**Charting China's Future** Jae Ho Chung, 2006-08-24 China has become an undisputed global phenomenon yet twenty five years ago its remarkable accomplishments were largely unforeseen In an ambitious effort to predict China's coming decades this book explores not only the economic development that has been a key indicator of its success but the often veiled political social and international determinants that will be crucial Leading scholars draw on their years of experience and on

the ground understanding of current trends to make informed estimates of China's path positing that its future may well hold neither threat nor collapse All of the contributors provide a set of scenarios and order them in terms of likelihood including the seven factors they have identified as central to charting China's future the Communist Party local electoral reforms and rule of law the federalist possibility social unrest foreign policy orientations Sino American relations and the Taiwan conundrum This book is a must read for anyone who wants to understand China as it rises in power on the world stage

Contributions by Jean Pierre Cabestan Jae Ho Chung Bruce J Dickson Peter Hays Gries Tao chiu Lam Yawei Liu Gilbert Rozman and Shiping Tang      **Forecasting China's Future** Roger Irvine, 2015-06-26 China's future development is likely to have a huge impact on twenty first century global outcomes It is therefore surprising that thus far so little attention has been given to comparing and evaluating expert forecasts of China's future in the post Mao era This book presents an illuminating and comprehensive summary record of contrasting and competing expert forecasts and judgements about the major issues confronting China within four principal domains political economic environmental and international After considering the principal forecasting methods available to experts the author comments critically on the degree of success achieved in using those methods and emphasises the confusion created by the polarisation of opinion and by the failure of many experts to accept the high degree of uncertainty that characterises most of the key issues The book recommends a new approach based on the study of a hierarchy of critical uncertainties and on continuing analysis of opposing expert opinions about these uncertainties It emphasises the potential for both positive and negative outcomes for these critical uncertainties and the importance of maximising the potential for positive outcomes through improved analytical and policy frameworks Providing insights for specialists and non specialists into the most critical issues that will determine China's future direction this book will be of particular interest to students and scholars of political economic environmental and international relations issues in China and Asia as well as to readers in business and government      **The Improbable War** Christopher Coker, 2015 A prescient analysis of the likelihood of a US China conflict and how it might be avoided      Tangled Titans David Shambaugh, 2012-08-09 Tangled Titans offers a current and comprehensive assessment of the most important relationship in international affairs that between the United States and China How the relationship evolves will have a defining impact on the future of world politics the Asian region and the citizens of many nations In this definitive book leading experts provide an in depth exploration of the historical domestic bilateral regional global and future contexts of this complex relationship The contributors argue that the relationship is a unique combination of deep interdependence limited cooperation and increasing competition Never in modern history have two great powers been so deeply intertwined yet so suspicious and potentially antagonistic toward each other Exploring this cooperative and competitive dynamic the contributors offer a wealth of detail on contemporary Sino American relations unavailable elsewhere Students will find Tangled Titans essential reading to understand the current dynamics and future direction of relations between the world's two most important powers

Contributions by Rosemary Foot Charles W Freeman III Bonnie S Glaser Avery Goldstein Yufan Hao Harry Harding G John Ikenberry Terry Lautz Dawn Murphy Shelley Rigger David Shambaugh Robert Sutter Ashley J Tellis Nancy Bernkopf Tucker Christopher P Twomey and Wu Xinbo     *The Politics of the Core Leader in China* Xuezhi Guo,2019-05-09 This is the first full length scholarly study of the Chinese core leader and his role in the Chinese Communist Party s elite politics     **The China Development Model** Dominique de Rambures,2014-12-03 Over the last thirty years China has been reforming its economy at breakneck speed However a surge in nationalism is threatening China s relations with its neighbours and its rise to regional leadership This book addresses a wide range of factors influencing the development of China s model and its influence on the rest of the world     *The Subtle Logics of Knowledge Conflicts in China's Foreign Enterprises* Constanze Wang,2016-05-04 This book investigates knowledge interactions in China s foreign enterprises It reveals that cultural differences strongly account for knowledge related obstacles namely knowledge leakage and insufficient knowledge sharing Contrary to conventional wisdom however widespread cultural arguments such as Confucianism or collectivism hardly apply to Chinese employees handling of knowledge In fact more subtle cultural logics are relevant in daily work which are connected to the perceived stability of the enterprise itself But these usually go unnoticed Thus rather than being distracted by a national Chinese culture managers can take real action to solve knowledge conflicts in their particular enterprise

*COVID-19 "Humanitarianism"* Mariya Omelicheva,Brittnee Carter,2024-04-30 What motivates states to assist other countries in need Focusing on Chinese Russian and American decisions about COVID 19 aid this book illuminates the role of historically contingent ideas in donors decisions Drawing on the theoretical insights of the critical geopolitics tradition it advances and tests explanations for aid related decisions on a novel global dataset of COVID 19 aid Rigorously theorized meticulously researched and accessibly written this book illuminates the ways in which China and Russia seek to reshape the humanitarian field consistent with their geopolitical visions Their competition with the US over approaches to aid has weakened the integrity of humanitarian system
