Making a Difference Irwin Deutscher,2018-01-16 Emphasis on measurement techniques can interfere with understanding how well particular social programs in their field work In *Making a Difference The Practice of Sociology* Irwin Deutscher links traditional sociological concerns with applied sociology in an effort to overcome this problem He contributes to the debate over the extent to which health educational and social programs initiated by the Roosevelt Kennedy and Johnson administrations have been successful in intimate human terms Deutscher believes that the introduction of a sociological perspective can provide a positive element to interdisciplinary pursuits This belief as well as his fresh perspectives on both the strengths and limitations inherent in applied sociology offer the field a revitalising lift As such this highly informative thought provoking volume will be of interest to sociologists and policy makers in health education crime welfare and housing

Illinois Standards Achievement Test Sample Math Materials ,1999 Children, Schools, And Inequality Doris R Entwisle,2018-03-05 Educational sociologists have paid relatively little attention to children in middle childhood ages 6 to 12 whereas developmental psychologists have emphasized factors internal to the child much more than the social contexts in explaining children's development *Children Schools and Inequality* redresses that imbalance It examines elementary school outcomes e.g test scores grades retention rates in light of the socioeconomic variation in schools

and neighborhoods the organizational patterns across elementary schools and the ways in which family structure intersects with children's school performance Adding data from the Baltimore Beginning School Study to information culled from the fields of sociology child development and education this book suggests why the gap between the school achievement of poor children and those who are better off has been so difficult to close Doris Entwistle Karl Alexander and Linda Olson show why the first grade transition how children negotiate entry into full time schooling is a crucial period They also show that events over that time have repercussions that echo throughout children's entire school careers Currently the only study of this life transition to cover a comprehensive sample and to suggest straightforward remedies for urban schools Children Schools and Inequality can inform educators practitioners and policymakers as well as researchers in the sociology of education and child development
