Die Welt Von Gestern German Edition

Stefan Zweig

Die Welt Von Gestern German Edition:

The World of Yesterday's Humanist Today Stefan Zweig Symposium (1981: Fredonia, N.Y.), 1983-01-01 France 1837 was the third volume published in Cooper's Gleanings in Europe series but first in the chronology of his European experience. Less sequential than his other travel narratives, France distills his impressions of French and European culture during his first two years abroad. Exhibiting many qualities of the familiar essay, it considers a wide range of topics of interest to Cooper, his friends, and potential readers in the United States. As a celebrity thoroughly at home in the brilliant society of Bourbon Paris, Cooper was able to provide fascinating glimpses of personalities, spectacles, institutions, and manners from his distinctly American perspective. Indeed, as Professor Philbrick remarks, "No other of Cooper's works perhaps brings us closer to his speaking voice or puts us more directly in contact with the man himself with all his idiosyncratic preoccupations, his quick resentments, his restless curiosity, his surprising humor, and his nobility of principle." The reader of this edition is brought even closer to Cooper in the draft of a hitherto unpublished letter probably intended for this book, which illustrates Cooper's grasp of the still finer points of French customs and attitudes.

The World of Yesterday's Humanist Today Marion Sonnenfeld, 1984-06-30 Fifty years ago Stefan Zweig, who committed suicide in 1942, was the most widely read and translated living writer in the world. Zweig's Vienna was a world of bright, brittle superficialities in which the bourgeoisie gradually elevated the eternal business of seeing and being seen to the purpose of existence. To break through the facades of this society, Zweig developed a remarkable literary and psychological method. In *The World of Yesterday's Humanist Today*, thirty scholars of history, literature, and music share their studies of Zweig and their insight into his works.

[German Jews Beyond Judaism](#) George L. Mosse, 2025 First published in 1985, *German Jews Beyond Judaism* is George L. Mosse's sweeping exploration of German Jewish secular identity across the nineteenth and twentieth centuries. In Germany, Jews were emancipated at a time when cultural education was becoming an integral part of German society. They felt a powerful urge to find their Jewish substance within German culture and thus craft an identity as both Germans and Jews. Mosse argues that they did so by adopting the concept of *Bildung*, the idea of intellectual and moral self-cultivation combined with key Enlightenment ideals of human potential, individualism, and the connection between knowledge and morality through aesthetics. He traces how Jewish artists, writers, and thinkers actively sought to participate in German culture through popular culture, scholarship, and political activity. Despite the eventual dissolution of German Jewish dialogue due to the emergence of a virulently racist nationalism, important Jewish heritage emerged as a result of this attempt to integrate both identities. *German Jews Beyond Judaism* was, in Mosse's own estimation, his most personal book, almost a confession of faith.

David J. Sorkin's new critical introduction illustrates how Mosse's life and values both shaped and exemplified his historical analysis and offers potential meanings of his intellectual legacy for the present day.

Alma Rose Richard Newman, 2003-08 Presents the story of a woman who saved the lives of many Jews who were members in her orchestra in Auschwitz.

German-speaking Exiles in the Performing Arts in Britain after 1933 Charmian Brinson, Richard Dove, 2013 This volume focuses on the contribution of German speaking refugees from Nazism to the performing arts in Britain evaluating their role in broadcasting theatre film and dance from 1933 to the present It contains essays evaluating the role of refugee artists in the BBC German Service including the actor Martin Miller the writer Bruno Adler and the journalist Edmund Wolf Miller also made a career in the English theatre transcending the barrier of Language as did the actor Gerhard Hinze whose transition to the English stage is an instructive example of adaptation to a new theatre culture In film Language problems were mitigated by the technical possibilities of the medium although stars like Anton Walbrook received coaching in English Certainly technicians from Central Europe like the cameraman Wolf Suschitzky helped establish the character of British film in the 1950s and 1960s In dance theatre Language played little role facilitating the influence in Britain of dance practitioners like Kurt Jooss and Sigurd Leeder Finally evaluating the reverse influence of migr s on Germany two essays discuss Erich Fried s translations of Shakespeare and Peter Zadek s early theatre career in Germany *Marie Antoinette: The Portrait of an Average Woman* Stefan Zweig, 2019-08-09 Originally published in 1932 and for decades since one of Stefan Zweig s most popular biographies this portrait of an average woman betrothed at fourteen crowned queen at nineteen and beheaded at thirty seven aimed not to deify but to humanize Supplementing library and archival research with psychological insight Marie Antoinette The Portrait of an Average Woman is a vivid narrative of France s most famous queen her relations with her mother Empress Maria Theresa her husband Louis XVI and her lover Swedish Count von Fersen set against the backdrop of the French and Austrian courts of the ancien r gime the French Revolution and the Terror the biography to end all biographies on Marie Antoinette Zweig s book possesses all the qualities of the excellent biography directness frankness full exposition picturesqueness characterization color and delectable readableness The New York Times Powerful magnificent poignant The New Republic A stupendous and superb piece of work Chicago Daily Tribune *Literary Exiles from Nazi Germany* Johannes Franciscus Evelein, 2014 Captures the learning process of Nazi era literary exiles following in the footsteps of legendary literary exemplars of exile Exile is as old as humanity itself but a radically new fate for the novice exile who falls into a world about which personal experience can tell him nothing He does however know a great number of stories myths legends allegories biblical or historical accounts about exile The novice s search for a foothold initiates a learning process in which the exilic tradition assumes a major role The present book captures this learning process it is a cultural history of exile as it was experienced by thousands of German and Austrian writers and intellectuals who opposed National Socialism among them Brecht Canetti Seghers Remarque the Manns and Ludwig Marcuse It shows how slowly exile becomes a reality through the growing awareness of and reference to the exemplary figures of a shared fate Scores of fellow travelers from the mythic figures Odysseus and Ahasverus The Eternal Jew to writers such as Heinrich Heine and Victor Hugo frame the experience of exile imbuing it with meaning giving it depth and even elevating it to a High Moral Office They frequently

make appearances in the narratives of the Nazi era exiles The Russian American exile poet Joseph Brodsky called writers in exile retrospective and retroactive beings What their retrospective gazes yield as they search for meaning in banishment is at the heart of this book Johannes F Evelein is Professor of Language and Culture Studies at Trinity College Hartford Connecticut

The Reception of H.G. Wells in Europe Patrick Parrinder, John S. Partington, 2013-02-14 H G Wells was described by one of his European critics as a seismograph of his age He is one of the founding fathers of modern science fiction and as a novelist essayist educationalist and political propagandist his influence has been felt in every European country This collection of essays by scholarly experts shows the varied and dramatic nature of Wells s reception including translations critical appraisals novels and films on Wellsian themes and responses to his own well publicized visits to Russia and elsewhere The authors chart the intense ideological debate that his writings occasioned particularly in the inter war years and the censorship of his books in Nazi Germany and Francoist Spain This book offers pioneering insights into Wells s contribution to 20th century European literature and to modern political ideas including the idea of European union

Reception of H G Wells in Europe Review Imperial Germany and a World Without War Roger Chickering, 2015-03-08 This book provides the first thorough examination of the peace movement in pre World War I Germany concentrating on the factors in German politics and society that account for the movement s weakness The author draws on a wide range of documents to survey the history organization and ideologies of the peace groups placing them in their social and political context Working through schools churches the press political parties and other opinion forming groups the German peace movement attempted systematically to promote the idea that the world s nations composed a harmonious community in which law was the proper means for resolving disputes Except for small pockets of support however the movement met only resistance resistance greater the author contends than elsewhere in the West Evaluating the reasons for hostility to the peace movement in Germany he concludes that dominant features of German political culture emphasized the inevitability of international conflict in the final analysis because Imperial Germany s ruling elites feared the domestic as well as the international implications of the movement s program Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Visions of Community in Nazi Germany Martina Steber, Bernhard Gotto, 2018-07-16 When the Nazis seized power in Germany in 1933 they promised to create a new harmonious society under the leadership of the Führer Adolf Hitler The concept of Volksgemeinschaft the people s community enshrined the Nazis vision of society a society based on racist social Darwinist anti democratic and nationalist thought The regime used Volksgemeinschaft to define who belonged to the

National Socialist community and who did not Being accorded the status of belonging granted citizenship rights access to the benefits of the welfare state and opportunities for advancement while these who were denied the privilege of belonging lost their right to live They were shamed excluded imprisoned murdered Volksgemeinschaft was the Nazis project of social engineering realized by state action by administrative procedure by party practice by propaganda and by individual initiative Everyone deemed worthy of belonging was called to participate in its realization Indeed this collective notion was directed at the individual and unleashed an enormous dynamism which gave social change a particular direction The Volksgemeinschaft concept was not strictly defined which meant that it was rather marked by a plurality of meaning and emphasis which resulted in a range of readings in the Third Reich drawing in people from many social and political backgrounds Visions of Community in Nazi Germany scrutinizes Volksgemeinschaft as the Nazis central vision of community The contributors engage with individual appropriations examine projects of social engineering analyze the social dynamism unleashed and show how deeply private lives were affected by this murderous vision of society
