Collateral Damage Sino Soviet Rivalry And The Termination Of The Sino Vietnamese Alliance:

Collateral Damage Nicholas Khoo, 2011-02-21 Although the Chinese and the Vietnamese were Cold War allies in wars against the French and the Americans their alliance collapsed and they ultimately fought a war against each other in 1979. More than thirty years later the fundamental cause of the alliance's termination remains contested among historians, international relations theorists, and Asian studies specialists. Nicholas Khoo brings fresh perspective to this debate. Using Chinese language materials released since the end of the Cold War, Khoo revises existing explanations for the termination of China's alliance with Vietnam, arguing that Vietnamese cooperation with China's Cold War adversary, the Soviet Union, was the necessary and sufficient cause for the alliance's termination. He finds alternative explanations to be less persuasive. These emphasize nonmaterial causes such as ideology and culture or reference issues within the Sino-Vietnamese relationship such as land and border disputes, Vietnam's treatment of its ethnic Chinese minority, and Vietnam's attempt to establish a sphere of influence over Cambodia and Laos. Khoo also adds to the debate over the relevance of realist theory in interpreting China's international behavior during both the Cold War and post-Cold War eras. While others see China as a social state driven by nonmaterial processes, Khoo makes the case for viewing China as a quintessential neorealist state. From this perspective, the focus of neorealist theory on security threats from materially stronger powers explains China's foreign policy not only toward the Soviet Union but also in relation to its Vietnamese allies. *Collateral Damage* Nicholas Kay-Siang Khoo, Columbia University, 2006

Nuclear Asymmetry and Deterrence Jan Ludvik, 2016-11-10 This book offers a broader theory of nuclear deterrence and examines the way nuclear and conventional deterrence interact with non-military factors in a series of historical case studies. The existing body of literature largely leans toward the analytical primacy of nuclear deterrence, and it is often implicitly assumed that nuclear weapons are so important that when they are present, other factors need not be studied. This book addresses this omission. It develops a research framework that incorporates the military aspects of deterrence, both nuclear and conventional, together with various perceptual factors, international circumstances, domestic politics, and norms. This framework is then used to re-examine five historical crises that brought two nuclear countries to the brink of war: the hostile asymmetric nuclear relations between the United States and China in the early 1960s, between the Soviet Union and China in the late 1960s, between Israel and Iraq in 1977-1981, between the United States and North Korea in 1992-1994, and finally between the United States and the Soviet Union during the 1962 Cuban missile crisis. The main empirical findings challenge the common expectation that the threat of nuclear retaliation represents the ultimate deterrent. In fact, it can be said with a high degree of confidence that it was rather the threat of conventional retaliation that acted as a major stabilizer. This book will be of much interest to students of nuclear proliferation, cold war studies, deterrence theory, security studies, and IR in general.

ASEAN Resistance to Sovereignty Violation Southgate, Laura, 2019-05-08 Available Open Access under CC BY-NC licence. Examining how the Association of Southeast Asian Nations (ASEAN) has responded to

external threats over the past 50 years this book provides a compelling account of regional state actions and foreign policy in the face of potential sovereignty violation The author draws on a large amount of previously unanalysed material including declassified government documents and WikiLeaks cables to examine four key cases since 1975 Taking into account state interests and the role of external powers the author develops the vanguard state theory to explain ASEAN state responses to sovereignty violation which it is argued has universal applicability and explanatory power Indo-Pacific Security: US-China Rivalry And Regional States' Responses Nicholas Kay Siang Khoo, Germana Nicklin, Alexander C Tan, 2024-01-03 Following the 2008 Beijing Olympics and Global Financial Crisis China's foreign policy shifted to become more assertive effecting a systematic deterioration in the US China relationship In 2017 the US China policy shifted from that of engagement to strategic competition under Trump a policy which has remained under the Biden administration Indo Pacific Security US China Rivalry and Regional States Responses explores how states in the Indo Pacific region have had to adjust to the reality and implications of this growing great power rivalry In the process this book fills a gap in the area studies international relations and security studies literature It provides a compelling account of the trajectory of US China relations while illuminating the varied responses of regional states from Australia India and Japan to South Korea Thailand Taiwan and Pacific Island states *New Developments in the Trilateral Relationship between the United States, Taiwan, and China* Charles K.S. Wu, Yao-Yuan Yeh, 2025-02-15 Taiwan has become a new flashpoint in Sino U S relations in recent years The nation just concluded its presidential and legislative elections in January 2024 The incumbent Democratic Progressive Party DPP won a pyrrhic victory with DPP keeping the presidential seat but losing the majority in Taiwan's Legislative Yuan Congress The political status of Taiwan is one of the few if not the only issues that have won bipartisan support *New Developments in the Trilateral Relationship between the United States Taiwan and China* analyzes the three way relationship and raises numerous questions that are urgently awaiting answers The book advances our understanding of some of the pressing issues in this relationship These questions include but are not limited to how does the U S public view the trade war against China How do they perceive China in general What extent could the Indo Pacific Economic Framework for Prosperity IPEF support U S economic competition with China As for Taiwan to what scope do China's campaigns infiltrate and influence political attitudes Considering its geographic proximity to Taiwan how does the immigration from Hong Kong influence Taiwan **The Dragon in the Jungle** Xiaobing Li, 2020-01-02 Western historians have long speculated about Chinese military intervention in the Vietnam War It was not until recently however that newly available international archival materials as well as documents from China have indicated the true extent and level of Chinese participation in the conflict of Vietnam For the first time in the English language this book offers an overview of the operations and combat experience of more than 430 000 Chinese troops in Indochina from 1968-73 The Chinese Communist story from the other side of the hill explores one of the missing pieces to the historiography of the Vietnam War The book covers the chronological development

and Chinese decision making by examining Beijing's intentions, security concerns and major reasons for entering Vietnam to fight against the U.S. armed forces. It explains why China launched a nationwide movement in Mao Zedong's words to assist Vietnam and resist America in 1965-72. It details PLA foreign war preparation, training, battle planning and execution, tactical decisions, combat problem solving, political indoctrination and performance evaluations through the Vietnam War. International Communist forces, technology and logistics proved to be the decisive edge that enabled North Vietnam to survive the U.S. Rolling Thunder bombing campaign and helped the Viet Cong defeat South Vietnam. Chinese and Russian support prolonged the war, making it impossible for the United States to win. With Russian technology and massive Chinese intervention, the NVA and NLF could function on both conventional and unconventional levels, which the American military was not fully prepared to face. Nevertheless, the Vietnam War seriously tested the limits of the communist alliance. Rather than improving Sino-Soviet relations, aid to North Vietnam created a new competition as each communist power attempted to control Southeast Asian communist movement. China shifted its defense and national security concerns from the U.S. to the Soviet Union.

Modern China Xiaobing Li, 2015-11-23. Providing an indispensable resource for students, educators, businessmen and officials investigating the transformative experience of modern China, this book provides a comprehensive summary of the culture, institutions, traditions and international relations that have shaped today's China. In *Modern China*, author Xiaobing Li offers a resource far beyond a conventional encyclopedia, providing not only comprehensive coverage of Chinese civilization and traditions but also addressing the values, issues and critical views of China. As a result, readers will better understand the transformative experience of the most populous country in the world and will grasp the complexity of the progress and problems behind the rise of China to a world superpower in less than 30 years. Written by an author who lived in China for three decades, this encyclopedia addresses 16 key topics regarding China, such as its geography, government, social classes and ethnicities, gender-based identities, arts, media and food, each followed by roughly 250 short entries related to each topic. All the entries are placed within a broad sociopolitical and socioeconomic contextual framework. The format and writing consistency throughout the book reflects a Chinese perspective and allows students to compare Chinese with Western and American views.

Mao's Third Front Covell F. Meyskens, 2020-05-14. An examination of how economic development and everyday life intersected with the temperature of Cold War geopolitics in Mao's China.

Great Strategic Rivalries James Lacey, 2016-10-11. From the legendary antagonism between Athens and Sparta during the Peloponnesian War to the Napoleonic Wars and the two World Wars of the twentieth century, the past is littered with long-term strategic rivalries. History tells us that such enduring rivalries can end in one of three ways: a series of exhausting conflicts in which one side eventually prevails, as in the case of the Punic Wars between ancient Rome and Carthage; a peaceful and hopefully orderly transition, like the rivalry between Great Britain and the United States at the turn of the twentieth century; or a one-sided collapse, such as the conclusion of the Cold War with the fall of the Soviet Union. However, in spite of a wealth of historical

examples the future of state rivalries remains a matter of conjecture Great Strategic Rivalries explores the causes and implications of past strategic rivalries revealing lessons for the current geopolitical landscape Each chapter offers an accessible narrative of a historically significant rivalry comprehensively covering the political diplomatic economic and military dimensions of its history Featuring original essays by world class historians including Barry Strauss Geoffrey Parker Williamson Murray and Geoffrey Wawro this collection provides an in depth look at how interstate relations develop into often violent rivalries and how these are ultimately resolved Much more than an engaging history Great Strategic Rivalries contains valuable insight into current conflicts around the globe for policymakers and policy watchers alike
