Crime of the Century: Classic Rock and True Crime Angie Moon, 2024-03-28 *Crime of the Century* is a comprehensive book about classic rock's connections to true crime cases with over twenty true stories of classic rock musicians and their encounters with murderers and musicians who committed murders Inside the book you'll find the most famous stories like how The Beach Boys met Charles Manson and how Phil Spector went from legendary producer to convicted murderer There are stories of how classic rockers encountered some of the most notorious serial killers like The Kinks meeting John Wayne Gacy on their 1965 American tour and Debbie Harry allegedly getting into Ted Bundy's car in the early 70s You'll see how the Manson Family's classic rock connections run deeper than you thought with their encounters with Neil Young John Phillips Tony Valentino Phil Ochs and Frank Zappa You'll also learn how classic rockers were only a few degrees of separation from presidential assassinations and attempted assassinations like The Band meeting Jack Ruby Squeaky Fromme pursuing Jimmy Page and John Hinckley's encounter with DEVO and how they used the poem he wrote for Jodie Foster as song lyrics It's a wild and crazy ride through classic rock history But believe it or not these are all true stories

The Crimes of Womanhood A. Cheree Carlson, 2010-10-01 Cultural views of femininity exerted a powerful influence on the courtroom arguments used to defend or condemn notable women on trial in nineteenth century and early twentieth century America By examining the colorful rhetorical strategies employed by lawyers and reporters of women's trials in newspaper articles trial transcriptions and popular accounts A Cheree Carlson argues that the men in charge of these communication avenues were able to transform their own values and morals into believable narratives that persuaded judges juries and the general public of a woman's guilt or innocence Carlson analyzes the situations of several women of varying historical stature from the insanity trials of Mary Todd Lincoln and Lizzie Borden's

trial for the brutal slaying of her father and stepmother to lesser known trials involving insanity infidelity murder abortion and interracial marriage The insanity trial of Elizabeth Parsons Ware Packard the wife of a minister resulted from her attempts to change her own religion while a jury acquitted Mary Harris for killing her married lover suggesting that loss of virginity to an adulterous man was justifiable grounds for homicide The popular conception of abortion as a woman's crime came to the fore in the case of Ann Loman also known as Madame Restell who performed abortions in New York both before and after it became a crime Finally Alice Rhinelander was sued for fraud by her new husband Leonard for passing as white but the jury was more moved by the notion of Alice being betrayed as a woman by her litigious husband than by the supposed defrauding of Leonard as a white male Alice won the case but the image of womanhood as in need of sympathy and protection won out as well At the heart of these cases Carlson reveals clearly just how narrow was the line that women had to walk since the same womanly virtues that were expected of them passivity frailty and purity could be turned against them at any time These trials of popular status are especially significant because they reflect the attitudes of the broad audience indicate which forms of knowledge are easily manipulated and allow us to analyze how the verdict is argued outside the courtroom in the public and press With gripping retellings and incisive analysis of these scandalous criminal and civil cases this book will appeal to historians rhetoricians feminist researchers and anyone who enjoys courtroom drama

Premenstrual Syndrome Benson Ginsburg, 2012-12-06 As the work on a revised edition of the Diagnostic and Statistical Manual OSM IIIR progressed a great controversy grew over the inclusion of a new diagnostic category Premenstrual Phase Dysphoric Disorder Some nosologists and scientists who study premenstrual syndrome PMS felt that while a specific psychiatric disorder does exist it occurs relatively rarely The disorder can be characterized by recurrent periods of dysphoria on a monthly basis in synchrony with the menstrual period PMS already exists as a diagnosis in ICD 9 the international medical nomenclature The category for DSM IIIR was to be a specific psychiatric disorder concentrating on the dysphoric reaction and not including all of the physical and mental symptoms that people have ascribed to this condition Much of the controversy that ensued had little to do with the diagnostic category or the condition itself Rather it concerned feelings voiced by feminist groups that the new diagnostic category would be misleading that it would inappropriately label women as mentally ill and that it would be affixed
