The World Bank Manorama Gotur,2000 **The Escape from Poverty** Olivier De Schutter,Hugh Frazer,Anne-Catherine Guio,Eric Marlier,2023-10-17 The perpetuation of poverty across generations damages lives Drawing on a wide variety of sources and academic disciplines along with lived experiences this book examines why poverty is continued across generations and what needs to be done to eradicate it Relative Effectiveness of Alternative Microfinance-driven Poverty Alleviation Programs in Bangladesh Dr. Tamgid Ahmed Chowdhury,2014-06-26 In general the effectiveness of microfinance driven poverty alleviation programs run by Government Organizations GOs and Non Government Organizations NGOs in developing countries such as Bangladesh is assessed by repayment rates the number of beneficiaries the area coverage the amount of loans disbursed the cost of operations profitability and the financial sustainability of the projects This study argues that these methods are quite restrictive since none of them reflect the perceptions of poor people concerning the effectiveness of such projects Development agencies such as GOs and NGOs have never been compared on the basis of service delivery effectiveness a process based comparison nor have they ever been compared on the basis of their relative contribution to raising the living standards of the poor an outcome based comparison Both types of comparison are crucial to poverty reduction The main reason behind the absence of such comparisons is the unavailability of the appropriate parameters that could be used for such analysis For the process based comparison this study develops and validates a two dimensional multi item service delivery effectiveness scale through construct convergent discriminant and nomological validity The scale captures different aspects of effectiveness in the delivery of services These aspects are termed the credibility dimension and the focus towards beneficiaries dimension of service delivery in poverty alleviation programs For the output based comparison this study also develops and validates a multidimensional poverty model to compare the effectiveness of GOs and NGOs in contributing to the economic social political and cultural elements in the lives of the poor The methodology is based on 930 samples collected from 12 districts and 107 randomly chosen villages in Bangladesh during September December 2009 **Education Outcomes and Poverty in the South** Christopher Colclough,2014-05-05 This text arises out of a five year research programme examining the impact of education on the lives and livelihoods of people in developing countries The book presents theoretical and empirical knowledge that will help to improve education and poverty reduction strategies in developing countries **Children and Young People's Participation and Its Transformative Potential** E.K.M. Tisdall,Andressa M. Gadda,Udi Mandel Butler,2014-09-09 Bringing together theories ideas insights and experiences of practitioners and researchers from Brazil India South Africa and the UK this book explores children and young people s involvement in public action The contributors consider the potential of children and young people s participation to be transformative Poverty Mosaics: Realities and Prospects in Small-Scale Fisheries Svein Jentoft,Arne Eide,2011-07-15 Small scale fisheries are a major source of food and employment around the world Yet many small scale fishers work in

conditions that are neither safe nor secure Millions of them are poor and often they are socially and politically marginalized Macro economic and institutional mechanisms are essential to address these poverty and vulnerability problems however interventions at the local community level are also necessary This requires deep understanding of what poverty means to the fishers their families and communities how they cope with it and the challenges they face to increase resiliency and improve their lives for the better This book provides a global perspective situating small scale fisheries within the broad academic discourse on poverty fisheries management and development In depth case studies from fifteen countries in Latin America Europe South and Southeast Asia and sub Saharan Africa demonstrate the enormously complex ecological economic social cultural and political contexts of this sector Conclusions for policy making formulated as a joint statement by the authors argue that fisheries development poverty alleviation and resource management must be integrated within a comprehensive governance approach that also looks beyond fisheries The scientific editors Svein Jentoft and Arne Eide are both with the Norwegian College of Fishery Science Faculty of Biosciences Fisheries and Economics University of Troms Norway
