Cases on the Law of Personal Property (Classic Reprint) John V. Brennan, 2017-09-13 Excerpt from Cases on the Law of Personal Property The purpose of this book is to set out and illustrate by concrete cases these fundamental principles In selecting these cases the author has kept in mind two things viz first to include no case based on obsolete law second to include only so much of the case as is in point The cases have also been arranged in such a way as to develop in a logical order the legal principles under discussion As a further help to the student a topical heading has been used for each case or group of cases the purpose being to give the student something definite to look for The heading however in no instance reveals the holding of the case for the author has been as careful to prevent legal conclusions being drawn from the headings as he has been particular in selecting suitable headings The cases selected are of such a type and variety as to illustrate in a comprehensive manner the underlying principles of the law of Personal Property About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Prentice-Hall Tax Service for 1919 (Classic Reprint) Prentice-Hall Inc, Prentice-Hall, inc, 1919 Excerpt from Prentice Hall Tax Service for 1919 This allowance is not based upon the difference between the actual war cost of such facilities and what they would have cost at pre war prices Obviously the taxpayer is not entitled to recover or extinguish through amortization more than the difference between the war cost of such property and what he can sell the property for after the war or if he continues to need and use it in his business what it would have cost him after the war As the rule is expressed in Article 183 of the Regulations The total amount to be extinguished by amortization in general is the excess of the unextinguished or unrecovered cost of the property over its maximum value either for sale or for use as part of the plant or equipment of a going business under stable post war Conditions About the Publisher Forgotten Books publishes hundreds

Observations Upon the Natural History of Epidemic Diarrhoea (Classic Reprint) O. H. Peters, 2018-02-06 Excerpt from Observations Upon the Natural History of Epidemic Diarrhoea The causative agencies from which springs the plentiful harvest of child mortality in large cities may be conceived as a felted mass of rootlets almost inextricably intertwined Those of poverty bad housing bad feeding and neglect may be severally recognized but the extent of their interrelations with actual respiratory and alimentary disease those to which the greater part of the mortality is referred can be traced only with difficulty It is the object Of this work to aid In the labour of cutting away the matrix and entangling fibres and to lay bare the hidden ramifications of at least one important causative agency epidemic diarrhoea This affection if we accept provisionally the more novel and generally favoured conception As to its nature is revealed as something very like an ordinary infectious disease and one which permeates all classes while the excessive mortality it gathers round itself in urban centres must be regarded as something superadded owing to the vicious circle it forms with those baneful conditions of slum life mentioned above On the other hand its peculiarly intimate association with the circumstances of domestic life from the continual faecal pollution of the interior of the household by infants and others tends to make it more so than other affections of the kind peculiarly a class disease and an especial scourge of dirty neighbourhoods Dirty towns may however be saved from excessive mortality by a high percentage of breast feeding A notable point in the interesting comparison that can be drawn between diarrhoea and typhoid fever is that in accordance with their peculiarly opposite age incidence curves the marked and habitual depositing of infectious excreta within the household in the former disease may make the question of water closet versus conservancy pan a matter of far less importance than in the latter About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
