Challenge in Early Childhood Education in the Asia-Pacific Region Minyi Li, Jillian Fox, Susan Grieshaber, 2016-10-26

This book investigates the unique and dynamic approaches to key issues of changing images of child and childhood by different countries in the Asia Pacific. Key concepts considered are re conceptualizing early childhood education and care re examining early learning standards and redefining professionalism. The Asia Pacific region includes countries belonging to both the Majority and Minority worlds and which vary widely in terms of their cultural geography, social cultural beliefs and levels of development, demographic profiles, political systems and government commitments to early childhood services. An international team of experienced researchers from different countries guarantees diverse perspectives. By examining different countries' policy choices and evidence based practices, the authors show how best to provide for young children based on their countries' strategies.

Understanding Early Years Policy Peter Baldock, Damien Fitzgerald, Janet Kay, 2009-03-18. This book is a gem. It sets out in a very straightforward and comprehensible way the vast framework of policy which shapes the nature of early years services in the UK today. This book should be on the reading list of all early years practitioners, multi agency professionals and students as a timely reminder of the context in which they work. **Early Years Update** This is a fabulous resource with helpful and practical hints, tips and downloadable electronic resources. A truly invaluable resource for leaders and managers in any early years setting or for those who are responsible for training members of the children's workforce. **Early Years Educator** This is an excellent and accessible text which is useful to both practitioners and students. The inclusion of policy developments in Scotland, Northern Ireland and Wales in this latest edition gives a new and broader perspective of policy in the United Kingdom than previously available in a single text. Students studying the topic at degree level will find the framework for analyzing the impact of policy particularly enlightening. Sue O'Neill, Award Director, FdA Management of Childcare Provision, Liverpool Hope University. I predict that this book will quickly find a place on the book lists of colleges and universities around the country. **ESCalate** This book is excellent. It is very easy to read and it starts with the basics before allowing the reader to be more reflective. Michelle Smith, BA Hons Early Childhood Studies and Early Years PGCE. It provides a complete overview of early years policy and evaluates its impact on practice and it facilitates discussion and critical thinking around policy issues and policy development with the inclusion throughout the book of case studies, points for reflection and activities. There is suggested further reading and a short summary at the end of each chapter and useful websites are cited. This second edition of a respected book has been substantially revised to include a new chapter on policy across England, Scotland, Wales, Northern Ireland, discussion of the new Early Years Foundation Stage, recent developments in Special Educational Needs, a revised and updated timeline of early years legislation, new case studies covering the Birth to Eight age range, a revised and updated Glossary.
