Zohreh Kermani,2013-07-29 An intriguing important and often entertaining look at an under studied aspect of new religions Highly recommended Douglas E Cowan author of Cyberhenge Modern Pagans on the Internet For most of its history contemporary Paganism has been a religion of converts Yet as it enters its fifth decade it is incorporating growing numbers of second generation Pagans for whom Paganism is a family tradition not a religious worldview arrived at via a spiritual quest In Pagan Family Values S Zohreh Kermani explores the ways in which North American Pagan families pass on their beliefs to their children and how the effort to socialize children influences this new religious movement The first ethnographic study of the everyday lives of contemporary Pagan families this volume brings their experiences into conversation with contemporary issues in American religion Through formal interviews with Pagan families participant observation at various pagan events and data collected via online surveys Kermani traces the ways in which Pagan parents transmit their religious values to their children Rather than seeking to pass along specific religious beliefs Pagan parents tend to seek to instill values such as religious tolerance and spiritual independence which will remain with their children throughout their lives regardless of these children s ultimate religious identifications S Zohreh Kermani teaches Religious Studies part time at Youngstown State University In the New and Alternative Religions series **Karma-free in the New Time** Anni Sennoy,2015-01-01 The energy conditions behind the scenes in Earth s spiritual hinterland have always been a secret for the vast majority of people on Earth This is because people on the soul plane have been subjected for many millennia to the Law of Karma where their fate has been predetermined and they have had precious little say in shaping their own lives For a great many people it is a radically new idea that the aura should be so significant in our spiritual and consciousness development By changing your aura structure you can enhance your personal energy imprint and increase the intake of your spiritual consciousness In this short book the concepts of Karma the Shamballah force the Hierarchy the New Time energy and Aura Transformation are all explained in a down to earth manner You will also begin to clearly understand exactly why we really do need an overall energy shift today here on Planet Earth The Spiritual Password Princess Märtha Louise,Elizabeth Nordeng,2014-01-06 Do you ever feel different to the people around you or long for a deeper connection to spirit This enlightening book will help you to
