Castoriadis And Critical Theory Crisis Critique And Radical Alternatives:

Castoriadis and Critical Theory Christos Memos, 2014-11-18 By exploring the concepts of crisis and critique this study offers a thought provoking re examination of the political and social thought of Cornelius Castoriadis in light of the current world crisis and with regard to his radical critique of both the traditional Left and contemporary capitalist societies **The Routledge Handbook of Critical Pedagogies for Social Work** Christine Morley, Phillip Ablett, Carolyn Noble, Stephen Cowden, 2020-01-20 The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting edge overview of the work of classic and contemporary theorists in a way that expands their application and utility in social work education and practice thus providing a bridge between critical theory philosophy and social work Each chapter showcases the work of a specific critical educational philosophical and or social theorist including Henry Giroux Michel Foucault Cornelius Castoriadis Herbert Marcuse Paulo Freire bell hooks Joan Tronto Iris Marion Young Karl Marx Antonio Gramsci and many others to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice The text exhibits a range of research based approaches to educating social work practitioners as agents of social change It provides a robust and much needed alternative paradigm to the technique driven conservative revolution currently being fostered by neoliberalism in both social work education and practice The volume will be instructive for social work educators who aim to teach for social change by assisting students to develop counter hegemonic practices of resistance and agency and reflecting on the pedagogic role of social work practice more widely The volume holds relevance for both postgraduate and undergraduate qualifying social work and human services courses around the world [The Persistence of Critical Theory](#) Gabriel R. Ricci, 2017-07-05 The latest volume of Culture and Civilization gathers contemporary exponents of critical theory specifically those based in the Frankfurt School of social thinking Collectively this volume demonstrates the continuing intellectual viability of critical theory which challenges the limits of positivism and materialism We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces as did Max Horkheimer and Theodor Adorno or deliberate on the conditions that justify the claims we make through public discourse as did Jurgen Habermas Or like Axel Honneth we may reflect on recognition theory as a means of addressing social problems Whatever our objective the focus of critical theory continues to be the consciousness of established positive interests that without debate may sustain injustices or conditions which the public may not have chosen to impose Throughout the hardship of punitive dismissal and exile in the 1930s and 40s and the shock of the New Left in the 1960s and 70s and finally the later linguistic and pragmatic turn the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction This new volume in the Culture and Civilization series continues the tradition of critical thought **Council Democracy** James Muldoon, 2018-07-24 The return to public assemblies and direct democratic methods in the

wave of the global squares movements since 2011 has rejuvenated interest in forms of council organisation and action The European council movements which developed in the immediate post First World War era were the most impressive of a number of attempts to develop workers councils throughout the twentieth century However in spite of the recent challenges to liberal democracy the question of council democracy has so far been neglected within democratic theory This book seeks to interrogate contemporary democratic institutions from the perspective of the resources that can be drawn from a revival and re evaluation of the forgotten ideal of council democracy This collection brings together democratic theorists socialists and labour historians on the question of the relevance of council democracy for contemporary democratic practices Historical reflection on the councils opens our political imagination to an expanded scope of the possibilities for political transformation by drawing from debates and events at an important historical juncture before the dominance of current forms of liberal democracy It offers a critical perspective on the limits of current democratic regimes for enabling widespread political participation and holding elites accountable This timely read provides students and scholars with innovative analyses of the councils on the 100th anniversary of their development It offers new analytic frameworks for conceptualising the relationship between politics and the economy and contributes to emerging debates within political theory on workplace economic and council democracy

The Power to Assume Form Sean McMorrow, 2023-08-15 The Power to Assume Form Cornelius Castoriadis and Regulative Regimes of Historicity examines the major contribution of Cornelius Castoriadis s work which elucidated the role of the social imaginary within human societies What is significant Sean McMorrow argues is that Castoriadis s work presents a unique perspective on the regimes of historicity modes of instituting power that establish the legitimacy of institutional order in relation to the extensive social imaginary articulations of the world The author assesses Castoriadis s theorization of the radically creative capacity of the social imaginary and suggests that there remains a tendency to present an overly dichotomous view of autonomous and heteronomous modes of institution McMorrow assesses how adherence to this inclination hinders the development of further insights into the creative capacities of social imaginary while also imposing limits on Castoriadis s own assessment of the partially autonomous situation of modern societies The author suggests that one way forward is to consider the role of an implicit dimension of instituting power involved in the reproduction of dominant social imaginary articulations of the world and which also shape the regulation of historicity more generally The main purpose of this book is to develop the critical depth of Castoriadis s work showing how it remains an insightful framework to analyze the significance of the deepening depoliticization of contemporary liberal democratic regimes and the partially autonomous dynamics that underlie their shift toward increasingly authoritarian modes of governance

The SAGE Handbook of Frankfurt School Critical Theory Beverley Best, Werner Bonefeld, Chris O'Kane, 2018-06-04 The SAGE Handbook of Frankfurt School Critical Theory expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting It maps the terrain of a critical

social theory expounding its distinctive character vis a vis alternative theoretical perspectives exploring its theoretical foundations and developments conceptualising its subject matters both past and present and signalling its possible future in a time of great uncertainty Taking a distinctively theoretical interdisciplinary international and contemporary perspective on the topic this wide ranging collection of chapters is arranged thematically over three volumes Volume I Key Texts and Contributions to a Critical Theory of Society Volume II Themes Volume III Contexts This Handbook is essential reading for scholars and students in the field showcasing the scholarly rigor intellectual acuteness and negative force of critical social theory past and present

Disability Politics in a Global Economy Ravi Malhotra, 2016-07-15 While the visibility of disability studies has increased in recent years few have thoroughly examined the marginalization of people with disabilities through the lens of political economy This was the great contribution of Marta Russell 1951 2013 an activist and prominent scholar in the United States and best known for her analyses of the issues faced by people with disabilities This book examines the legacy of Marta Russell bringing together distinguished scholars and activists such as Anne Finger Nirmala Erevelles and Mark Weber to explicate current issues relevant to the empowerment of people with disabilities Drawing from various fields including Law Political Economy Education and History the book takes a truly interdisciplinary approach offering a body of work that develops a dextrous understanding of the marginalization of people with disabilities The book will be of great use and interest to specialists and students in the fields of Political Economy Law and Society Labour Studies Disability Studies Women s Studies and Political Science

Sociological Amnesia Alex Law, Eric Royal Lybeck, 2016-03-03 The history of sociology overwhelmingly focuses on the winners from the classical canon Marx Durkheim and Weber to today s most celebrated sociologists This book strikingly demonstrates that restricting sociology in this way impoverishes it as a form of historically reflexive knowledge and obscures the processes and struggles of sociology s own making as a form of disciplinary knowledge Sociological Amnesia focuses on singular contributions to sociology that were once considered central to the discipline but are today largely neglected Chapters explore the work of illustrious predecessors such as Raymond Aron Erich Fromm and G D H Cole as well as examining exceptional cases of reputational revival as in the case of Norbert Elias or Gabriel Tarde Through understanding the obstacles of recognition faced by female sociologists like Viola Klein and Olive Schreiner and public intellectuals like Cornelius Castoriadis the volume considers the reasons why certain kinds of sociology are hailed as central to the discipline whilst others are forgotten In so doing the collection offers fresh insights into not only the work of individual sociologists but also into the discipline of sociology itself its trajectories forgotten promises and dead ends

Global Economic Crisis as Social Hieroglyphic Christos Memos, 2021-04-14 This book examines the 2008 global economic crisis as a complex social phenomenon or social hieroglyphic arguing that the crisis is not fundamentally economic despite presenting itself as such Instead it is considered to be a symptom of a long standing multifaceted and endemic crisis of capitalism which has effectively become permanent leading contemporary capitalist societies into a state of social

regression manifest in new forms of barbarism The author offers a qualitative understanding of the economic crisis as the perversion or inversion of the capitalistically organized social relations The genesis of the current crisis is traced back to the unresolved world crisis surrounding the Great Depression in order to map the course and different inverted forms of the continuous global crisis of capitalism and to reveal their inner connections as derivative of the same social constitution From a historical and interdisciplinary perspective the book expounds critical social theory elaborating on the intersection between the early critical theory of the Frankfurt School mainly Adorno Horkheimer and Marcuse and the social form analysis of the Open Marxism school Global Economic Crisis as Social Hieroglyphic critically addresses the permanent character of the 1920s 1930s crisis and the crisis theory debates the political crisis in Eastern Europe 1953 1968 the crisis of Keynesianism the crisis of subversive reason the crisis negative anthropology and transformations of the bourgeois individual the state of social regression and the destructive tendencies after the rise of neoliberalism and finally the 2008 financial crisis and its ongoing aftermath

Poststructuralist Agency Rae Gavin Rae, 2020-02-14 Gavin Rae shows that the problematic status of agency caused by the poststructuralist decentring of the subject is a central concern for poststructuralist thinkers First Rae shows how this plays out in the thinking of Deleuze Derrida and Foucault He then demonstrates that it is with those poststructuralists associated with and influenced by Lacanian psychoanalysis that this issue most clearly comes to the fore He goes on to reveal that the conceptual schema of Cornelius Castoriadis best explains how the founded subject is capable of agency

web nov 6 2020 pdf the paper deals with the optimization of the sparse planar antenna array for direction of arrival doa estimation in two dimensions azimuth and find read and cite all the

underdetermined doa estimation using arbitrary planar arrays - May 13 2023

web jul 27 2022 we explore the structure and geometry of the difference coarray of an n element planar array and show that the coarray can provide an increased degree of freedom dof of $O(N^2)$ which enables underdetermined localization

[r sanudin of non coherent signals with planar array iopscience](#) - Jun 14 2023

web dec 13 2019 according to 10 the planar array can do better in resisting disturbance and more accurate estimation can be obtained based on the planar array this paper proposes a semi real valued music algorithm which can significantly reduce calculation amount

convolutional neural network based doa estimation using non - Oct 06 2022

web nov 21 2020 a non uniform linear array with the configuration of $\mathbf{d} = [0, 3, 5, 7, 10] \lambda^2$ along with the optimal doa convnet is proposed to outperform other existing models for the same doa estimation task in the future work we intend to develop the network for different array geometries such as circular rectangle planar or

matlab non planer array doa estimation rc spectrallabs - Feb 27 2022

web 4 matlab non planer array doa estimation 2020 03 19 theoretical and practical information on radar signals signal analysis and radar signal processing with companion matlab code after an overview of radar systems operation and design the book reviews elements of signal theory relevant to radar detection and radar signal processing along

doa estimation with non uniform linear arrays a phase - Aug 04 2022

web aug 4 2021 doa estimation with non uniform linear arrays a phase difference projection approach abstract phase wrapping is a major problem in direction of arrival doa estimation using phase difference observations

non planer array doa estimation pdf free support ortax - Jan 29 2022

web key topics covered are classical methods of direction finding practical df methods used in commercial systems calibration in antenna arrays array mapping fast algorithms and wideband processing spatial time frequency distributions

doa estimation with non uniform linear arrays a phase - Aug 16 2023

web doa estimation with non uniform linear arrays a phase difference projection approach hui chen tarig ballal and tareq y al naffouri abstract phase wrapping is a major problem in direction of arrival doa estimation using phase difference observations

underdetermined doa estimation using arbitrary planar arrays - Dec 08 2022

web nov 1 2022 we consider the problem of direction of arrival doa estimation using a newly proposed structure of non uniform linear arrays referred to as co prime arrays in this paper

dimension reduction for grid based 2d doa estimation with - Jul 15 2023

web feb 8 2023 abstract grid based methods are powerful in direction of arrival doa estimation with irregular arrays whereas the fast implementation in 2d case is an important but challenging work in this paper we propose a modified version of continuous approximation based dimension reduced estimator m cadre which is available for

doa estimation for non uniform linear array without knowing the number - Jul 03 2022

web oct 4 2012 this paper presents two efficient high resolution algorithms for non uniform linear array in the case of the same sensor number through appropriate arrangement of array non uniform linear array not only can overcome the ambiguity but also can improve the resolvability of direction of arrival doa estimation then using modified capon

an overview of direction of arrival estimation methods using - Apr 12 2023

web mar 1 2022 basikolo et al used a non uniform circular array to estimate doa they used the khatri rao kr subspace approach to eliminate spatial noise covariance and estimate doa with increased degrees of freedom

an improved music algorithm for doa estimation of non - Jan 09 2023

web jul 1 2018 abstract to reduce the computational complexity of two dimensional 2 d direction of arrival doa estimation of

non coherent signals this paper proposes a semi real valued music algorithm with planar array

infinite weighted p norm sparse iterative doa estimation via - Feb 10 2023

web sep 14 2023 recently many direction of arrival doa estimation techniques based on sparse representation have been proposed however these techniques often suffer from performance degradation issues in the presence of impulsive noise this paper aims to overcome this challenge in conventional sparse based techniques on an acoustic vector
