Humanitarianism and Challenges of Cooperation Volker Heins, Kai Koddenbrock, Christine Unrau, 2016-02-05 Humanitarianism as a moral concept and an organized practice has become a major factor in world society. It channels an enormous amount of resources and serves as an argument for different kinds of interference into the internal affairs of countries and regions. At the same time and for these very reasons it is an ideal testing ground for successful and unsuccessful cooperation across borders. Humanitarianism and the Challenges of Cooperation examines the multiple humanitarianisms of today as a testing ground for new ways of global cooperation. General trends in the contemporary transformation of humanitarianism are studied and individual cases of how humanitarian actors cooperate with others on the ground are investigated. This book offers a highly innovative empirically informed account of global humanitarianism from the point of view of cooperation research in which internationally renowned contributors analyse broad trends and present case studies based on meticulous fieldwork. This book will be of great interest to students and researchers in the areas of political science, international relations and humanitarianism. It is also a valuable resource for humanitarian aid workers.

Love and Liberation Lauren Carruth, 2021-10-15 Lauren Carruth's *Love and Liberation* tells a new kind of humanitarian story. The protagonists are not volunteers from afar but rather Somali locals caring for each other: nurses, aid workers, policymakers, drivers, community health workers and bureaucrats. The contributions of locals are often taken for granted and the competencies, aspirations and effectiveness of local staffers frequently remain muted or absent from the planning and evaluation of humanitarian interventions structured by outsiders. Relief work is traditionally imagined as politically neutral and impartial and interventions are planned as temporary, extraordinary and distant. Carruth provides an alternative vision of what humanitarian response means in practice, not driven by International Humanitarian Law, the missions of Western relief organizations or trends in the aid industry or academia but instead by what Somalis call *samafal*. *Samafal* is structured by the cultivation of lasting relationships of care, interdependence, kinship and ethnic solidarity. *Samafal* is also explicitly political and potentially emancipatory. Humanitarian responses present opportunities for Somalis to begin to redress histories of colonial partitions and to make the most out of their political and economic marginalization. By centering *Love and Liberation* around Somalis' understanding and enactments of *samafal*, Carruth offers a new perspective on politics and intervention in Africa.

The Vulnerable Humanitarian Gemma Houldey, 2021-09-27 *The Vulnerable Humanitarian* challenges the prevalence of stress and burnout culture within the aid sector, laying bare the issues of power, agency, security and wellbeing that continue to trouble organisations and staff. Engaging and insightful, this book illustrates the problematic and unrealistic expectations of aid workers through the archetype of the perfect humanitarian and considers why burnout is so endemic yet so rarely acknowledged within aid organisations. The book provides practical means through which staff and managers can reflect upon and discuss damaging organisational cultures and behaviours and develop a more inclusive and caring work environment. Drawing on original

academic research and interviews with national and international aid workers and development experts the book proposes a feminist anti racist and decolonial agenda in challenging oppressive systems and structures within the sector With extensive professional experience as an aid worker herself Gemma Houldey also shares her own struggles with mental health and what she has learned from feminist practices for self and collective care Proposing new ways of addressing wellbeing that are sensitive to the multi faceted personalities and lived experiences of people working on aid and development programmes The Vulnerable Humanitarian is essential reading both for current aid sector employees and for prospective employees and students

The Practice of Humanitarian Intervention Kai Koddenbrock, 2015-08-27. This book examines the practices in Western and local spheres of humanitarian intervention and shows how the divide between these spheres helps to perpetuate Western involvement. Using the Democratic Republic of the Congo as a case study, an object of Western intervention since colonial times, this book scrutinizes the contemporary practice of humanitarian intervention from the inside. It seeks to expose how humanitarian aid and peacekeeping works, what obstacles they encounter, and how they manage to retain their legitimacy. By examining the relationship between the West and the DR Congo, this volume asks why intervention continues to be so central for the relationship between Western and local spheres. Why is it normal and self-evident? The main answer developed here is that the separation of these two spheres allows intervention to enjoy sufficient degrees of legitimacy to be sustained. Owing to the contradictions that surface when juxtaposing the Western and Congolese spheres, this book highlights how keeping them separate is key to sustaining intervention. Bridging the divide between the liberal peace debate in International Relations and anthropologies of humanitarianism, this volume thus presents an important contribution to taking both the legitimizing proclamations and local realities of intervention seriously. The book will be of much interest to students of statebuilding, peacebuilding, peacekeeping, anthropology, research methods, and IR in general.
