Cisg Exclusion And Legal Efficiency Global Trade Law:

CISG Exclusion and Legal Efficiency Lisa Spagnolo, 2014 The rationale behind the Vienna Convention on Contracts for the International Sale of Goods CISG is that a uniform sales law will lead to improved efficiency of cross border sales and promote international trade However although it continues to attract new Member States and now applies to more than 80% of global trade commercial parties often exclude the CISG questioning it as a desirable choice of law *International Sales Law* Larry A. DiMatteo, 2014-02-17 This book brings together the top international sales law scholars from twenty three countries to review the Convention on Contracts for International Sale of Goods CISG and its role in the unification of global sales law It reviews the substance of CISG rules and analyzes alternative interpretations A comparative analysis is given of how countries have accepted interpreted and applied the CISG Theoretical insights are offered into the problems of uniform laws the CISG s role in bridging the gap between the common and civil legal traditions and the debate over good faith in CISG jurisprudence The book reviews case law relating to the interpretation and application of the provisions of the CISG analyzes how it has been recognized and implemented by national courts and arbitral tribunals offers insights into problems of uniformity of application of an international sales convention compares the CISG with the English Sale of Goods Act and places it in the context of other texts of UNCITRAL and analyzes the CISG from the practitioner s perspective *Towards a New CISG* Leandro Tripodi, 2015-11-24 In *Towards a New CISG* Leandro Tripodi discusses the aging and need for renovation of the 1980 Vienna Sales Convention Changes in global political circumstances and to the economy of international sales of goods have rendered the 1980 CISG a dated legal instrument Its recognized flexibility is not sufficient to cope with past and especially with future changes brought about by the introduction of new technologies affecting all kinds of goods subject to trade In light of the challenges posed by 21st century commerce Dr Tripodi proposes the adoption of a Convention on the International Sale of Goods and Services CISGS The idea of a new convention is based on the following facts 1 goods and services are no longer as distinguishable as they were in 1980 2 sales of goods and sales i e the provision of services are not as easy to apportion as the CISG supposes and can hardly continue to be treated separately by the legal sources of international trade **Selected Chinese Cases on the UN Sales Convention (CISG) Vol. 4** Peng Guo, Haicong Zuo, Shu Zhang, 2025-05-02 This book focuses on Chinese cases on the CISG decided by Chinese courts of all levels focusing on those decided from 2013 to 2016 During this period the number of cases grew fast compared to 2010 to 2012 covered in volume 3 The growth in the total number reflects that parties might become more familiar with the CISG and therefore decided not to opt out of it in addition the case collection and report systems in China at that time were developing very fast rendering many cases easily accessible This book provides a comprehensive and detailed analysis of selected cases The analysis of those cases will be on a case by case basis For each case an English summary of the judgment will be provided In the comment the People s Courts approach to the interpretation and application of the CISG will be discussed Comments of the

individual case will be written either by scholars or judges or lawyers from international and comparative perspectives to discuss the successes and pitfalls of the interpretation and application of the CISG in China These selected cases reflect how People s Court of all levels started to deal with various issues arising from the CISG and will help understand whether and how the People s Courts change their approaches to the interpretation and application of the CISG in the future
