Daedalus Journal Of The American Academy Of Arts Sciences Winter 2000 Multiple Modernities:

Reflections on Multiple Modernities Dominic Sachsenmaier, S. Shmuel Noah Eisenstadt, Jens Riedel, 2002-01-01
Multiple Modernities is a departure from the classic sociological homogenization theories. The edition presents an interdisciplinary discussion of the topic in sociological, historical, and economic dimensions. It explores culturally specific forms of modernity with a focus on China and Europe. *Multiple Modernities* Shmuel N. Eisenstadt, 2017-09-29
How may we characterize contemporary society in a world so complex? Can looking at the diverse paths followed by various cultures in the modern world generate useful new social scientific typologies, or must a different set of questions be posed in this era of globalization? What, in short, is the nature of modernity? These are some of the questions addressed by the contributors to *Multiple Modernities*. Following the theme in an earlier work edited by Shmuel Eisenstadt, *Public Spheres and Collective Identities*, this book challenges conventional notions of how the world has changed politically, socially, and economically. The authors consider the meaning of modernity in contexts as different as communist Russia, modern India, the Muslim world, Latin America, China, and East Asia, and the United States. Miscegenation, transnational migration, technological developments, and changing communications have shifted the ground on which theories of society were once built. Political system, diaspora groups, religion, and classical theories of modernity have to be reconsidered in a new context. Authors and chapters include: S. N. Eisenstadt, *Multiple Modernities*; Björn Wittrock, *Modernity One, None, or Many*; European Origins and Modernity as a Global Condition; Johann P. Arnason, *Communism and Modernity*; Nilfer Gle, *Snapshots of Islamic Modernities*; Dale F. Eickelman, *Islam and the Languages of Modernity*; Sudipta Kaviraj, *Modernity and Politics in India*; Stanley J. Tambiah, *Transnational Movements, Diaspora, and Multiple Modernities*; Tu Weiming, *Implications of the Rise of Confucian East Asia*; Jürgen Heideking, *The Pattern of American Modernity from the Revolution to the Civil War*; and Renato Ortiz, *From Incomplete Modernity to World Modernity*. Written in clear and non-technical language for both a scholarly and general audience, this volume confronts the problem of just what constitutes the common core of modernity. **Social Theory and Regional Studies in the Global Age** Saïd Amir Arjomand, 2014-05-21
A pioneering approach to social theory that rectifies overreliance on Western historical experience of development and modernization. In this pioneering volume, leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age. *Social Theory and Regional Studies in the Global Age* moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities, and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions. Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities. Different patterns of modernization are compared within the framework of global, local, compressed communication, and interaction that results from globalization. The introductory chapter puts the present effort in

the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory

Sociology in an Age of Relativism and Uncertainty Jiří Šubrt, 2025-07-15 The book charts the baseline of the transformation of sociological thought through a critical approach to two key works of sociological theory Durkheim's *The Rules of Sociological Method* and Giddens's *New Rules of Sociological Method* works that in their day marked the canon of sociological thought while today they have come to be seen as antiquated knowledge that needs to be overcome In this book Ji ubrt attempts within the framework of an approach he calls critical eclecticism and reconfigurationism to outline approaches that should bring about desirable changes in contemporary sociological thought Within his conception of sociology as a science of social processes he introduces a number of theoretical innovations that include the concept of institutional orders the research strategy of the duplex and the terms transmitters and multipliers The book pays particular attention to questions of sociological reflection on time and problems of predicting the future It points to the ways in which our thinking is both influenced and limited in times of relativism and uncertainty

The Sociology of Time Jiří Šubrt, 2021-10-26 In a critical comparative study of the sociological literature this book explores the term time and the various interconnections between time and a broad cluster of topics that create a conceptual labyrinth Various understandings of time manifest themselves in the context of many individual social problems there is no single vision in sociology of how to grasp time and address within social theory This book therefore attempts to define an approach to the concept of time and its associated terms duration temporality acceleration compression temporal structures change historical consciousness and others The volume is guided by a critical

engagement with three main questions a the formation of human understanding of time b the functioning of temporal structures at different levels of social reality c the role and place of time in general sociological theory *Jewry between Tradition and Secularism* Eliezer Ben-Rafael, Yosef Gorny, Thomas Gergely, 2006-05-01 Are Jews today still the carriers of a single and identical collective identity and do they still constitute a single people This two fold question arises when one compares a Hassidi Habad from Brooklyn a Jewish professor at a secular university in Brussels a traditional Yemeni Jew still living in Sana a a Galilee kibbutznik or a Russian Jew in Novossibirsk Is there still today a significant relationship between these individuals who all subscribe to Judaism The analysis shows that the Jewish identity is multiple and can be explained by considering all variants as surface structures of the three universal deep structures central to the notion of collective identity namely collective commitment perceptions of the collective s singularity and positioning vis vis others **Comparative Ethics in a Global Age** Mariëtta Tigranovna Stepaniants, 2007 *Konfuzianisches Ethos und westliche Wissenschaft* Hu Qiuhua, 2016-05-20 This study in German offers profound insights into the life and thoughts of Wang Guowei 1877 1927 Like many intellectuals who strongly perceived the necessity of reforms in the waning years of the Late Qing dynasty i e after the Opium wars Wang sought to strengthen China s position against foreign in particular Western powers Contrary to earlier approaches which either advocated a close adherence to Confucian traditions or tried to adapt only elements of Western material culture mainly industrial and military technology Wang Guowei aimed at reviving traditional Chinese culture by analysing its source texts using a modern scientific approach and thereby started the discipline of guoxue national studies and simultaneously adapting compatible elements of Western immaterial culture Thus Wang became known as an authority on Chinese paleography as well as on German philosophy especially Kantian epistemology **Sacred Language, Ordinary People** N. Haeri, 2003-01-03 The cultures and politics of nations around the world may be understood or misunderstood in any number of ways For the Arab world language is the crucial link for a better understanding of both Classical Arabic is the official language of all Arab states although it is not spoken as a mother tongue by any group of Arabs As the language of the Qur an it is also considered to be sacred For more than a century and a half writers and institutions have been engaged in struggles to modernize Classical Arabic in order to render it into a language of contemporary life What have been the achievements and failures of such attempts Can Classical Arabic be sacred and contemporary at one and the same time This book attempts to answer such questions through an interpretation of the role that language plays in shaping the relations between culture politics and religion in Egypt
