A Century of Dishonor Helen Hunt Jackson, H. B. Whipple, Julius H. Seelye, 2001-05-01 Originally published over 100 years ago *A Century of Dishonor* is Helen Jackson s eye opening sketch of the U S government s often shameful mishandling of what was called the Indian problem Using official documents as authentic research materials Jackson asserts that the government and citizens of the United States were the cause of the problems and not the Native peoples Broken treaties inhuman treatment restricted to reservations unfit for habitation or traditional lifestyle all of these actions were taken against Indian tribes by a government that treated them with less consideration and compassion than that of a foreign country Copyright Libri GmbH All rights reserved

The United States of War David Vine, 2020-10-13 The United States has been fighting wars constantly since invading Afghanistan in 2001 This nonstop warfare is far less exceptional than it might seem the United States has been at war or has invaded other countries almost every year since independence In *The United States of War* David Vine traces this pattern of bloody conflict from Columbus s 1494 arrival in Guantanamo Bay through the 250 year expansion of a global US empire Drawing on historical and firsthand anthropological research in fourteen countries and territories *The United States of War* demonstrates how US leaders across generations have locked the United States in a self perpetuating system of permanent war by constructing the world s largest ever collection of foreign military bases a global matrix that has made offensive interventionist wars more likely Beyond exposing the profit making desires political interests racism and toxic masculinity underlying the country s relationship to war and empire *The United States of War* shows how the long history of U S military expansion shapes our daily lives from today s multi trillion dollar wars to the pervasiveness of violence and militarism in everyday U S life The book concludes by confronting the catastrophic toll of American wars which have left millions dead wounded and displaced while offering proposals for how we can end the fighting

Geographies of Travel Susan L. Roberson, 2025-05-01 Travel writing was the most popular genre of writing in the nineteenth century Initially published in newspapers and journals as dispatches from the road these works allowed readers to join in on fabulous adventures by becoming armchair tourists second hand voyeurs of the peoples and places the writer

visited In order to take readers along on their journeys travel writers typically recorded miles covered and dates of travel in a log or diary They also documented key details of the experience itself describing the conditions of the road the people they met and their accommodations food and clothing The nineteenth century specifically offered a form of travel writing that commented on the ruined environment that ran afoul of the century's ethos of progress with voices such as Henry David Thoreau John Muir and John James Audubon exploring a newfound environmental consciousness Geographies of Travel is organized geographically by region with essays examining local journeys in the Northeast Midwest Far West and the South This regional arrangement allows readers to consider the geographic imagination of each region and the kinds of travel it invited as well as providing valuable insight on the ways in which Americans reacted to both natural and social regional landscapes Each region is treated chronologically so as to interrogate not only individual narratives but also the ways that travel tourism and modes of transportation evolved over time The work concludes with an examination of Henry James's The American Scene in a coda that brings together his astute observations of the Northeast and the South at the turn of the century Occasional interludes point to the ways that travel reverberates in the artistic work of some of the authors making connections between travel and the imagination

Transatlantic Footholds Stephanie Palmer, 2019-07-16 Transatlantic Footholds Turn of the Century American Women Writers and British Reviewers analyses British reviews of American women fiction writers essayists and poets between the periods of literary domesticity and modernism The book demonstrates that a variety of American women writers were intelligently read in Britain during this era British reviewers read American women as literary artists as women and as Americans While their notion of who counted as women was too limited by race and class they eagerly read these writers for insight about how women around the world were entering debates on women's place the class struggle religion Indian policy childrearing and high society In the process by reading American women in varied ways reviewers became hybrid and dissenting readers The taste among British reviewers for American women's books helped change the predominant direction that high culture flowed across the Atlantic from east to west to west to east Britons working in London or far afield were deeply invested in the idea of America America their responses prove is a transnational construct

Race, Nation, and Empire in American History James T. Campbell, Matthew Pratt Guterl, Robert G. Lee, 2017-12-10 While public debates over America's current foreign policy often treat American empire as a new phenomenon this lively collection of essays offers a pointed reminder that visions of national and imperial greatness were a cornerstone of the new country when it was founded In fact notions of empire have long framed debates over western expansion Indian removal African slavery Asian immigration and global economic dominance and they persist today despite the proliferation of anti-imperialist rhetoric In fifteen essays distinguished historians examine the central role of empire in American race relations nationalism and foreign policy from the founding of the United States to the twenty-first century The essays trace the global expansion of American merchant capital the rise of an evangelical Christian mission movement the

dispossession and historical erasure of indigenous peoples the birth of new identities and the continuous struggles over the place of darker skinned peoples in a settler society that still fundamentally imagines itself as white Full of transnational connections and cross pollinations of people appearing in unexpected places the essays are also stories of people being put quite literally in their place by the bitter struggles over the boundaries of race and nation Collectively these essays demonstrate that the seemingly contradictory processes of boundary crossing and boundary making are and always have been intertwined Contributors James T Campbell Brown University Ruth Feldstein Rutgers University Newark Kevin K Gaines University of Michigan Matt Garcia Brown University Matthew Pratt Guterl Indiana University George Hutchinson Indiana University Matthew Frye Jacobson Yale University Prema Kurien Syracuse University Robert G Lee Brown University Eric Love University of Colorado Boulder Melani McAlister George Washington University Joanne Pope Melish University of Kentucky Louise M Newman University of Florida Vernon J Williams Jr Indiana University Natasha Zaretsky Southern Illinois University Carbondale

The Civil War and the Subversion of American Indian Sovereignty

Joseph Connole, 2017-11-21 The U S government's Indian Policy evolved during the 19th century culminating in the expulsion of the American Indians from their ancestral homelands Much has been written about Andrew Jackson and the removal of the Five Nations from the American Southeast to present day Oklahoma Yet little attention has been paid to the policies of the Lincoln administration and their consequences The Civil War was catastrophic for the natives of the Indian Territory More battles were waged in the Indian Territory than in any other theater of the war and the Five Nations betrayal by the U S government ultimately lead to the destruction of their homes their sovereignty and their identity

The Literary and Legal Genealogy of Native American Dispossession George Pappas, 2017-07-14 The Literary and Legal Genealogy of Native American Dispossession offers a unique interpretation of how literary and public discourses influenced three U S Supreme Court Rulings written by Chief Justice John Marshall with respect to Native Americans These cases Johnson v M Intosh 1823 Cherokee Nation v Georgia 1831 and Worcester v Georgia 1832 collectively known as the Marshall Trilogy have formed the legal basis for the dispossession of indigenous populations throughout the Commonwealth The Trilogy cases are usually approached as pure legal judgments This book maintains however that it was the literary and public discourses from the early sixteenth through to the early nineteenth centuries that established a discursive tradition which in part transformed the American Indians from owners to mere occupants of their land Exploring the literary genesis of Marshall's judgments George Pappas draws on the work of Michel Foucault Edward Said and Homi Bhabha to analyse how these formative U S Supreme Court rulings blurred the distinction between literature and law

American Indians at the Margins H. Roy Kaplan, 2022-05-11 Since the earliest days of America racist imagery has been used to create harmful stereotypes of the indigenous people In this book the conflict between invading European white settlers and the indigenous groups who occupied the land that became the United States is described through the context of race and racism Using depictions from art literature radio cinema and television the origin and persistence of such stereotypes are explained and their debilitating effects on the well being of Indians are presented This text also explores their accomplishments in attempts to maintain their sovereignty dignity and respect
