This book is part of the Cisco Networking Academy Program Series from Cisco Press®. The products in this series support and complement the Cisco Networking Academy Program web-based curriculum.

ciscopress.com

Cisco Networking Academy Program CCNA 3 and 4 Companion Guide, Third Edition, is the Cisco approved textbook that supplements the CCNA 3 and 4 web-based curriculum of the Cisco Networking Academy® Program. The topics covered in this guide provide students with the necessary knowledge to help them prepare for CCNA certification and to enter the field of network administration. The Companion Guide introduces the student to the design, configuration, and maintenance of switches, local-area networks (LANs), and virtual local-area networks (VLANs). It also covers wide-area networks (WANs), Internetwork Packet Exchange (IPX) routing, Enhanced Interior Gateway Protocol (EIGRP), and network troubleshooting. In addition, this guide extends the student's knowledge of Integrated Services Data Network (ISDN), Point-to-Point Protocol (PPP), and Frame Relay design, configuration, and maintenance.

This newly revised and expanded edition maps to version 3 of the web-based curriculum and contains many advancements and extra learning aids, including the following:

- Chapters on classless routing, single-area OSPF, switch configuration, Spanning Tree Protocol, VLAN trunking protocol, and scaling IP addresses, as well as revised coverage of EIGRP, switching concepts and design, and VLANs
- Close alignment with the online CCNA curriculum, helping students enhance their classroom learning experience
- Chapter objectives that provide references to the concepts covered in each chapter, and an extensive glossary lists key terms and their definitions
- References to worksheets and lab activities in the corresponding Lab Companion text
- Review questions at the end of each curriculum chapter that track progress and aid studying
- Accompanying CD-ROM includes exclusive materials developed by the Networking Academy that you won't find in any other books: e-Lab Activities, 500 practice questions with a customizable test engine, PhotoZooms of Cisco equipment, instructional Videos covering difficult course concepts, and additional chapters covering network security, network management, and residential networking

Cisco Press is a collaboration between Cisco Systems, Inc., and Pearson Education that is charged with developing high-quality, cutting-edge educational and reference products for the networking industry. The products in the Cisco Networking Academy Program series are designed to prepare students for careers in the exciting networking field. These products have proven to be strong supplements to the web-based curriculum and are the only print companions that have been reviewed and endorsed by Cisco Systems for Cisco Networking Academy Program use.
