The Catholic Educational Review, Vol. 5 (Classic Reprint) Catholic University Of America, 2018-01-14 Excerpt from The Catholic Educational Review Vol 5 The organization of schools among the Chinese was more highly developed than among any of the other peoples of antiquity State control was however exercised by the examination system and not by direct ownership of schools or the compensation of teachers by the government As elsewhere there were elementary schools and higher schools the former seem without exception to have been private schools owned or rented by the teachers the latter were for the most part private property also About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

which he encounters by the character and behavior of his friends the nature Of his surroundings the books he reads fit in short by all the agents and powers of whatever kind that act on him from the cradle to the grave payne Ordinarily the term education is restricted to the conscious process and connotes whatever we do for ourselves and what ever is done for us by others for the express purpose of bring ing us nearer to the perfection of our nature mill This especially the latter phase whatever is done for us by others is what we understand by formal education not forgetting the fact that the process is an active one largely dependent upon the personal effort of the individual to be educated Now the agencies by which education in this sense of the term is controlled are five in number viz the home the school About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Catholic Educational Review, Vol. 8 (Classic Reprint) Catholic University Of America,2018-01-20 Excerpt from The Catholic Educational Review Vol 8 Address delivered at the tenth National Conference of the National Child Labor Committee March 15 19 1914 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Catholic Educational Review, Vol. 10 (Classic Reprint)* Catholic University Of America,2017-09-15 Excerpt from The Catholic Educational Review Vol 10 G De La Salle Hymnal for Catholic Schools and Choirs By the Brothers of the Christian Schools New York 1913 Among 148 English hymns fourteen are by Faber H American Catholic Hymnal An Extensive Collection written arranged and compiled by the Marist Brothers New York 1913 Among some 315 English hymns twenty seven are by Faber I The Oregon Catholic Hymnal with Music Edited by Frederick W Goodrich Portland ore and New York 1912 Among 109 English texts twenty two are by Faber First Of all let us place the titles finding an honored acceptance in all nine of the hymnals and thus exhibiting a union of the older and the newer tradition About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the

America,2017-12-23 Excerpt from The Catholic Educational Review Vol 11 Two very important decisions Which directly affect secon dary and college education seem to me says Dr Pritchett to have arisen from this situation The council has imposed as a condition of the recognition of medical schools as accept able an entrance requirement of one year of college work this year to include the study of three sciences and a modern lan guage Not only has the council adopted this requirement as a teaching measure but it has enforced it throughout the United States without regard to the ability of the school and college system to meet it Finally it has consented to recog nize pre medical schools set up in the medical school itself to teach the three sciences and a modern language it can all be done easily in one large room chemistry in one corner physics in another biology in a third and German in the fourth It is very presumptuous on the part of the medical faculty to undertake to teach the rudiments of the sciences on which the medical profession rests and as for their undertaking in a medical school to teach German It is really surprising that the intelligence of the Medical Council would not have seen the absurdity of this About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Catholic Educational Review, Vol. 17 Catholic University of America,2016-12-23

Excerpt from The Catholic Educational Review Vol 17 January May 1919 It is to the recognition of this fact that the teaching of music in our elementary schools is indebted for most of the time and energy now expended upon it Since the occupations of the adult no longer provide Channels for adequate emotional expression and the home life of the child no longer provides adequate means for emotional cultivation society is called upon to provide opportunities for the emotional life of her people during their hours of leisure and she is obliged also to provide through her schools for adequate emotional training About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Catholic Educational Review, Vol. 12* Catholic University Of America,2017-12-13 Excerpt from The Catholic Educational Review Vol 12 June December 1916 It is the singular advantage Of our Catholic schools that they are

conducted by women who devote themselves with out reserve to their task whose hearts and minds and lives are wholly given to developing in knowledge and in virtue the souls of our children And for this very reason it is essential to the success Of Catholic education that our Sisters should be prepared not only as teachers but also as Catholic teachers They need all the instruc tion that university courses can supply but they must receive that instruction from a Catholic source Here at the University while they are trained in the science and art of education they are also imbued with the true spirit Of the teacher the spirit of Christ himself They are taught to see and to appreciate all knowledge in the light of God s eternal truth to understand the facts of nature the events Of history the vicissitudes of civiliza tion and the institutions established by man as so many items in the order which is ruled by Divine Providence And thus seeing God in all things they are able to keep God ever before the minds of their pupils They are prepared to make religion not merely a part Of their teaching but the very life and soul of all that they teach They are trained to unify their teaching and what is more important to make God the source and center of that unification About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
