The German War Machine in World War II David T. Zabecki, 2019-12-02 This invaluable resource offers students a comprehensive overview of the German war machine that overran much of Europe during World War II with close to 300 entries on a variety of topics and a number of key primary source documents. This book provides everything the reader needs to know about the German war machine that developed into the potent armed force under Adolf Hitler. This expansive encyclopedia covers the period of the German Third Reich from January 1933 to the end of World War II in Europe in May 1945. Dozens of entries on key battles and military campaigns, military and political leaders, military and intelligence organizations and social and political topics that shaped German military conduct during World War II are followed by an illuminating epilogue that outlines why Germany lost World War II. A documents section includes more than a dozen fascinating primary sources on such significant events as the Tripartite Pact among Germany, Italy and Japan, the Battle of Stalingrad, the Normandy Invasion, the Ardennes Offensive and Germany's surrender. In addition, six appendices provide detailed information on a variety of topics such as German aces, military commanders and military medals and decorations. The book ends with a chronology and a bibliography of print resources.

In Defense of Freedom Wolfgang W. E. Samuel, 2015-04-30 The twenty-seven stories in this book serve as a graphic reminder of the selfless heroism of America's World War II Army Air Forces flyers and how necessary they were to achieve Allied victory. Wolfgang Samuel and the pilots he interviewed reveal the peril these men faced to achieve a daunting task impossible without their bravery. And their sacrifices were stunning. American bomber crews suffered the highest casualties: KIA, MIA, POW, wounded of all American armed services in World War II. The stories preserved in this book bear that grave danger out. A member of a heavy bomber crew in the 8th Air Force in the period from mid 1942 to spring 1944 was less likely to survive than a US Marine fighting on Iwo Jima or Okinawa. The stories in this unique book are about men who went face to face with their adversaries, who saw their buddies die, who crashed planes and who became prisoners of war. Many later went on to become the backbone of the postwar Air Force, serving in Korea and Vietnam and during the Cold War. Young Ken Chilstrom led a flight of eight A-36 fighter bombers on a low-level foray in Italy. Only he and two others came home. Bob Hoover thought he could take on the entire German air force, but on his first mission he was shot down, nearly perished and suffered the remainder of the war in a prisoner of war camp. Wolfgang Samuel's new book is all about men like Ken, Bob and the many friends they lost who saw World War II through to the end and gave freedom to so many others.
