Territorial Development, Cohesion and Spatial Planning Neil Adams, Giancarlo Cotella, Richard Nunes, 2012-08-06 This book examines some of the evolving challenges faced by EU regional policy in light of enlargement and to assess some of the approaches and trends in terms of territorial development policy and practice that are emerging out of this process Focusing on the experiences on Central and Eastern Europe these chapters reflect on the diversity of approaches to spatial planning and the the politics of policy formation and multi level governance operations from local to trans national agendas Promoting increased awareness and understanding of these issues is the main purpose of the book as well as harnessing the extensive capacity and knowledge within these countries that can greatly enrich the discourse within an enlarged epistemic community of European spatial planning academics practitioners and policy makers The recently acquired CEE dimension provides a unique opportunity to examine the evolution of existing epistemic communities as well as to explore the potential emergence of new ones

Handbook of Universities and Regional Development Attila Varga, Katalin Erdős, 2019-12-27 The Handbook on Universities and Regional Development offers a comprehensive and up to date insight into how academic institutions spur their surroundings The volume sheds light on universities as regional development actors from a historical perspective by introducing institutional changes and discussing the interrelatedness of society business and academia It provides detailed investigations on various knowledge transfer mechanisms to help understand the diverse ways through which ideas and intellectual

property can flow between universities and businesses Detailed case studies from three continents Europe Asia and America demonstrate the highly contextual nature of the interactions between academia industry and government *In Pursuit of Practical Wisdom* Peter Lenney, Lisa Gunther, Mark Dawson, 2025-09-04 The literature on practical wisdom and on judgment is vast but often lacks practical applicability This book provides practical guidance on how managers or managers to be can improve their chances of making good decisions in the testing circumstances of managerial life We define Practical Wisdom as the capacity that enables good judgements to be made and consider properly how to deal better with the world in which they are engaged The world in which all of us are asked to make decisions is volatile uncertain complex and ambiguous VUCA This VUCA world is suffused with wicked problems multitudinous often divergent vested interests and clashing perspectives It is a wicked world where there is no science of choice to assist us nor any firm ground of truth on which to stand The book aims to address the how of good judgement and the how of becoming practically wise to better deal with this VUCA world Practical wisdom is neither some magical superpower nor another intelligence nor an innate capability One is not born wise and age does not necessarily make one wise In Pursuit of Practical Wisdom attempts to focus on the development of the conduct necessary to be a good judge It unpacks and operationalises the ancient conception of practical wisdom into a nexus of understandable and attackable dispositions and capabilities that a good judge pursues The book contains exercises and activities to assist readers in developing dispositions and capabilities that constitute practical wisdom and underpin good judgement A bibliography for each chapter is included China 2030 Development Research Center of the State Council, The World Bank, 2013-03-26 China should complete its transition to a market economy through enterprise land labor and financial sector reforms strengthen its private sector open its markets to greater competition and innovation and ensure equality of opportunity to help achieve its goal of a new structure for economic growth These are some of the key findings of China 2030 a joint research report by a team from the World Bank and the Development Research Center of China s State Council This report lays out the case for a new development strategy for China to rebalance the role of government and market private sector and society to reach the goal of becoming a high income country by 2030 China 2030 recommends steps to deal with the risks facing China over the next 20 years including the risk of a hard landing in the short term as well as challenges posed by an ageing and shrinking workforce rising inequality environmental stresses and external imbalances The report presents six strategic directions for China s future Completing the transition to a market economy Accelerating the pace of open innovation Going green to transform environmental stresses into green growth as a driver for development Expanding opportunities and services such as health education and access to jobs for all people Modernizing and strengthening its domestic fiscal system and Seeking mutually beneficial relations with the world by connecting China s structural reforms to the changing international economy *Enterprising Initiatives in the Experience Economy* Britta Timm Knudsen, Dorthe Refslund Christensen, Per Blenker, 2014-09-19 Over the last decade the close relationship between culture

and economy or the experience economy has risen on the agenda. Although there is an established research field for analysing the economic impact of entrepreneurship, there is currently a limited amount of research that analyses the cultural impact and opportunity of entrepreneurship. Linking experience economy with enterprising behavior moves the term away from businesses competitiveness and consumer behavior towards a more value focused business in general. This ground breaking book integrates entrepreneurship and empowerment into one central theme, drawing on research from both the social sciences (innovation, entrepreneurship, empowerment and activism) and the humanities (participatory culture, user generated designs, creative networks). Enterprising Initiatives expands the definition of entrepreneurship beyond a primarily economic profit seeking phenomenon to a broader understanding of enterprising behaviour based on an individual opportunity nexus. Beyond social entrepreneurship, it explores a broad range of individual, collective and cooperative citizen initiatives under the umbrella of enterprising action. This innovative approach will be of great interest to scholars in entrepreneurship, social entrepreneurship, cultural entrepreneurship, cultural studies and consumer culture, as well as for policy makers in public and local government, regional development and cultural event management.
