**Crime and Everyday Life** Marcus Felson, 2002-01-28 This third edition is written in a clear concise style and has been thoroughly revised and updated to include such new chapters as white collar crime and the use of technology in crime control Felson challenges the conventional wisdom and offers his perspective and solutions to reducing crime through such changes as physical environments and patterns of everyday life *Encyclopedia of Criminological Theory* Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Toccock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume *Encyclopedia of Criminological Theory* available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory *Crime and Nature* Marcus Felson, 2006-03-13 *Crime and Nature* written by the always innovative and original Marcus Felson is the first text to provide students with a unique new perspective for thinking about crime and how modern society can reduce crime s ecosystem and limit its diversity **Social Issues in America** James Ciment, 2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia *Introduction to Criminology* David Kauzlarich, Hugh D. Barlow, 2009 The ninth edition of *Introduction to Criminology* provides a comprehensive introduction to the study of lawmaking lawbreaking and reactions to crime Both classic and contemporary theories of the causes of crime are discussed and critiqued Special attention is given to critical theories of crime and to general theories The latest crime statistics research and theorizing are fully integrated throughout the text and the innovative epilogue provides students with the tools to actually apply criminological theory to real life events

New to this edition Thoroughly updated throughout including statistics studies and theories in criminology The discussions of drugs prostitution and organized crime are now together in one chapter chapter 7 New chapters have been added on critical theories chapter 14 and biological psychological and evolutionary explanations of crime chapter 11 More illustrations and examples of crime from popular culture have been added throughout the text in an effort to help students make stronger intellectual connections to the material A new epilogue has been added that will help students think through common criminological issues and questions they are likely to encounter in everyday conversation

Mission-Based Policing John P. Crank, Dawn M. Irlbeck, Rebecca K. Murray, Mark Sundermeier, 2017-07-27 The research revolution in police work has uncovered a multitude of data but this contemporary knowledge has done very little to change the way things are done in most police departments across the U S where the prevalent form of policing is based on the traditional model of district assignments and random preventive patrol Mission Based Policing

*Do the Crime, Do the Time* G. Larry Mays, Rick Ruddell, 2012-03-09 This book provides a fresh look at the way the United States is choosing to deal with some of the serious or persistent youth offenders by transferring juvenile offenders to adult courts For more than 20 years now the attitude in some jurisdictions has been if you're old enough to do the crime you're old enough to do the time After two decades of applying this increasingly punitive mindset to juvenile offenders it is possible to see the actual consequences of transferring more and younger offenders to adult courts In *Do the Crime Do the Time* Juvenile Criminals and Adult Justice in the American Court System the authors apply their decades of experience both in the practical world and from unique research perspectives to shed light on the influence of public opinion and the political forces that shape juvenile justice policy in the United States The book provides a fresh look at the way the United States is choosing to deal with some of the serious or persistent juvenile offenders utilizing real life examples and cases to draw connections between transfer policies and individual outcomes

**Why We Harm** Lois Presser, 2013-11-13 Criminologists are primarily concerned with the analysis of actions that violate existing laws But a growing number have begun analyzing crimes as actions that inflict harm regardless of the applicability of legal sanctions Even as they question standard definitions of crime as law breaking scholars of crime have few theoretical frameworks with which to understand the etiology of harmful action In *Why We Harm* Lois Presser scrutinizes accounts of acts as diverse as genocide environmental degradation war torture terrorism homicide rape and meat eating in order to develop an original theoretical framework with which to consider harmful actions and their causes In doing so this timely book presents a general theory of harm revealing the commonalities between actions that impose suffering and cause destruction Harm is built on stories in which the targets of harm are reduced to one dimensional characters sometimes a dangerous foe sometimes much more benign but still a projection of our own concerns and interests In our stories of harm we are licensed to do the harmful deed and at the same time are powerless to act differently Chapter by chapter Presser examines statements made by perpetrators of a wide variety

of harmful actions Appearing vastly different from one another at first glance Presser identifies the logics they share that motivate legitimize and sustain them From that point she maps out strategies for reducing harm Forthcoming Books Rose Arny,2001
