Forensic Mental Health Assessment in Criminal Contexts Noah K Kaufman, Shane S Bush, Nicole R. Schneider, Scotia J. Hicks, 2022-02-09 This valuable compendium advances the understanding of mental health case law making it highly accessible to practicing forensic professionals Divided into two parts the first section focuses on explaining important topics related to forensic psychological and forensic neuropsychological assessment while the second section stands on its own as a collection of fascinating legal cases with high relevance to mental health and legal professionals interested in how mental health disorders impact criminal behavior among juveniles and adults The book begins with an accessible primer on abnormal behavior exploring the links between criminal behavior and mental health disorders It goes on to thoroughly describe what goes into forensic psychological and forensic neuropsychological evaluations including discussion about the

Federal Rules of Evidence as they pertain to evidence generation during the mental health evaluation process The book also focuses on psychometric concepts including reliability validity sensitivity and specificity as well as an exploration of science and the law which includes a discussion about the difference between science and pseudoscience the different sources of law constitutions statutes and case law and how the intellectually competitive practice of law is similar to the enterprise of science Ethical issues faced by the forensic mental health worker are also addressed The second section of the book Legal Cases for the Forensic Mental Health Professional is an alphabetical summary of important and interesting legal cases with relevance for mental health professionals These cases offer real world significance while summarizing complex legal decisions through a neuropsychological sieve to allow both legal and psychological communities to better understand each other's professions This book will be an invaluable resource for forensic psychologists forensic neuropsychologists forensic psychiatrists and other mental health professionals whose work brings them into contact with the juvenile justice and adult criminal justice system It will also be of interest to legal professionals criminal justice departments and law schools

Neuropsychological Assessment in the Age of Evidence-based Practice Stephen C. Bowden, 2017 Evidence based practice has become the benchmark for quality in healthcare and builds on rules of evidence that have been developed in psychology and other health care disciplines over many decades This volume aims to provide clinical neuropsychologists with a practical and approachable reference for skills in evidence based practice to improve the scientific status of patient care The core skills involve techniques in critical appraisal of published diagnostic validity or treatment studies Critical appraisal skills assist any clinician to evaluate the scientific status of any published study to identify the patient relevance of studies with good scientific status and to calculate individual patient probability estimates of diagnosis or treatment outcome to guide practice Initial chapters in this volume review fundamental concepts of construct validity relevant to the assessment of psychopathology and cognitive abilities in neuropsychological populations These chapters also summarize exciting contemporary development in the theories of personality and psychopathology and cognitive ability showing a convergence of theoretical and clinical research to guide clinical practice Conceptual skills in interpreting construct validity of neuropsychological tests are described in detail in this volume In addition a non mathematical description of the concepts of test score reliability and the neglected topic of interval estimation for individual assessment is provided As an extension of the concepts of reliability reliable change indexes are reviewed and the implication of impact on evidence based practice of test scores reliability and reliable change are described to guide clinicians in their interpretation of test results on single or repeated assessments Written by some of the foremost experts in the field of clinical neuropsychology and with practical and concrete examples throughout this volume shows how evidence based practice is enhanced by reference to good theory strong construct validity and better test score reliability *Intellectual Disability* Michael D. Chafetz, 2015 This book on intellectual disability ID and the law provides helpful guidelines for assessing validity in low functioning claimants It charts

recent advances in psychological and neuropsychological assessment pertaining to civil and criminal proceedings while examining issues such as validity and motivation assessments of disability criminal and civil capacities capital cases Miranda waiver cases and others *Malingering, Feigning, and Response Bias in Psychiatric/ Psychological Injury* Gerald Young, 2014-02-11 This book is a comprehensive analysis of the definitions concepts and recent research on malingering feigning and other response biases in psychological injury forensic disability populations It presents a new model of malingering and related biases and develops a diagnostic system based on it that is applicable to PTSD chronic pain and TBI Included are suggestions for effective practice and future research based on the literature reviews and the new systems which are useful also because they can be used readily by psychiatrists as much as psychologists In *Malingering Feigning and Response Style Assessment in Psychiatric Psychological Injury* Dr Young ambitiously sets out to articulate and synthesize the polarities involved in the assessment of response styles in psychological disabilities including PTSD pain and TBI He does so thoroughly and very even handedly neither minimizing the degree that outright faking can be found in substantial numbers of examinees nor disregarding the possibility that there can be causes for validity test failure other than malingering He reviews the prior systems for classifying evidence of malingering and proposes his own criteria for feigned PTSD These are conservative and well grounded in the prior literature Finally the book contains dozens of very recent references giving testament to Dr Young s immersion in the personal injury literature as might be expected from his experience as founder and Editor in Chief for Psychological Injury and the Law Reviewer Steve Rubenzer Ph D ABPP Board Certified Forensic Psychologist *Psychological Evaluations after Motor Vehicle Accidents* J. Thomas Dalby, A. Michael Maclean, Marc Nesca, 2022-08-02 The motor vehicle accident is a leading cause of psychological and physical injury About 1% of the population in western countries are injured in this way every year This book systematically reviews the steps in preparing psychological assessments of individuals who have been in a motor vehicle accident MVA It comprehensively reviews common mental disorders associated with MVAs and outlines causation mechanisms The book will appeal primarily to psychologists but the evaluations outlined will also assist lawyers insurers and other interested parties to determine fair compensation for these injuries as well as ways to rehabilitate those persons impacted The suggestions and evaluation approaches offered are empirically supported by up to date scientific research and the authors experiences in conducting thousands of these evaluations over four decades The ideas presented will help move the systematic evaluations of psychological injuries from motor vehicle accidents forward in an objective and balanced fashion *Essentials of Assessment Report Writing* W. Joel Schneider, Elizabeth O. Lichtenberger, Nancy Mather, Nadeen L. Kaufman, 2018-09-19 The bestselling guide to reporting writing updated and reworked for today s practice *Essentials of Assessment Report Writing* offers effective solutions to the creation of reader friendly yet targeted psychological and educational assessment reports Parents clinicians clients and other readers need more than test by test descriptions they need an accessible analysis of the

entire situation to determine their next steps This book provides clear guidance for busy practitioners seeking ways to improve their report writing skills With a focus on current practice this new second edition covers DSM 5 updates and the latest assessment instruments including the WJ IV WISC V WAIS IV KTEA 3 and the CAS2 New discussion includes advice on tailoring the report to the audience and annotated case reports provide illustrative models of effective report styles interpretation and analysis Key concepts are highlighted for quick reference throughout and end of chapter questions help reinforce understanding Reporting styles vary widely within the field in both content and style there is no definitive standard but many reports fail to reflect best practices and therefore prove less than useful to the reader This book provides expert guidance throughout the reporting process to help practitioners provide high quality accessible reports Integrate assessment results to provide a person centered report Identify and navigate critical decision points in the interpretive process Write efficiently yet effectively while enhancing the reader s experience Provide an accurate informative and readable assessment report Incorporate practical recommendations to address the referral concerns Expertly conducted assessments should culminate with a carefully constructed analysis that provides direction via clear communication Because this report will be used to inform treatment intervention and ultimately the client s quality of life it is critical that it provides clear informative guidance in a way that readers can understand Essentials of Assessment Report Writing provides comprehensive guidelines for navigating through the report writing process Psychology and Law Curt R. Bartol, Anne M. Bartol, 2014-03-26
