Complexity Leadership Part 1 Conceptual Foundations Leadership Horizons Pt 1:

Complexity Leadership Mary Uhl-Bien, Russ Marion, 2007-12-01 This book introduces leadership and organizational scholars to the potential of complexity science for broadening leadership study beyond its traditional focus on leaders actions and influence to a consideration of leadership as a broader dynamically and interactive organizing process The book offers a primer on complexity science and its applications to organization studies and compares the logics of complexity science with those underlying traditional leadership approaches It describes methodological approaches for studying leadership from a complexity perspective and offers examples of applications of complexity science to leadership theory Chapters are written by top scholars in complexity and leadership theory

Leadership-as-Practice Joseph Raelin, 2016-01-29 This book develops a new paradigm in the field of leadership studies referred to as the leadership as practice L A P movement Its essence is its conception of leadership as occurring as a practice rather than residing in the traits or behaviours of particular individuals A practice is a coordinative effort among participants who choose through their own rules to achieve a distinctive outcome It also tends to encompass routines as well as problem solving or coping skills often tacit that are shared by a community Accordingly leadership as practice is less about what one person thinks or does and more about what people may accomplish together It is thus concerned with how leadership emerges and unfolds through day to day experience The social and material contingencies impacting the leadership constellation the people who are effecting leadership at any given time do not reside outside of leadership but are very much embedded within it To find leadership then we must look to the practice within which it is occurring The leadership as practice approach resonates with a number of closely related traditions such as collective shared distributed and relational leadership that converge on leadership processes These approaches share a line of inquiry that acknowledges leadership as a social phenomenon The new focus opens up a plethora of research opportunities encouraging the study of social processes beyond influence such as intersubjective agency shared sense making dialogue and co construction of responsibilities

Learning about Social Entrepreneurship and Management in Times of Social Transformation Luise Li Langergaard, Katia Dupret, Jennifer Eschweiler, 2024-01-01 The book brings together perspectives on entrepreneurship research education and practice to understand social entrepreneurship in its wider societal political and economic context Its unique contribution comes from its interdisciplinary approach that spans from the societal to the organizational level with specific focus social innovation and management It views management of social entrepreneurship and social enterprise in light of its societal context and employs social innovation to critically assess social entrepreneurship as driver of change The emergence of social entrepreneurship as an academic field is linked to several societal trends such as public austerity financial crises new social challenges and a growing counter movement to globalised capitalism Generally seen as organisations serving both social and economic objectives social enterprises social innovation and social entrepreneurship have their roots in civil society civic activism or the solidarity economy but also manifest themselves as for

profit companies with new organisational forms emerging and old ones changing The contributions in this book elucidate these developments and the role of social entrepreneurs and social enterprises Furthermore the book offers great insight into the specific ways of managing leading and creating innovation in social enterprises as well as perspectives on how to understand their social impact or value creation *Complexity Leadership* Mary Uhl-Bien,Russ Marion,2008 Introduces leadership and organizational scholars to the potential of complexity science for broadening leadership study beyond its traditional focus on leaders actions and influence to a consideration of leadership as an interactive organizing process A volume in Leadership Horizons Series Editor Mary Uhl Bien University of Nebraska Lincoln Founding Editor James R Meindl State University of New York at Buffalo This book introduces leadership and organizational scholars to the potential of complexity science for broadening leadership study beyond its traditional focus on leaders actions and influence to a consideration of leadership as a broader dynamically and interactive organizing process The book offers a primer on complexity science and its applications to organization studies and compares the logics of complexity science with those underlying traditional leadership approaches It describes methodological approaches for studying leadership from a complexity perspective and offers examples of applications of complexity science to leadership theory Chapters are written by top scholars in complexity and leadership theory *Complexity Leadership* Mary Uhl-Bien,Russ Marion,2008 **Library Journal** ,1992 **Complexity Leadership: Part I: Conceptual Foundations** Mary Uhl-Bien,2008 Cumulated Index Medicus ,1986 *Subject Guide to Books in Print* ,1993 Religion Index One ,1983
