Designing and Developing Library Intranets Nina McHale, 2013-09-13 For the past decade e mail has been the preferred method of internal communication in libraries However relying on email for organizational knowledge management seems a bit like storing birth certificates car titles and deeds in a pile of junk mail the important documents are lost amongst other items of only minimal or fleeting importance A successful intranet can provide a secure place for information exchange and storage however in order to be successful a library intranet must be easy to use have the functionality desired by its users and be integrated into the daily workflows of all library staff Accomplishing this can be challenging for web librarians The book covers among other topics third party hosting the use of freely available blog and wiki software for internal staff communication and developing library intranets in ColdFusion Microsoft SharePoint and the open source Drupal content management system CMS More importantly the authors examine in detail the human factors which when not thoroughly addressed are more often the cause for a failed intranet than the technology platform This book was published as a special issue of the Journal of Web Librarianship [Intranet Information Architecture. Designing Information Architecture for New-generation Intranets](#) Giacomo Mason, 2020 *Designing Intranets* James Robertson, 2010 The definitive textbook for intranet teams on how to design intranets that work for staff In 275 pages this book walks through a practical user centred approach to the design process richly illustrating each step with full colour screenshots from organisations across the globe *Intranets* Paul Blackmore, 2001 Supported by global case studies highlighting good practice and from the results of a survey of Top UK Corporate Intranet developers and consultants this book addresses practical business concerns and technical issues It includes advice and commentary received first hand from professionals experienced in their deployment operational management and continuing development
