Progressive Trends in Electronic Resource Management in Libraries Patra, Nihar K., Kumar, Bharat, Pani, Ashis K., 2013-11-30 As physical collections go digital the organizational procedures budgets and usage patterns of libraries must evolve to meet this change by identifying the various issues that are essential in understanding the management of e resources Progressive Trends in Electronic Resource Management in Libraries provides relevant theoretical and practical details from an international perspective on the current e resources landscape Through a detailed discussion of the specific aspects of e resources management this book is a useful source for library science faculty and students academic librarians research scholars and IT professionals aiming to improve their understanding of the theoretical details history selection acquisition fair use and management of e resources Library and Information Science Michael F. Bemis, 2014-03-03 This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field **Guide to Reference in Essential General Reference and Library Science Sources** Jo Bell Whitlatch, Susan E. Searing, 2014-08-06 Ideal for public school and academic libraries looking to freshen up their reference collection as well as for LIS students and instructors conducting research this resource collects the cream of the crop sources of general reference and library science information Digitizing Your Collection Susanne Caro, 2015-12-11 Many libraries across the country have found ways to create wonderful digital collections and this book shows you how you can too **Enhancing Teaching and Learning in the 21st-Century Academic Library** Bradford Lee Eden, 2015-03-18 Libraries of all types have undergone significant developments in the last few decades The rate of change in the academic library a presence for decades now has been increasing in the first decade of this century It is no exaggeration to claim that it is undergoing a top to bottom redefinition In this second volume of the series Creating the 21st Century Academic Library we explore the initiatives in student learning

and training that are underway in our academic libraries The 13 chapters range from librarians redesigning the space in the library in order to assume control of the campus bookstore to implementing a MOOC where the problems of providing material to potentially thousands of students taking an online course must somehow overcome copyright restrictions A chapter describes how the iPad has become the chosen delivery mechanism for a rich array of resources that finally begin to reflect the educational potential of the digital world Another chapter tells how a collaboration creates an audio archive to enrich the experiences of patrons and raise the visibility of the special collections unit on campus Gamification plays a role in two chapters and active learning is featured in another that employs the technologies of interactive whiteboards clickers and wireless slates These approaches employing new technologies and terminology signal that we have begun a new era in the definition and design of the academic library We can't expect the redefined academic library to assume its final shape any time soon if ever but the transformation is well underway

International Newspaper Librarianship for the 21st Century International Federation of Library Associations and Institutions, 2006 This volume consists of presentations at recent events of the IFLA Newspapers Section in Oslo 2005 Canberra 2005 Buenos Aires 2004 Shanghai 2004 Berlin 2003 and Cape Town 2003 It covers the variety and intensity of newspaper activities worldwide emphasising both regional activities and current work in the fields of the preservation and digitisation of newspapers and including reports on the ongoing US and UK projects Another essential subject covered in this volume is the very complex issue of newspapers and copyright This publication presents the current state of newspaper librarianship on all five continents It reflects not only the remarkable progress made during recent years but also the major challenges for the future

The Routledge Companion to Media Education, Copyright, and Fair Use Renee Hobbs, 2018-02-15 Media literacy educators rely on the ability to make use of copyrighted materials from mass media digital media and popular culture for both analysis and production activities Whether they work in higher education elementary and secondary schools or in informal learning settings in libraries community and non profit organizations educators know that the practice of media literacy depends on a robust interpretation of copyright and fair use With chapters written by leading scholars and practitioners from the fields of media studies education writing and rhetoric law and society library and information studies and the digital humanities this companion provides a scholarly and professional context for understanding the ways in which new conceptualizations of copyright and fair use are shaping the pedagogical practices of media literacy

School Libraries 3.0 Rebecca P. Butler, 2015-06-18 This textbook for school library administration courses is written by a professor who has taught this course at least once a year for the past twenty years Technology is interwoven throughout the book and not listed as a separate chapter or book section This is because the school librarian of today and certainly the school librarian of tomorrow is working in an environment of web resources multimedia mixed methods and varying programs and services Major chapters cover the various roles of the school librarian curricular standards and guidelines policies and procedures

budgeting facilities personnel services programming ethics advocacy and evaluation Sample policies procedures and plans make this book valuable to both new and experienced school librarians Learning, Teaching and Education Research in the 21st Century Joanna Swann, 2011-12-15 Learning Teaching and Education Research in the 21st Century draws on Karl Popper's evolutionary epistemology and challenges widespread assumptions about learning teaching and research that are embedded in the practices of many teachers and in the design of most education institutions worldwide Joanna Swann argues that to promote the growth of learning we need to encourage children and adolescents to exercise and develop creativity and criticality and that we need to provide and maintain environments in which they can safely engage in self initiated and self directed exploratory activity In accessible and engaging language the author presents philosophical arguments that support the defence and development of non authoritarian approaches to learning and teaching that can be used by individuals and groups working in or outside state funded schools In particular she provides tried and tested guidelines for student initiated curricula and a problem based methodology for professional development and action research
