

*Mark and Victoria,
always and forever*

It is sharing and caring

Giving and forgiving

Seeing and being loved

Walking hand in hand

Taking heart to heart

Seeing things through each other's eyes

Laughing together

Weeping together

And always trusting

And believing

And thanking God for each other

For love that is shared is a beautiful thing

It enriches the soul and makes the heart sing

Annual Fifty Poems by American Poets Joseph Dean, 1927 *The Seven Tengu Scrolls* Haruko Wakabayashi, 2012-04-30 This is a study of visual and textual images of the mythical creature tengu from the late Heian 897-1185 to the late Kamakura 1185-1333 periods Popularly depicted as half bird half human creatures with beaks or long noses wings and human bodies tengu today are commonly seen as guardian spirits associated with the mountain ascetics known as yamabushi In the medieval period however the character of tengu most often had a darker more malevolent aspect Haruko Wakabayashi focuses in this study particularly on tengu as manifestations of the Buddhist concept of M^{ra} or ma the personification of evil in the form of the passions and desires that are obstacles to enlightenment Her larger aim is to investigate the use of evil in the rhetoric of Buddhist institutions of medieval Japan Through a close examination of tengu that appear in various forms and contexts Wakabayashi considers the functions of a discourse on evil as defined by the Buddhist clergy to justify their position and marginalize others Early chapters discuss Buddhist appropriations of tengu during the late twelfth and thirteenth centuries in relation to the concept of ma Multiple interpretations of ma developed in response to changes in society and challenges to the Buddhist community which recruited tengu in its efforts to legitimize its institutions The highlight of the work discusses in detail the thirteenth century narrative scroll Tengu z shi also known as the Shichi Tengu e or the Seven Tengu Scrolls in which monks from prominent temples in Nara and Kyoto and leaders of new Buddhist sects Pure Land and Zen are depicted as tengu Through a close analysis of the Tengu z shi's pictures and text the author reveals one aspect of the critique against Kamakura Buddhism and how tengu images were used to express this in the late thirteenth century She concludes with a reexamination of the meaning of tengu and a discussion of how ma was essentially socially constructed not only to explain the problems that plague this world but also to justify the existence of an institution that depended on the presence of evil for its survival Drawing on a wide range of primary sources Wakabayashi provides a thoughtful and innovative analysis of history and religion through art The Seven Tengu Scrolls will therefore appeal to those with an interest in Japanese art history and religion as well as in interdisciplinary approaches to socio cultural history *The Five Biblical Scrolls* Andrew Vogel Ettin, 2025-05-22 The biblical books known as The Five Scrolls or Megillot are major religious writings as well as masterpieces of poetry and prose that have inspired countless works of music art and literature They speak to us today across the centuries with immediacy and profound relevance This book provides the contexts for understanding all the scrolls and the ways in which they function in Jewish worship while also closely analyzing their artistry and unfolding their spiritual richness through traditional sources along with modern interpretations It points the reader to other works of culture that each of the texts has influenced over the centuries With meaningful contemporary insights and a new appreciation of

what these books contribute to our understanding of divine agency at work in the world The Five Biblical Scrolls addresses these texts as profound literary and spiritual experiences *Aspects of the Poetry of Dafydd Ap Gwilym* Rachel

Count God In Loren F. Bliese,2018-03-09 This study of Song of Songs uncovers many patterns related to the numerical value twenty six and related numbers for the divine name YHWH Patterns are so unique that they clearly show authorial intent They involve the numerical value of root forms of words their sequences and their totals in the book The beloved man is highlighted by special patterns which indicate that a typology for God is intended Deer names in the refrain have number patterns that confirm intention for being circumlocutions for divine names The disputed presence of the divine name YH in 8 6 is confirmed by the value of its full word One of the most striking patterns found with the help of a computer is that the totals of root words are all arranged to point to theological numbers in a beautiful intricacy Besides describing these patterns this study discusses numerical competence within a proposed Hebrew literary circle and what steps they might have gone through to create these amazing phenomena These theological numbers confirm intentionality for allusions to the Hebrew Bible and support a hermeneutic of spiritual applications A literary analysis of each poem focuses on the use of numbers among other features of prominence Two Gentlemen of China Lady Hosie,1924 Capital Poets Colin Morton,1989
