries and an emphasis in Youth Ministry. Shortly after entering full-time ministry, he realized that even though he had earned a degree, he was truly ill-equipped for the ministry that he was now serving in. Jeremy surmised that he could not be the only youth leader who felt this way, so nineteen years later, he wrote this book based upon his ideas, experiences, stories, victories, and failures. The title of the book may sound a bit strange, but everyone uses the bathroom, and most people read while doing so. Why not read about what you love and are involved in: youth ministry? This book was written to be a tool for youth workers. You can read it from beginning to end or just open it to any page, as there is no rhyme or reason to the order of the topics. As you read the pages, be inspired to try something new, be educated with fresh information and ideas, and be equipped to implement what you have read immediately into your ministry.

Primary School in Japan Peter Cave, 2007-11-30 The balance between individual independence and social interdependence is a perennial debate in Japan. A series of educational reforms since 1990, including the implementation of a new curriculum in 2002, has been a source of fierce controversy. This book, based on an extended, detailed study of two primary schools in the Kinki district of Japan, discusses these debates, shows how reforms have been implemented at the school level, and explores how the balance between individuality and social interdependence is managed in practice. It discusses these complex issues in relation to personal identity within the class and within the school, in relation to gender issues, and in relation to the teaching of specific subjects including language, literature, and mathematics. The book concludes that although recent reforms have tended to stress individuality and independence, teachers in primary schools continue to balance the encouragement of individuality and self-direction with the development of interdependence and empathy.
