Collective Bargaining Taking Control Away From The Players:

Collective Bargaining Kelly Wilken, 2008-12-01 Have you ever wondered why National Basketball Association owners pay a 21 year old college student twenty million dollars to play professional basketball James Mitchum IV owner of the Houston Tornados wondered about that very same thing While sitting in his office he knew that a plan needed to be devised to change the system Why is he cutting a check to a guy who hasn't even played a game Why is he paying a player for potential What if that player doesn't live up to that potential can he get his money back The answer to his dilemma is buried somewhere between the pages of the Collective Bargaining Agreement After reading that document from stem to stern he finds his answer and he devises a plan to change the pay structure for the NBA players The players won't like it but so what

Total Propaganda Alex S. Edelstein, 2013-11-05 Total Propaganda moves the study of propaganda out of the exclusive realm of world politics into the more inclusive study of popular culture media and politics All the participatory functioning elements of the society are aspects of membership in the popular culture Thus the values of popular music media politics debates over social issues and even international trade become everyday propaganda to which everyone may relate To emphasize the necessity for new thinking about propaganda Edelstein creates the concepts of the new propaganda and the old and he devises a language of unonyms to convey their meanings more quickly Oldprop is characteristic of mass cultures and utilizes totalitarian methods of conflict hegemony minimization demonization and exclusiveness to achieve its goals By contrast newprop is created by members of the popular culture to allow them to engage in accommodation enhance the individual and promote inclusiveness Shifts in the old and the new propaganda are tracked across social issues such as race religion sexuality gender gun control and the environment as well as in fashion politics advertising sports media and politics Central to the concept of total propaganda is that it is not simply additive it is the product of new energies that are

produced by the fusing of propaganda in such related forums as music art advertising sports and politics It is these synergies and their production of new energies that make total propaganda greater than the sum of its parts Edelstein concludes that the most important distinction that should be drawn between mass culture and popular culture is its text i e its propaganda In a popular culture everyone creates and consumes propaganda in a mass culture almost everyone consumes it but only a few create it This formulation offers new ways to discuss power and ideology in media texts As an example where once the least informed and the least educated were the most subject to propaganda now the most informed and most educated often are the first to create propaganda and the first to consume it **The Miners' Next Step** South Wales Miners' Federation.
