The Western Codification of Criminal Law Aniceto Masferrer, 2018-03-09 This volume addresses an important

historiographical gap by assessing the respective contributions of tradition and foreign influences to the 19th century codification of criminal law More specifically it focuses on the extent of French influence among others in European and American civil law jurisdictions In this regard the book seeks to dispel a number of myths concerning the French model s actual influence on European and Latin American criminal codes The impact of the Napoleonic criminal code on other jurisdictions was real but the scope and extent of its influence were significantly less than has sometimes been claimed The overemphasis on French influence on other civil law jurisdictions is partly due to a fundamental assumption that modern criminal codes constituted a break with the past The question as to whether they truly broke with the past or were merely a degree of reform touches on a difficult issue namely the dichotomy between tradition and foreign influences in the codification of criminal law Scholarship has unfairly ignored this important subject an oversight that this book remedies

The Failed Promise of Sentencing Reform Michael O'Hear,2017-03-20 Despite 15 years of reform efforts the incarceration rate in the United States remains unprecedentedly high This book provides the first comprehensive survey of these reforms and explains why they have proven to be ineffective After many decades of stability the imprisonment rate in the United States quintupled between 1973 and 2003 Since then nearly all states have adopted multiple reforms intended to reduce imprisonment but the U S imprisonment rate has only decreased by a paltry 2 percent Why have American sentencing reforms since 2000 been largely ineffective Are tough mandatory minimum sentences for nonviolent drug offenders the primary reason our prisons are always full This book offers a fascinating assessment of the wave of sentencing reforms adopted by dozens of states as well as changes at the federal level since 2000 identifying common themes among seemingly disparate changes in sentencing policy and highlighting recent reform efforts that have been more successful and may point the way forward for the nation as a whole In The Failed Promise of Sentencing Reform Michael O Hear exposes the myths that American prison sentencing reforms enacted in the 21st century have failed to have the expected effect because U S prisons are filled to capacity with nonviolent drug offenders as a result of the war on drugs or because of new laws that took away the discretion of judges and corrections officials O Hear then makes a convincing case for the real reasons sentencing reforms have come up short because they exclude violent and sexual offenders and because they rely on the discretion of officials who still have every incentive to be highly risk averse He also highlights how overlooking the well being of offenders and their families in our consideration of sentencing reform has undermined efforts to effect real change CALIFORNIA PENAL CODE 2022 THOMAS.
