Digital Ground Architecture Pervasive Computing And Environmental Knowing:

Digital Ground Malcolm McCullough, 2004 The young field of interaction design reflects not only how people deal with machine interfaces but also how people deal with each other in situations where interactivity has become ambient It shifts previously utilitarian digital design concerns to a cultural level adding notions of premise appropriateness and appreciation

Human-Computer Interaction - INTERACT 2009 Tom Gross, Jan Gulliksen, Paula Kotzé, Lars Oestreicher, Philippe Palanque, Raquel Oliveira Prates, Marco Winckler, 2009-08-06 INTERACT 2009 was the 12th of a series of INTERACT international conferences supported by the IFIP Technical Committee 13 on Human Computer Interaction This year INTERACT was held in Uppsala Sweden organized by the Swedish Interdisciplinary Interest Group for Human Computer Interaction STIMDI in cooperation with the Department of Information Technology at Uppsala University Like its predecessors INTERACT 2009 highlighted both to the academic and to the industrial world the importance of the human computer interaction HCI area and its most recent breakthroughs on current applications Both experienced HCI researchers and professionals as well as newcomers to the HCI field interested in designing or evaluating interactive software developing new interaction technologies or investigating overarching theories of HCI found in INTERACT 2009 a great forum for communication with people of similar interests to encourage collaboration and to learn INTERACT 2009 had Research and Practice as its special theme The reason we selected this theme is that the research within the field has drifted away from the practical applicability of its results and that the HCI practice has come to disregard the knowledge and development within the academic community

Portico University of Michigan. College of Architecture and Urban Planning, 2003 **Besides the Screen** V. Crisp, G. Menotti Gonring, R C Jasper, 2015-01-16 New media technologies impact cinema well beyond the screen This volume speculates about the changes in modes of accessing distributing storing and promoting moving images and how they might affect cinematographic experience economy and historiography

McLuhan's Techno-Sensorium City Jaqueline McLeod Rogers, 2020-10-14 In McLuhan's Techno Sensorium City Coming to Our Senses in a Programmed Environment Jaqueline McLeod Rogers argues that Marshall McLuhan was both an activist and a speculative urbanist who drew from cross disciplinary and ahistorical sources to explore constitutive exchanges between humanity and technologies to alter human perception and imagine a sustainable future based on collective participation in a responsive urban environment This environment a techno sensorium would endeavor to design and program technology to be favorable to life and capable of engaging with multiple senses McLeod Rogers examines McLuhan's active engagement with the vibrant art and urban design culture of his day to further understand the ways in which the links he drew between media technology space architecture art and cities continue to inform current urban and art criticism and practices Scholars of media studies urbanism philosophy architecture and sociology will find this book particularly useful

Social Robots: Technological, Societal and Ethical Aspects of Human-Robot Interaction Oliver Korn, 2019-07-01 Social robots not only work with

humans in collaborative workspaces we meet them in shopping malls and even more personal settings like health and care Does this imply they should become more human able to interpret and adequately respond to human emotions Do we want them to help elderly people Do we want them to support us when we are old ourselves Do we want them to just clean and keep things orderly or would we accept them helping us to go to the toilet or even feed us if we suffer from Parkinson s disease The answers to these questions differ from person to person They depend on cultural background personal experiences but probably most of all on the robot in question This book covers the phenomenon of social robots from the historic roots to today s best practices and future perspectives To achieve this we used a hands on interdisciplinary approach incorporating findings from computer scientists engineers designers psychologists doctors nurses historians and many more The book also covers a vast spectrum of applications from collaborative industrial work over education to sales Especially for developments with a high societal impact like robots in health and care settings the authors discuss not only technology design and usage but also ethical aspects Thus this book creates both a compendium and a guideline helping to navigate the design space for future developments in social robotics

Human-Computer Interaction - INTERACT 2017 Regina Bernhaupt, Girish Dalvi, Anirudha Joshi, Devanuj K. Balkrishnan, Jacki O'Neill, Marco Winckler, 2017-09-19 The four volume set LNCS 10513 10516 constitutes the proceedings of the 16th IFIP TC 13 International Conference on Human Computer Interaction INTERACT 2017 held in Mumbai India in September 2017 The total of 68 papers presented in these books was carefully reviewed and selected from 221 submissions The contributions are organized in topical sections named Part I adaptive design and mobile applications aging and disabilities assistive technology for blind users audience engagement co design studies cultural differences and communication technology design rationale and camera control Part II digital inclusion games human perception cognition and behavior information on demand on the move and gesture interaction interaction at the workplace interaction with children Part III mediated communication in health methods and tools for user interface evaluation multi touch interaction new interaction techniques personalization and visualization persuasive technology and rehabilitation and pointing and target selection

Netspaces Katharine S. Willis, 2017-05-15 The focus of this book is on understanding and explaining the way that our increasingly networked world impacts on the legibility of cities that is how we experience and inhabit urban space It reflects on the nature of the spatial effects of the networked and mediated world from mobile phones and satnavs to data centres and wifi nodes and discusses how these change the very nature of urban space It proposes that netspaces are the spaces that emerge at the interchange between the built world and the space of the network It aims to be a timely volume for both architectural urban design and media practitioners in understanding and working with the fundamental changes in built space due to the ubiquity of networks and media This book argues that there needs to be a much better understanding of how networks affect the way we inhabit urban space The volume defines five characteristics of netspaces and defines in detail the way that the spatial form of the city is affected by

changing practices of networked world It draws on theoretical approaches and contextualises the discussion with empirical case studies to illustrate the changes taking place in urban space This readable and engaging text will be a valuable resource for architects urban designers planners and sociologists for understanding how of networks and media are creating significant changes to urban space and the resulting implications for the design of cities *Teaching Ecocriticism and Green Cultural Studies* G. Garrard, 2016-01-12 Ecocriticism is one of the most vibrant fields of cultural study today and environmental issues are controversial and topical This volume captures the excitement of green reading reflects on its relationship to the modern academy and provides practical guidance for dealing with global scale interdisciplinarity apathy and scepticism *Augmented Urban Spaces* Fiorella De Cindio, 2016-04-08 There have been numerous possible scenarios depicted on the impact of the internet on urban spaces Considering ubiquitous pervasive computing mobile wireless connectivity and the acceptance of the Internet as a non extraordinary part of our everyday lives mean that physical urban space is augmented and digital in itself This poses new problems as well as opportunities to those who have to deal with it This book explores the intersection and articulation of physical and digital environments and the ways they can extend and reshape a spirit of place It considers this from three main perspectives the implications for the public sphere and urban public or semi public spaces the implications for community regeneration and empowerment and the dilemmas and challenges which the augmentation of space implies for urbanists Grounded with international real life case studies this is an up to date interdisciplinary and holistic overview of the relationships between cities communities and high technologies
