Descriptive Translation Studies And Beyond Benjamins Translation Library:

Descriptive Translation Studies and Beyond Gideon Toury, 1995 A replacement of the author's well known book on Translation Theory In Search of a Theory of Translation 1980 this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline having immediate consequences for issues of both a theoretical and applied nature Methodological discussions are complemented by an assortment of case studies of various scopes and levels with emphasis on the need to contextualize whatever one sets out to focus on Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three Concrete descriptive issues are here tackled within ever growing contexts of a higher level texts and modes of translational behaviour in the appropriate cultural setup textual components in texts and through these texts in cultural constellations Part Four asks the question What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice This is an excellent book for higher level translation courses **Beyond**

Descriptive Translation Studies Anthony Pym, Miriam Shlesinger, Daniel Simeoni, 2008-03-13 To go beyond the work of a leading intellectual is rarely an unambiguous tribute However when Gideon Toury founded Descriptive Translation Studies as a research based discipline he laid down precisely that intellectual challenge not just to describe translation but to explain it through reference to wider relations That call offers at once a common base an open and multidirectional ambition and many good reasons for unambiguous tribute The authors brought together in this volume include key players in Translation Studies who have responded to Toury's challenge in one way or another Their diverse contributions address issues such as the sociology of translators contemporary changes in intercultural relations the fundamental problem of defining translations the nature of explanation and case studies including pseudotranslation in Renaissance Italy Sherlock Holmes in Turkey and the coffee and sugar economy in Brazil All acknowledge Translation Studies as a research based space for conceptual coherence and creativity all seek to explain as well as describe In this sense we believe that Toury's call has been answered beyond expectations

Descriptive Translation Studies - and beyond Gideon Toury, 2012-11-21 This is an expanded and slightly revised version of the book of the same title which caused quite a stir when it was first published 1995 It thus reflects an additional step in an ongoing research project which was launched in the 1970s The main objective is to transcend the limitations of using descriptive methods as a mere ancillary tool and place a proper branch of DTS at the very heart of the discipline between the theoretical and the applied branches Throughout the book theoretical and methodological discussions are illustrated by an assortment of case studies the emphasis being on the need to take whatever one wishes to focus on within the contexts which are relevant to it Part One discusses the pivotal position of the descriptive branch within Translation Studies and Part Two then outlines a detailed rationale for that positioning This in turn supplies a framework for

the case studies comprising Part Three where a number of exemplary issues are analysed and contextualized texts and modes of translational behaviour are situated in their cultural setting and textual components are related to their texts and then also to the cultural constellations in which they are embedded All this leads to Part Four which asks what the knowledge accumulated through descriptive studies of the kind advocated in the book is likely to yield in terms of both the theoretical and the applied branches of the field All in all an innovative thought provoking book which no one with a keen interest in translation can afford to ignore

LXX Song of Songs and Descriptive Translation Studies Dries De Crom, 2019-01-21
Dries De Crom intends to stimulate the cross fertilization of Septuagint Studies and Translation Studies particularly the theoretical framework of Descriptive Translation Studies DTS It engages with concepts and theories from DTS in order to demonstrate their applicability to the study of the Septuagint The aim is not to replace the established methods of Septuagint Studies but rather to show that they are fully compatible with descriptive approaches to translation The greater part of the volume is dedicated to a meticulous verse by verse comparison between the LXX and MT texts of Song of Songs As there is at present no full critical edition of the Greek texts of Song of Songs due attention is given to the most important witnesses to the pre Hexaplaric text The textual study engages with matters of translation technique textual criticism linguistic interference and the interpretation of LXX Song of Songs On the basis of this textual analysis the volume explores the question of Kaige Theodotion and LXX Song of Songs relation to it as well as the peculiar textual linguistic profile of LXX Songs of Songs against the background of translational norms interference interlanguage and literary code

Huck Finn in Italian, Pinocchio in English Iain Halliday, 2009 This book represents an investigation into one of the basic issues in the study of translation how do we reconcile theory and practice The main focus in the form of close readings and think aloud protocols in Chapters 2 and 3 is on translations of two classic texts Mark Twain's The Adventures of Huckleberry Finn and Carlo Collodi's Le avventure di Pinocchio The first and last chapters respectively seek to show what translation theory is and what translation practice is Indeed Chapter 1 Theory and Hubris provides a synthesis of the development of the

interdiscipline of Translation Studies with some consideration also given to the hermeneutical questions that inevitably arise when dealing with the interpretation of language

Mediated discourse at the European Parliament: Empirical investigations Marta Kajzer-Wietrzny, Adriano Ferraresi, Ilmari Ivaska, Silvia Bernardini, 2022-10-20 The purpose of this book is to showcase a diverse set of directions in empirical research on mediated discourse reflecting on the state of the art and the increasing intersection between Corpus based Interpreting Studies CBIS and Corpus based Translation Studies CBTS Undeniably data from the European Parliament EP offer a great opportunity for such research Not only does the institution provide a sizeable sample of oral debates held at the EP together with their simultaneous interpretations into all languages of the European Union It also makes available written verbatim reports of the original speeches which used to be translated From a methodological perspective EP materials thus guarantee a great degree of homogeneity which is particularly valuable in corpus studies where data comparability is frequently a challenge In this volume progress is visible in both CBIS and CBTS In interpreting it manifests itself notably in the availability of comprehensive transcription annotation and alignment systems In translation datasets are becoming substantially richer in metadata which allow for increasingly refined multi factorial analysis At the crossroads between the two fields intermodal investigations bring to the fore what these mediation modes have in common and how they differ The volume is thus aimed in particular at Interpreting and Translation scholars looking for new descriptive insights and methodological approaches in the investigation of mediated discourse but it may be also of interest for corpus linguists analysing parliamentary discourse in general

Translation and Style in the Old Greek Psalter Jennifer Brown Jones, 2021-11-15 While some describe the Greek Psalter as a slavish or interlinear translation with dreadfully poor poetry how would its original audience have described it Positioning the translation within the developing corpus of Jewish Greek literature Jones analyzes the Psalter s style based on the textual models and literary strategies available to its translator She demonstrates that the translator both respects the integrity of his source and displays a sensitivity to his translation s performative aspects By adopting recognizable and acceptable Jewish Greek literary conventions the translator ultimately

creates a text that can function independently and be read aloud or performed in the Jewish Greek community
