Collected Ancient Greek Novels By Reardon B P 2008 Paperback:

Collected Ancient Greek Novels B. P. Reardon, 2019-05-07 Prose fiction although not always associated with classical antiquity flourished in the early Roman Empire not only in realistic Latin novels but also and indeed principally in the Greek ideal romance of love and adventure Enormously popular in the Renaissance these stories have been less familiar in later centuries Translations of the Greek stories were not readily available in English before B P Reardon's first appeared in 1989 Nine complete stories are included here as well as ten others encompassing the whole range of classical themes romance travel adventure historical fiction and comic parody A foreword by J R Morgan examines the enormous impact this groundbreaking collection has had on our understanding of classical thought and our concept of the novel *The Roman World from Romulus to Muhammad* Greg Fisher, 2021-09-20 This volume provides a detailed examination of nearly 1 400 years of Roman history from the foundation of the city in the eighth century BC until the evacuation of Roman troops from Alexandria in AD 642 in the face of the Arab conquests Drawing on a vast array of ancient texts written in Latin Greek Syriac Armenian and Arabic and relying on a host of inscriptions archaeological data and the evidence from ancient art architecture and coinage *The Roman World from Romulus to Muhammad* brings to the fore the men and women who chronicled the story of the city and its empire Richly illustrated with 71 maps and 228 illustrations including 20 in colour and featuring a detailed glossary and suggestions for further reading this volume examines a broad range of topics including ancient climate change literature historiography slavery war and conquest the development of Christianity the Jewish revolts and the role of powerful imperial women The author also considers the development of Islam within a Roman historical context examines the events that led to the formation of the post Roman states in Western Europe and contemplates affairs on the imperial periphery in the Caucasus Ethiopia and the Arabian Peninsula Emphasising the voices of antiquity throughout *The Roman World from Romulus to Muhammad* is an invaluable resource for students and scholars interested in the beguiling history of the world's most famous empire *Ancient Narrative Volume 9*, *Euhemerism and Its Uses* Syrithe Pugh, 2021-03-17 *Euhemerism and Its Uses* offers the first interdisciplinary focussed and all round view of the long history of an important but understudied phenomenon in European intellectual and cultural history Euhemerism the claim that the Greek gods were historically mortal men and women originated in the early third century BCE in an enigmatic and now fragmentary text by the otherwise unknown author Euhemeros This work the Sacred Inscription has been read variously as a theory of religion an atheist's manifesto as justifying or satirizing ruler worship as a fantasy travel narrative and as an early utopia Influencing Hellenistic and Roman literature and religious and political thought and appropriated by early Christians to debunk polytheism while simultaneously justifying the continued study of classical literature euhemerism was widespread in the middle ages and Renaissance and its reverberations continue to be felt in modern myth theory Yet though frequently invoked as a powerful and pervasive tradition across several disciplines it is still under examined and poorly understood Filling an
