Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network The Structure of Digital Partner Choice Andreas Schmitz, 2016-11-01 This work approaches the modern phenomenon of online dating examining the ways people make use of its technical and social potential In particular the users mate preferences choices strategies and interactions are analyzed using the innovative method of click stream observations and web questionnaire data For the purpose of these analyses two major theories are used an explicit theory of individual mate choice and the more general relational theory developed by Pierre Bourdieu which helps to highlight the social structures both underlying and resulting from mating online Results show that online dating is not a partner market free from social structure but that the traditional social conditions found offline are also reproduced in this virtual setting In contrast to the picture drawn by media discourse and advertising online dating represents a partner market which fulfills the promise of happiness in a socially differential way

BBC Commercial Operations Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2009 This report investigates the governance of the BBC's commercial arm BBC Worldwide the activities of BBC Worldwide including programme sales production magazines and websites BBC Worldwide's acquisition of Lonely Planet and the possible partnership between BBC Worldwide and Channel 4 There are major benefits from the BBC undertaking commercial activities the profits generated by the exploitation of the BBC's intellectual property can be reinvested in the BBC's public services to the benefit of licence fee payers But the manner in which some of the BBC's commercial revenue is generated and the governance arrangements within which the BBC Worldwide operates causes increasing concern Worldwide has proved successful in recent years in exploiting new commercial opportunities made possible by a loosening of the rules that govern

the limits to its operations. However, there is a balance to be drawn between Worldwide generating a return for the BBC and limiting Worldwide's operations in order to ensure it upholds the BBC's reputation and does not damage its commercial competitors. Worldwide's minority stakes in overseas production companies, its controversial acquisition of Lonely Planet, and its growing portfolio of magazines suggest that the balance has been tipped too far in favour of Worldwide's unrestricted expansion, jeopardising the reputation of the BBC and having an adverse impact on its commercial competitors. It is in the interests of the UK's creative economy as a whole that BBC Worldwide's activities are reined back. The BBC Trust should reinstate the rule that all BBC commercial activity must have a clear link with core BBC programming.
