Cohesion And Discipline In Legislatures Library Of Legislative Studies:

Cohesion and Discipline in Legislatures Reuven Y. Hazan, 2006 This book previously published as a special issue of the Journal of Legislative Studies asks why legislative unity is one of the distinguishing features of modern political parties

Cohesion & Discipline in Legislatures Reuven Y. Hazan, 2005-06-23 This book previously published as a special issue of the Journal of Legislative Studies asks why legislative unity is one of the distinguishing features of modern political parties

Political Parties and the Concept of Power D. Rye, 2014-09-23 An original investigation of the nature of the forces that make members and representatives both loyal and beneficial to a contemporary political party this book combines theoretical reflection with interview and archive material to provide a unique perspective on power arguing that it is more complex and nuanced than is frequently assumed

Parliaments and Citizens Cristina Leston-Bandeira, 2016-04-22 The relationship between parliaments and citizens is one of the least studied subjects in legislative studies yet this is a crucial dimension to understand parliaments and the role they play in our political systems Furthermore this relationship has gained considerable visibility over the last decade thanks in part to the development of new media but also as a reaction to the trends of political apathy In a context of increasing political disengagement parliamentary discourse shifted attention from the traditionally predominant relationship with government to the relationship with citizens Issues of legitimacy became more directly associated with the link between parliament and citizens resulting in investment in new and more complex mechanisms for contact with citizens even in the more centralised systems This book looks at a wide range of case studies across Europe and beyond assessing overall strategies in the move towards stronger engagement with citizens It assesses the extent to which the shift in discourse has led to actual changes in parliamentary practice This book was published as a special issue of the Journal of Legislative Studies

The Oxford Handbook of Legislative Studies Shane Martin, Thomas Saalfeld, Kaare W. Strøm, 2014-06-19 Legislatures are political bodies essential to democracy and the rule of law They present social scientists with numerous intriguing puzzles with far reaching implications for our understanding of political institutions Why and how have these ancient assemblies established in pre democratic times survived the transition to mass democracies How have they adapted How do they structure such processes as budgeting legislation and executive oversight How do their members get selected and what consequences flow from differences in these rules What roles do committees and political parties play in contemporary legislatures What functions do legislatures perform in autocratic semi democratic or recently democratized societies What explains the similarities and differences in legislative rules powers and recruitment What are the policy and other consequences of variation in how legislatures are organized and function The 33 chapters in The Oxford Handbook of Legislative Studies written by 47 of the most distinguished legislative scholars provide a comprehensive and up to date description and assessment of the state of the art in legislative studies Key themes explored include theoretical paradigms and methodological approaches to the study of legislatures representation and legislative

careers internal organization the role of parties within legislatures and the role of legislatures in policy making and accountability The Handbook also explores the emergence of parliaments in historical and contemporary contexts including new democracies and trans national institutions *The Roles and Function of Parliamentary Questions* Shane Martin, Olivier Rozenberg, 2014-06-03 Parliamentary questions are a feature of almost all national legislatures Despite this we know very little about how questions are used by MPs and what impact questions have on controlling the government This volume advances our theoretical and empirical knowledge of the use of questioning in a number of different parliamentary settings The propensity of parliamentarians to ask questions indicates that the interrogatories are an important tool for measuring an individual legislator's job Ultimately how a parliamentarian chooses to use the questioning tool provides a unique insight into legislator behaviour and role orientation Many of the chapters in this volume provide new empirical measures of legislator activity and use this data to provide new tests of leading theories of legislator behaviour At an institutional level questions provide an important source of information for the chamber and are a critical tool of government oversight as many of the chapters in the volume indicate Evidence of the impact of questions on executive and bureaucratic oversight challenges conventional views of parliaments as weak and ineffective parts of the political process This book was published as a special issue of the Journal of Legislative Studies

Exploring Party Switching in East-Central European Legislatures Andrzej Antoszewski, Przemysław Żukiewicz, 2024-09-06 This book challenges the approach of relying on election outcomes to analyse party systems contending that changes can be also identified and documented beyond the scope of parliamentary elections through legislative party switching It argues that significant party system changes occur often within parliamentary terms and legislative party switching is not a pathological feature of democracy but rather an integral component of democratic party systems Offering a comprehensive and specific theoretical framework for party switching and based on a novel and exhaustive database from Czech Republic Lithuania and Poland this book examines the determinants for and implications of legislative party switching in Central and Eastern Europe This book will be of key interest to scholars and students of legislative studies party politics Central and East European politics and more broadly comparative politics and government The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Any third party material in this book is not included in the OA Creative Commons license unless indicated otherwise in a credit line to the material Please direct any permissions enquiries to the original rightsholder

Post-Communist Parliaments David M. Olson, Gabriella Ilonszki, 2013-10-18 At the end of the founding or initial decade the new parliaments of post Communist Europe had developed two distinct types democratic and presidentially dominated Whilst in the early years they had been characterised as parliaments in adolescence they have through the second decade continued to improvise but also elaborate their working relationships with both their chief executives and electorates This book examines these adaptations in seven parliaments

comparing both among them and with parliaments of west Europe Their changes are traced through four distinct sets in context members internal structure and working relationship with the executive This research develops a common perspective for our understanding of both new and developed legislatures by tracing the steps through which new parliaments begin adapt and become established This book was published as a special issue of Journal of Legislative Studies

Government-Opposition in Southern European Countries during the Economic Crisis Elisabetta Giorgi, Catherine Moury, 2017-12-22 As a result of the financial crisis opposition parties have had to choose between the need to cooperate with the majority in order to contribute to necessary socio economic changes and the opportunity to stress their adversarial position vis vis governments taking radical and unpopular measures This book examines how opposition parties address this dilemma It relies on a qualitative and quantitative analysis of the behaviour of the opposition parties in parliament in light of the socio economic issues that have arisen in recent years It focuses in particular on the impact that the economic malaise has had on the government opposition dynamics in the four southern European democracies most acutely hit by the crisis Greece Italy Portugal and Spain as well as in the European Parliament Each chapter utilizes a combination of empirical data analysis and qualitative process tracking to understand the opposition parties complicated choice between supporting and dissenting This book was originally published as a special issue of the Journal of Legislative Studies

Parliamentary Representation in France Olivier Costa, 2017-07-05 Despite real improvements since the beginning of the last decade legislative studies are still underdeveloped in France compared to other modern democracies This weakness is linked to the characteristics of the political system itself the Constitution of 1958 has created a semi presidential regime the centrality of which has been constantly reinforced since The French parliament is thus supposed to be extremely feeble This lack of interest for legislative studies is also to be found in the specificities of French political sociology which pays little attention to institutions As a result very few papers and books deal with French chambers and MPs Yet they are fascinating cases of study for scholars interested in parliamentary representation professionalization of political life and French politics The French parliament and MPs are deeply paradoxical MPs are very attached to the concept of national sovereignty but remain involved at local level and in surgery work the French National Assembly is supposed to be weak but is quite active and influential citizens are more aware of the role of MPs than it seems and their views and values are closer than predicted This book gathers seven papers from the LEGIPAR research project 2008 2012 The project was designed by the contributors to rejuvenate French legislative studies by collecting systematic data on MPs socio biographical profiles and activities conducting face to face interviews gathering exhaustive data on National Assembly activity and organising focus groups to analyse citizens perceptions of their MPs This book was originally published as a special issue of the Journal of Legislative Studies
