Creation, Catastrophe & Calvary John Templeton Baldwin, 2000 In this scientific age what difference does it make whether I believe the world was created in six literal days and that the world was destroyed by a global flood In answering these questions Creation Catastrophe and Calvary shows how these beliefs are related to key issues such as the forgiveness of our sins and Sabbath observance Foreword Introduction Meet the Authors An Angel's Worldview The Days of Creation in Genesis 1 A Second Creation Account Biblical Evidence for the Universality of the Genesis Flood The Grand Canyon and the Genesis Flood The Geologic Column and Calvary The Rainbow Connection Implications for an Evangelical Understanding of the Atonement Evolution A Theory in Crisis The Role of Creation in Seventh day Adventist Theology Science and Theology Focusing the Complementary Lights of Jesus Scripture and Nature

Hayward, 2020-04-29 An earnest young boy who loves nature grows up the son of a fundamentalist pastor He goes to college trains as a biologist and becomes a successful university professor In the process he finds some of the religious beliefs that carried him through childhood and adolescence indefensible in the face of evidence from biology and geology and even from Scripture itself What's he to do This is the journey of a boy turned scientist who finds a path away from the idols of fundamentalism and toward a universe rich with process intrigue and mystery Along the way he discovers a faith consistent with physical reality one open to beauty kindness and hope *Geology and Religion* Martina Kölbl-Ebert, Geological Society of London, 2009 The book discusses this long standing relationship from a historical point of view which in the past has been sometimes indifferent sometimes fruitful and sometimes full of conflict The relationship continues well into the present While Christian fundamentalists attack evolution and related palaeontological findings as well as the geological evidence of the age of the Earth mainstream theologians strive for a fruitful dialogue between science and religion Much of what is written and discussed today can only be understood when the historical perspective is added This book considers the following topics the development of geology from mythological approaches towards the European Enlightenment Biblical or Geological Flood and the age of the Earth geology within religious organizations biographical case studies of geological clerics and religious geologists religion and evolution historical aspects of creationism and its motives God Saw That It Was Good, Not Perfect

Hulisani Ramantswana, 2024-12-20 The reversal of creation to a non functional state is understood to be symbolic of God's judgement whereas its restoration symbolizes hope A firm understanding of the crucial theological topic of creation is essential for comprehending the canonical story and redemptive history present in Genesis 1-3 Yet how has the traditional progressive reading of these chapters formed our understanding of the goodness of creation in relation to perfection and functionality Considering the broader canonical context Dr Hulisani Ramantswana challenges the standard interpretation of these chapters and argues that the goodness of creation does not imply perfection but instead infers its functionality

Proposing an alternative reading he contends the hope in a new heaven and new earth suggests a radical transformation of the good creation instead of merely a restoration Through analyzing the formula of approval in Genesis 1:3 he considers the impact this reframing of goodness might have on the doctrine of creation and how it aids in comprehending our position in a creation that is flawed by evil Stimulating and thought provoking those interested in cultivating a deeper understanding creation and re creation in the canonical perspective will appreciate this study

Friend of Science, Friend of Faith Gregg Davidson, 2019-11-19 A scientist explores the harmony between Christian faith and science Though some Christians and many skeptics see science and Christianity as locked in a never ending battle geologist Gregg Davidson contends that there is tremendous harmony between Scripture and modern science Many apparent conflicts arise when the Bible is interpreted apart from its literary and historical contexts but when these are taken into account most alleged clashes resolve Proceeding from a belief that Scripture is inspired and without error and that God's creation should inform how we interpret the Bible Davidson shows that Scripture and science need not disagree on issues like the age of the earth Adam and Eve Noah's flood the origin and development of life and numerous related topics Rather Christians can rejoice at how God's glory is revealed in both the Bible and the natural world
