Chasing Chaos My Decade In And Out Of Humanitarian Aid:

Chasing Chaos Jessica Alexander, 2013-10-15 Jessica Alexander arrived in Rwanda in the aftermath of the 1994 genocide as an idealistic intern eager to contribute to the work of the international humanitarian aid community But the world that she encountered in the field was dramatically different than anything she could have imagined It was messy chaotic and difficult but she was hooked In this honest and irreverent memoir she introduces readers to the realities of life as an aid worker We watch as she manages a 24 000 person camp in Darfur collects evidence for the Charles Taylor trial in Sierra Leone and contributes to the massive aid effort to clean up a shattered Haiti But we also see the alcohol fueled parties and fleeting romances the burnouts and self doubt and the struggle to do good in places that have long endured suffering Tracing her personal journey from wide eyed and na ve newcomer to hardened cynic and ultimately to hopeful but critical realist Alexander transports readers to some of the most troubled locations around the world and shows us not only the seemingly impossible challenges but also the moments of resilience and recovery

Humanitarianism and Challenges of Cooperation Volker Heins, Kai Koddenbrock, Christine Unrau, 2016-02-05 Humanitarianism as a moral concept and an organized practice has become a major factor in world society It channels an enormous amount of resources and serves as an argument for different kinds of interference into the internal affairs of countries and regions At the same time and for these very reasons it is an ideal testing ground for successful and unsuccessful cooperation across borders Humanitarianism and the Challenges of Cooperation examines the multiple humanitarianisms of today as a testing ground for new ways of global cooperation General trends in the contemporary transformation of humanitarianism are studied and individual cases of how humanitarian actors cooperate with others on the ground are investigated This book offers a highly innovative empirically informed account of global humanitarianism from the point of view of cooperation research in which internationally renowned contributors analyse broad trends and present case

studies based on meticulous fieldwork This book will be of great interest to students and researchers in the areas of political science international relations and humanitarianism It is also a valuable resource for humanitarian aid workers Love and Liberation Lauren Carruth,2021-10-15 Lauren Carruth s Love and Liberation tells a new kind of humanitarian story The protagonists are not volunteers from afar but rather Somali locals caring for each other nurses aid workers policymakers drivers community health workers and bureaucrats The contributions of locals are often taken for granted and the competencies aspirations and effectiveness of local staffers frequently remain muted or absent from the planning and evaluation of humanitarian interventions structured by outsiders Relief work is traditionally imagined as politically neutral and impartial and interventions are planned as temporary extraordinary and distant Carruth provides an alternative vision of what humanitarian response means in practice not driven by International Humanitarian Law the missions of Western relief organizations or trends in the aid industry or academia but instead by what Somalis call samafal Samafal is structured by the cultivation of lasting relationships of care interdependence kinship and ethnic solidarity Samafal is also explicitly political and potentially emancipatory humanitarian responses present opportunities for Somalis to begin to redress histories of colonial partitions and to make the most out of their political and economic marginalization By centering Love and Liberation around Somalis understanding and enactments of samafal Carruth offers a new perspective on politics and intervention in Africa The Vulnerable Humanitarian Gemma Houldey,2021-09-27 The Vulnerable Humanitarian challenges the prevalence of stress and burnout culture within the aid sector laying bare the issues of power agency security and wellbeing that continue to trouble organisations and staff Engaging and insightful this book illustrates the problematic and unrealistic expectations of aid workers through the archetype of the perfect humanitarian and considers why burnout is so endemic yet so rarely acknowledged within aid organisations The book provides practical means through which staff and managers can reflect upon and discuss damaging organisational cultures and behaviours and develop a more inclusive and caring work environment Drawing on original academic research and interviews with national and international aid workers and development experts the book proposes a feminist anti racist and decolonial agenda in challenging oppressive systems and structures within the sector With extensive professional experience as an aid worker herself Gemma Houldey also shares her own struggles with mental health and what she has learned from feminist practices for self and collective care Proposing new ways of addressing wellbeing that are sensitive to the multi faceted personalities and lived experiences of people working on aid and development programmes The Vulnerable Humanitarian is essential reading both for current aid sector employees and for prospective employees and students **Routledge Handbook of Masculinities, Conflict, and Peacebuilding** Henri Myrntinen,Chloé Lewis,Heleen Touquet,Philipp Schulz,Farooq Yousaf,Elizabeth Laruni,2025-01-30 This handbook engages with and broadens current debates on men and masculinities in conflict and peacebuilding Through an expansive range of chapters across a unique array of geographical settings the volume shatters prevailing assumptions about men s

relationship to conflict and its wake Situated across scholarship policy and practice the contributions offer new possibilities for a more complex and complete picture of the gendered tapestries of conflict peace and the spaces in between The handbook combines feminist intersectional relational decolonial and queer perspectives on the conceptualisation of masculinities in conflict and peacebuilding This approach provides us with the tools to go beyond direct physical conflict related violence to examine less visible forms of violence and power as well as other ways in which masculinities interact with conflict and peace In doing so the book permits a multi faceted view of men s roles relationships vulnerabilities and non violent agencies in conflict and peacebuilding across scholarship policy and practice This book will be of much interest to students of gender masculinities peace and conflict studies and international relations Chapter 1 3 9 13 and 30 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Chapters 19 and 25 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4 0 license

The Practice of Humanitarian Intervention Kai Koddenbrock,2015-08-27 This book examines the practices in Western and local spheres of humanitarian intervention and shows how the divide between these spheres helps to perpetuate Western involvement Using the Democratic Republic of the Congo as a case study an object of Western intervention since colonial times this book scrutinizes the contemporary practice of humanitarian intervention from the inside It seeks to expose how humanitarian aid and peacekeeping works what obstacles they encounter and how they manage to retain their legitimacy By examining the relationship between the West and the DR Congo this volume asks why intervention continues to be so central for the relationship between Western and

local spheres Why is it normal and self evident The main answer developed here is that the separation of these two spheres allows intervention to enjoy sufficient degrees of legitimacy to be sustained Owing to the contradictions that surface when juxtaposing the Western and Congolese spheres this book highlights how keeping them separate is key to sustaining intervention Bridging the divide between the liberal peace debate in International Relations and anthropologies of humanitarianism this volume thus presents an important contribution to taking both the legitimizing proclamations and local realities of intervention seriously The book will be of much interest to students of statebuilding peacebuilding peacekeeping anthropology research methods and IR in general
