Caring For Your Family Treasures Heritage Preservation:

Caring for Your Family Treasures Jane S. Long, Richard W. Long, 2000 This practical guide shows how to safeguard cherished photo albums a fragile wedding dress antique furniture and numerous other precious family heirlooms for future generations 160 illustrations 140 in full color *How to Weed Your Attic* Elizabeth H. Dow, Lucinda P. Cockrell, 2018-08-16 How to Weed Your Attic Getting Rid of Junk without Destroying History provides answers to the question when someone dies or it s time to move or just clean out the attic garage or basement what papers and other things should we save for the sake of history and what can we safely toss After reading this clearly written book by a retired archivist and a retired museum curator you can comfortably clean out your attic or office garage basement cupboards with confidence that you re not tossing out historically valuable or invaluable things and that you will not ask your local museum to take things that really belong in a thrift store junk yard or recycle center The book first describes how to identify historically important documents and artifacts The authors explain a few simple rules 1 a complete or long collection has more value than a partial one 2 emotive material provides a richer picture than factual material 3 unique usually has more value than mass produced 4 documents and objects carry more information than they intend to and 5 a 25 year rule exists without our consciously recognizing it They then apply the rules and assess the probable historical value of four different types of materials mass produced from books to vehicles individually created from art work to toys business materials from governance documents to uniforms and commemorative materials from awards to wedding dresses The book includes a brief description of the basics for preserving materials the reader wants to keep and references sources for more detail It also recognizes that the reader may not want to keep stuff that clearly has historical value For those readers the authors describe how to donate materials to a cultural repository In broad strokes they explain how repositories differ what the repository will want to know about the stuff you re offering where an appraiser and or tax advisor fits into the process and what the reader can expect the repository to do and not do Finally the book addresses unexpected issues that may arise around questions of legal ownership and privacy Throughout the book the authors illustrate their points using photographs and vignettes From the Family Kitchen Gena Philibert Ortega, 2012-04-12 Celebrate Your Family Recipes and Heritage From Great grandma s apple pie to Mom s secret recipe stuffing food is an important ingredient in every family s history This three part keepsake recipe journal will help you celebrate your family recipes and record the precious memories those recipes hold for you whether they re hilarious anecdotes about a disastrous dish or tender reflections about time spent cooking with a loved one The foods we eat tell us so much about who we are where we live and the era we live in The same is true for the foods our ancestors ate This book will show you how to uncover historical recipes and food traditions offering insight into your ancestors everyday lives and clues to your genealogy Inside you ll find Methods for gathering family recipes Interview questions to help loved ones record their food memories Places to search for historical recipes An explanation of how immigrants influenced the American diet A look

at how technology changed the way people eat A glossary of historical cooking terms Modern equivalents to historical units of measure Actual recipes from late nineteenth and early twentieth century cookbooks Basic Condition Reporting Southeastern Registrars Association, Deborah Rose Van Horn, Corinne Midgett, Heather Culligan, 2022-02-05 Whether you call yourself a Registrar Curator Collections Manager or any number of other titles you are most likely doing condition reports A good condition report is an accurate and informative account of an object's state of preservation at a particular moment in time Condition reports can have multiple functions such as recording the state of an object prior to an exhibition or loan after exhibition or loan to assist in collections planning or as a tool for the treatment of an object Most of these functions can be conducted by a registrar curator collections manager or volunteer A good condition report fills many critical needs including Knowing the exact condition of an object before or after a loan Helping staff determine the stability of an object for exhibit or loan Limiting how often an object is handled Informing object handlers of unseen problems Showing the condition of an object over time to determine the rate of deterioration Setting priorities for conservation Assisting the staff in identifying similar objects Aiding in the valuation of an object for insurance purposes The fifth edition of Basic Condition Reporting A Handbook proffers a standard vocabulary for all of the individuals in a museum that may be conducting condition reports In an ideal world everyone who does a condition report for an item would be trained in the exact same standards use the same terminology and use the exact same form etc However the reality is that even if every registrar collections manager and curator in your institution does condition reports each report will be slightly different Then you throw in every intern volunteer or student that may assist and you will find a variety of methods and terminologies that appear This volume provides a baseline that all of these people can work from so that any person who opens the condition report can understand what the problems on a particular piece include Basic Condition Reporting Fifth Edition is a great resource for learning the basics of doing condition reports for museum objects The book looks at different material types and helps new and seasoned professionals identify condition issues for a variety of materials This new addition has several new chapters including information on digital condition reporting wood objects mixed media objects and taxidermy while expanding the information for existing chapters This book is a great resource for those new to the museum field and a handy reference to collections professionals **Hands on History** Amy Shell-Gellasch, 2007 In an increasingly electronic society these exercises are designed to help school and collegiate educators use historical devices of mathematics to balance the digital side of mathematics *Ancestry magazine* , 2001-05 Ancestry magazine focuses on genealogy for today's family historian with tips for using Ancestry.com advice from family history experts and success stories from genealogists across the globe Regular features include Found by Megan Smolenyak reader submitted heritage recipes Howard Wolinsky's tech driven NextGen feature articles a timeline how to tips for Family Tree Maker and insider insight to new tools and records at Ancestry.com Ancestry magazine is published 6 times yearly by Ancestry Inc parent company of Ancestry.com *Chinese*
