The Case Against the Case for Christ Robert M. Price, 2010 *Hunting for the word of God* Sami Ameri, 2017-12-09

Almost a century ago scholars were debating the authenticity of some passages of the New Testament After a revolutionary renaissance in the field of biblical textual criticism however they began to doubt the genuineness of the entire text No longer are we able to claim the authenticity of even one passage from the New Testament The whole Christian edifice is now in danger Conversely today the authenticity of the Qur'anic text is also being challenged by questioning the Islamic version of the preservation of the Muslim holy book and the preservation of the canonical readings of the original text In the last decade some missionaries started using the recent discovery of Qur'anic manuscripts in Sana'a Yemen to claim that there had been an early corruption of the text This book aims at taking its readers on a journey through the latest academic research on the topic in the hope of bringing them as close as possible to the heart of the debate It also has as its objective to provide the most satisfactory answers to the most bewildering questions readers may have about the authenticity of the two texts in question the New Testament and the Qur'an The author's expertise in both areas the Biblical and Qur'anic will enable the reader to gain solid knowledge of the subject matter tackled in this book
