

The background of the book cover is a composite illustration. At the top, a hospital building with the word 'HOSPITAL' and a caduceus symbol is shown. Below it, a large aircraft carrier is depicted sailing on a dark, choppy sea. A fighter jet is flying above the carrier, with its wings spread and engines visible. The overall scene suggests a journey or mission, consistent with the title 'Charting the Course'.

Institute of Medicine, Roundtable on Value and Science-Driven Health Care, 2011-10-21 As past current or future patients the public should be the health care system's unwavering focus and serve as change agents in its care Taking this into account the quality of health care should be judged not only by whether clinical decisions are informed by the best available scientific evidence but also by whether care is tailored to a patient's individual needs and perspectives However too often it is provider preference and convenience rather than those of the patient that drive what care is delivered As part of its Learning Health System series of workshops the Roundtable on Value Science Driven Health Care hosted a workshop to assess the prospects for improving health and lowering costs by advancing patient involvement in the elements of a learning health system

Establishing a Patient-Centric Culture Ashraf Ibrahim, 2016-11-20 When I started writing this book I was planning to address it mostly to Big Pharma and the regulatory bodies because I believed based on my experience that regulators have the authority to prompt change while Pharma has the means to carry out those changes Therefore together they can certainly alter the current system to be more patient centered However as I went deeper into the issue of patient centricity I realized that it all starts with us common people who have the genuine willingness to change which is far more crucial than any authority or influence So I believe that all of us can benefit from reading this book and learn to speak up and ask to become an active participant in the management of their health My message to you is

as follow Choose reliable sources of information to learn about your illnesses Share your thoughts and opinions with your physician then listen and try to get more information before deciding how you want to proceed in managing your healthcare issues Engage with other patients and come up with ideas to help others cope with their illnesses There are multiple steps we can take to become more active partners in the healthcare system and help make it more PACEd **Putting Patients First**
