The Forces of Economic Growth Alfred Greiner, Willi Semmler, Gang Gong, 2016-06-28 In economics the emergence of New Growth Theory in recent decades has directed attention to an old and important problem what are the forces of economic growth and how can public policy enhance them This book examines major forces of growth including spillover effects and externalities education and formation of human capital knowledge creation through deliberate research efforts and public infrastructure investment Unique in emphasizing the importance of different forces for particular stages of development it offers wide ranging policy implications in the process The authors critically examine recently developed endogenous growth models study the dynamic implications of modified models and test the models empirically with modern time series methods that avoid the perils of heterogeneity in cross country studies Their empirical analyses undertaken with newly constructed time series data for the United States and some core countries of the Euro zone show that models containing scale effects such as the R D model and the human capital model are compatible with time series evidence only after considerable modifications and nonlinearities are introduced They also explore the relationship between growth and inequality with particular focus on technological change and income disparity The Forces of Economic Growth represents a comprehensive and up to date empirical time series perspective on the New Growth Theory

Human Resources for the Non-HR Manager Carol T. Kulik, Carol T Kulik, Elissa Perry, 2004-06-30 Human Resources for the Non HR Manager appeals to anyone interested in management issues The book explains why human resource issues are increasing the responsibilities of front line managers rather than the HR department Chapters present the basics of HR including the fundamentals of hiring performance appraisal reward systems and disciplinary systems so that any manager regardless of his or her background or functional area can approach these parts of the job with confidence The book also covers the latest developments in equal opportunity law and describes the manager s responsibilities in controlling sexual harassment and managing diverse employees including older workers and employees with disabilities Each chapter s material is firmly grounded in the current HR academic literature but the book s friendly conversational tone conveys basic principles of good practice without technical jargon Designed to make the material more accessible and personally relevant the book includes the following special features Manager s Checkpoints a series of questions that help the reader apply the material to his or her own organizational context Boxes that describe real life examples of how companies respond to HR challenges For Further Reading references to articles published in outlets that bridge the academic practitioner divide Manager s Knots

presented in a question and answer format these describe typical managerial problems take the reader into some of the gray ambiguous areas of HR and suggest ways to apply the chapter material to real life managerial dilemmas

Digital and Information Technologies in Economics and Management Arthur Gibadullin, 2022-03-17 This book addresses the issues of information digital and intellectual technologies in economics and management The International Scientific and Practical Conference Digital and Information Technologies in Economics and Management DITEM2021 was held on November 2 2021 on the Microsoft Teams platform due to COVID 19 A distinctive feature of the book is that it presented reports of authors from Italy South Korea Poland Armenia Republic of Belarus and the Russian Federation Researchers from different countries presented the process of transition of economic activities to the information and digital path of development and presented the main directions and developments that can improve the efficiency and development of the economy and management The book may be useful to state and regional authorities international and supranational organizations the scientific and professional community

Connecting Canadians Andrew Clement, 2012 *Connecting Canadians* examines the role of community informatics or community based ICT initiatives in this process of transition The Community Research Alliance for Community Innovation and Networking CRACIN set out to study how civil society groups in locations ranging from Vancouver to Labrador and from remote Northern communities to Toronto and Montr al sought to enable local communities to develop on their own terms within the broader context of federal and provincial policies and programs Drawing on diverse theoretical perspectives from sociology to library and information sciences to women s studies the essays not only document specific local initiatives but analyze the overall trajectory of the government s vision of a digitally inclusive Canada

A Philosophy of Intellectual Property Peter Drahos, 2016-12-05 Are intellectual property rights like other property rights More and more of the world s knowledge and information is under the control of intellectual property owners What are the justifications for this What are the implications for power and for justice of allowing this property form to range across social life Can we look to traditional property theory to supply the answers or do we need a new approach Intellectual property rights relate to abstract objects objects like algorithms and DNA sequences The consequences of creating property rights in such objects are far reaching A Philosophy of Intellectual Property argues that lying at the heart of intellectual property are duty bearing privileges We should adopt an instrumentalist approach to intellectual property and reject a proprietary approach an approach which emphasizes the connection between labour and property rights The analysis draws on the history of intellectual property legal materials the work of Grotius Pufendorf Locke Marx and Hegel as well as economic sociological and legal theory The book is designed to be accessible to specialists in a number of fields as well as students It will interest philosophers political scientists economists legal scholars as well as those professionals concerned with policy issues raised by modern technologies and the information society

Understanding Development Economics Adam Fforde, 2014-01-03 Important parts of development practice especially in key institutions such as the World Bank are

dominated by economists In contrast Development Studies is largely based upon multidisciplinary work in which anthropologists human geographers sociologists and others play important roles Hence a tension has arisen between the claims made by Development Economics to be a scientific measurable discipline prone to wide usage of mathematical modelling and the more discursive practice based approach favoured by Development Studies The aim of this book is to show how the two disciplines have interacted as well as how they differ This is crucial in forming an understanding of development work and to thinking about why policy recommendations can often lead to severe and continuing problems in developing countries This book introduces Development Economics to those coming from two different but linked perspectives economists and students of development who are not economists In both explaining and critiquing Development Economics the book is able to suggest the implications of these findings for Development Studies and more broadly for development policy and its outcomes

Squid Cinema From Hell Brown William Brown,2020-04-02 Here be Kraken The Squid Cinema From Hell draws upon writers like Vilem Flusser Donna J Haraway Graham Harman and Eugene Thacker to offer up a critical analysis of cephalopods and other tentacular creatures in contemporary media while also speculating that digital media might themselves constitute a weird intelligent alien If this were not enough to shiver ye timbers the book engages with contemporary discourses of posthumanism speculative realism object oriented ontology and animal studies to suggest that humans are the products of media rather than media being the products of humans Including case studies of films by Denis Villeneuve Park Chan wook and Celine Sciamma The Squid Cinema From Hell also provides a daring engagement with various media beyond cinema including literature music videos 4DX advertising websites YouTube Artificial Intelligence and more Zounds This unique and Lovecraftian book will change the way you think about and with our contemporary media saturated world For as we contemplate the abyss the abyss looks back at us and chthulumedias or media at the end of human times begin to emerge
