Byzantine Defenders Of Images Byzantine Defenders Of Images:

Byzantine Defenders of Images Alice-Mary Maffry Talbot, 1998 The seven vitae feature holy men and women who opposed imperial edicts and suffered for their defense of images from the nun Theodosia whose efforts to save the icon of Christ Chalkites made her the first iconodule martyr to Symeon of Lesbos the pillar saint whose column was attacked by religious fanatics Life of St Theodosia of Constantinople Life of St Stephen the Younger Life of St Anthousa of Mantineon Life of St Anthousa Daughter of Constantine V Life of the Patriarch Nikephoros I of Constantinople Life of Sts David Symeon and George of Lesbos Life of St Ioannikios Life of St Theodora the Empress **Byzantine Defenders of Images** Alice-mary Talbot, 1998 For almost a century and a half theological and popular opinions among Byzantines were strongly divided on the question of the manufacture and veneration icons of Christ the Virgin and saints Byzantine Defenders of Images features a fascinating cohort of holy men and women who opposed imperial edicts and suffered for their defense of images *Women in Purple* Judith Herrin, 2021-09-14 In the eighth and ninth centuries three Byzantine empresses Irene Euphrosyne and Theodora changed history Their combined efforts restored the veneration of icons saving Byzantium from a purely symbolic and decorative art and ensuring its influence for centuries to come In this exhilarating and highly entertaining account one of the foremost historians of the medieval period tells the story of how these fascinating women exercised imperial sovereignty with consummate skill and sometimes ruthless tactics Though they gained access to the all pervasive authority of the Byzantine ruling dynasty through marriage all three continued to wear the imperial purple and wield tremendous power as widows From Constantinople their own Queen City the empresses undermined competitors and governed like men They conducted diplomacy across the known world negotiating with the likes of Charlemagne Roman popes and the great Arab caliph Harun al Rashid Vehemently rejecting the ban on holy images instituted by their male relatives Irene and Theodora used craft and power to reverse the official iconoclasm and restore icons to their place of adoration in the Eastern Church In so doing they profoundly altered the course of history The art and not only the art of Byzantium of Islam and of the West would have been very different without them As Judith Herrin traces the surviving evidence she evokes the complex and deeply religious world of Constantinople in the aftermath of Arab conquest She brings to life its monuments and palaces its court ceremonies and rituals the role of eunuchs the third sex bride shows and the influence of warring monks and patriarchs Based on new research and written for a general audience *Women in Purple* reshapes our understanding of an empire that lasted a thousand years and splashes fresh light on the relationship of women to power **Scenting Salvation** Susan Ashbrook Harvey, 2015-08-25 This book explores the role of bodily sensory experience in early Christianity first seventh centuries AD by focusing on the importance of smell in ancient Mediterranean culture Following its legalization in the fourth century Roman Empire Christianity cultivated a dramatically flourishing devotional piety in which the bodily senses were utilized as crucial instruments of human divine interaction Rich olfactory practices developed as part of this shift with lavish

uses of incense holy oils and other sacred scents At the same time Christians showed profound interest in what smells could mean How could the experience of smell be construed in revelatory terms What specifically could it convey How and what could be known through smell Scenting Salvation argues that ancient Christians used olfactory experience for purposes of a distinctive religious epistemology formulating knowledge of the divine in order to yield in turn a particular human identity Using a wide array of Pagan Jewish and Christian sources Susan Ashbrook Harvey examines the ancient understanding of smell through religious rituals liturgical practices mystagogical commentaries literary imagery homiletic conventions scientific medical and cosmological models ascetic disciplines theological discourse and eschatological expectations In the process she argues for a richer appreciation of ancient notions of embodiment and of the roles the body might serve in religion

Beholding Violence in Medieval and Early Modern Europe Allie Terry-Fritsch, 2017-07-05 Interested in the ways in which medieval and early modern communities have acted as participants observers and interpreters of events and how they ascribed meaning to them the essays in this interdisciplinary collection explore the concept of beholding and the experiences of individual and collective beholders of violence during the period Addressing a range of medieval and early modern art forms including visual images material objects literary texts and performances the contributors examine the complexities of viewing and the production of knowledge within cultural political and theological contexts In considering new methods to examine the process of beholding violence and the beholder's perspective this volume addresses such questions as How does the process of beholding function in different aesthetic conditions Can we speak of such a thing as the period eye or an acculturated gaze of the viewer If so does this particularize the gaze or does it risk universalizing perception How do violence and pleasure intersect within the visual and literary arts How can an understanding of violence in cultural representation serve as means of knowing the past and as means of understanding and potentially altering the present

Inventing Slavonic Mirela Ivanova, 2024-01-13 Few alphabets in the world are actively celebrated and none more so than the Slavonic Annually across Eastern Europe the alphabet and its inventors Cyril and Methodios are celebrated with parades concerts liturgical services and public addresses by presidents ministers and mayors Inventing Slavonic Cultures of Writing Between Rome and Constantinople offers a new reading of the invention of the Slavonic alphabet and its implications Its premise is simple namely that the alphabet was not invented once but that it continued to be contested and redefined in the century after its creation However Inventing Slavonic goes against the grain of modern scholarship and popular common sense where a stable and fossilized story about Cyril his brother and companion Methodios and the alphabet still persists Mirela Ivanova shows that this well known story is in fact a Frankenstein's monster bolted together from texts which originally attributed quite different and often conflicting meanings to the elements which make up this supposedly unified narrative In this narrative's place the book offers a series of new readings of our earliest sources for the alphabet's appearance In doing so it constructs a new social history of the early script's fragility and the ways in which its existence was

conditioned by changes in socio political life between Rome and Constantinople Varieties of Monastic Experience in Byzantium, 800-1453 Alice-Mary Talbot, 2019-04-30 In this unprecedented introduction to Byzantine monasticism based on the Conway Lectures she delivered at the University of Notre Dame in 2014 Alice Mary Talbot surveys the various forms of monastic life in the Byzantine Empire between the ninth and fifteenth centuries It includes chapters on male monastic communities mostly cenobitic but some idiorrhythmic in late Byzantium nuns and nunneries hermits and holy mountains and a final chapter on alternative forms of monasticism including recluses stylites wandering monks holy fools nuns disguised as monks and unaffiliated monks and nuns This original monograph does not attempt to be a history of Byzantine monasticism but rather emphasizes the multiplicity of ways in which Byzantine men and women could devote their lives to service to God with an emphasis on the tension between the two basic modes of monastic life cenobitic and eremitic It stresses the individual character of each Byzantine monastic community in contrast to the monastic orders of the Western medieval world and yet at the same time demonstrates that there were more connections between certain groups of monasteries than previously realized The most original sections include an in depth analysis of the challenges facing hermits in the wilderness and special attention to enclosed monks recluses and urban monks and nuns who lived independently outside of monastic complexes Throughout Talbot highlights some of the distinctions between the monastic life of men and women and makes comparisons of Byzantine monasticism with its Western medieval counterpart **Sacred Shock: Framing Visual Experience in Byzantium** Glenn Peers, 2004 Sacred Shock attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art **Byzantium in the Iconoclast Era (ca 680-850): The Sources** Leslie Brubaker, John Haldon, 2017-03-02 Iconoclasm the debate about the legitimacy of religious art that began in Byzantium around 730 and continued for nearly 120 years has long held a firm grip on the historical imagination Byzantium in the Iconoclast Era is the first book in English to survey the original sources crucial for a modern understanding of this most elusive and fascinating period in medieval history It is also the first book in any language to cover both the written and the visual evidence from this period a combination of particular importance to the iconoclasm debate The authors an art historian and a historian who both specialise in the period have worked together to provide a comprehensive overview of the visual and the written materials that together help clarify the complex issues of iconoclasm in Byzantium *The Wiley Blackwell Companion to Christian Martyrdom* Paul Middleton, 2020-04-06 A unique wide ranging volume exploring the historical religious cultural political and social aspects of Christian martyrdom Although a well studied and researched topic in early Christianity martyrdom had become a relatively neglected subject of scholarship by the latter half of the 20th century However in the years following the attack on the Twin Towers on September 11 2001 the study of martyrdom has experienced a remarkable resurgence Heightened cultural religious and political debates about Islamic martyrdom have in a large part prompted increased interest in the role of martyrdom in the Christian tradition The Wiley Blackwell Companion to

Christian Martyrdom is a comprehensive examination of the phenomenon from its beginnings to its role in the present day. This timely volume presents essays written by 30 prominent scholars that explore the fundamental concepts, key questions, and contemporary debates surrounding martyrdom in Christianity. Broad in scope, this volume explores topics ranging from the origins, influences, and theology of martyrdom in the early church, with particular emphasis placed on the Martyr Acts, to contemporary issues of gender identity construction and the place of martyrdom in the modern church. Essays address the role of martyrdom after the establishment of Christendom, especially its crucial contribution during and after the Reformation period in the development of Christian and European national building, as well as its role in forming Christian identities in Asia, Africa, and the Americas. This important contribution to Christian scholarship offers the first comprehensive reference work to examine the topic of martyrdom throughout Christian history. Includes an exploration of martyrdom and its links to traditions in Judaism and Islam. Covers extensive geographical zones, time periods, and perspectives. Provides topical commentary on Islamic martyrdom and its parallels to the Christian church. Discusses hotly debated topics such as the extent of the Roman persecution of early Christians. The Wiley Blackwell Companion to Christian Martyrdom is an invaluable resource for scholars and students of religious studies, theology, and Christian history, as well as readers with interest in the topic of Christian martyrdom.
