Bruce Norris

Clybourne Park Script:

Script Analysis for Actors, Directors, and Designers James Michael Thomas, 2009 Script Analysis specifically for Actors Directors and Designers the only book on this subject that covers the growing area of unconventional plays *Script Analysis for Actors, Directors, and Designers* James Thomas, 2013-10-08 Script Analysis for Actors Directors and Designers teaches the skills of script analysis using a formalist approach that examines the written part of a play to gauge how the play should be performed and designed Treatments of both classic and unconventional plays are combined with clear examples end of chapter questions and stimulating summaries that will allow actors directors and designers to immediately incorporate the concepts and processes into their theatre production work Now thoroughly revised the fifth edition contains a new section on postmodernism and postdramatic methods of script analysis along with additional material for designers

Clybourne Park Bruce Norris, 2012 Clybourne Park spans two generations fifty years apart In 1959 Russ and Bev are selling their desirable two bedroom at a bargain price unknowingly bringing the first black family into the neighborhood borrowing a plot line from Lorraine Hansberry's *A Raisin in the Sun* and creating ripples of discontent among the cozy white residents of Clybourne Park In 2009 the same property is being bought by a young white couple whose plan to raze the house and start again is met with equal disapproval by the black residents of the soon to be gentrified area Are the issues festering beneath the floorboards actually the same fifty years on Bruce Norris's excruciatingly funny and squirm inducing satire explores the fault line between race and property Clybourne Park is the winner of the 2011 Pulitzer Prize for Drama and the winner of the 2012 Tony Award for Best Play **Activated Script Analysis** Elizabeth Brendel Horn, 2023-05-02 Activated Script Analysis engages theatre students in traditional formative script analysis through a fusion of devised theatre and various modes of creative expression dispelling the notion of script analysis as an isolated pen to paper task and reimagining it as a captivating and collaborative process This book uses diverse contemporary plays to model the script analysis process for each of four Theatrical Elements Given Circumstances Character Setting and Structure By considering each of these elements readers can uncover patterns and themes within a dramatic text Woven throughout the study of each theatrical element are Connections Personal Connections which encourage readers to explore a theatrical element within their own lives as though their lives were a script Play Connections which make abstract ideas presented in script analysis concrete through theatre based play Professional Connections which examine how a theatre professional might analyze a script within their own work and Performative Connections which provide the opportunity for students to explore a theatrical element through performance using devised theatre strategies At the end of each chapter readers are given the opportunity to analyze a text through the lens of a Theatrical Element and to express their findings through a variety of digital written visual and performance based modes of expression Activated Script Analysis is designed for undergraduate theatre students and educators to be used as the primary text in Script Analysis coursework or as a supplemental text in Acting or Directing

courses The book includes access to downloadable templates and example videos available at www.routledge.com

9781032125398 *Neo-segregation Narratives* Brian Norman, 2010 Norman traces a neo segregation narrative tradition one that developed in tandem with neo slave narratives by which writers return to a moment of stark de jure segregation to address contemporary concerns about national identity and the persistence of racial divides **Performing Dream Homes**

Emily Klein, Jennifer-Scott Mobley, Jill Stevenson, 2019-01-22 This anthology explores how theatre and performance use home as the prism through which we reconcile shifts in national cultural and personal identity Whether examining parlor dramas and kitchen sink realism site specific theatre travelling tent shows domestic labor border performances fences or front yards these essays demonstrate how dreams of home are enmeshed with notions of neighborhood community politics and memory Recognizing the family home as a symbolic space that extends far beyond its walls the nine contributors to this collection study diverse English language performances from the US Ireland and Canada These scholars of theatre history dramaturgy performance cultural studies feminist and gender studies and critical race studies also consider the value of home at a time increasingly defined by crises of homelessness a moment when major cities face affordable housing shortages when debates about homeland and citizenship have dominated internationalelections and when conflicts and natural disasters have displaced millions Global struggles over immigration sanctuary refugee status and migrant labor make the stakes of home and homelessness ever more urgent and visible as this timely collection reveals *Performing Copyright* Luke

McDonagh, 2021-06-17 Based on empirical research this innovative book explores issues of performativity and authorship in the theatre world under copyright law and addresses several inter connected questions who is the author and first owner of a dramatic work Who gets the credit and the licensing rights What rights do the performers of the work have Given the nature of theatre as a medium reliant on the re use of prior existing works tropes themes and plots what happens if an allegation of copyright infringement is made against a playwright Furthermore who possesses moral rights over the work To evaluate these questions in the context of theatre the first part of the book examines the history of the dramatic work both as text and as performative work The second part explores the notions of authorship and joint authorship under copyright law as they apply to the actual process of creating plays referring to legal and theatrical literature as well as empirical research The third part looks at the notion of copyright infringement in the context of theatre noting that cases of alleged theatrical infringement reach the courts comparatively rarely in comparison with music cases and assessing the reasons for this with respect to empirical research The fourth part examines the way moral rights of attribution and integrity work in the context of theatre The book concludes with a prescriptive comment on how law should respond to the challenges provided by the theatrical context and how theatre should respond to law Very original and innovative this book proposes a ground breaking empirical approach to study the implications of copyright law in society and makes a wonderful case for the need to consider the reciprocal influence between law and practice **Contested Terrain** Keith Wilhite, 2022-12 Drawing on a body of

literature published between 1945 and 2016 *Contested Terrain* proposes a more expansive treatment of suburban fiction as a discourse that operates within national and transnational geographies Wilhite argues that the suburbs and suburban narratives reflect the latest perhaps final outpost in the tradition of U S regionalism Although he may be accused of simply substituting one outmoded methodology for another such a critique depends on misreading regionalism as either a sub literary genre or as Roberto Dainotto suggests a pernicious political ideology that opposes modernity and suppresses difference in the naive pursuit of grounded rooted natural authentic values shared by a true community In opposition to such withering appraisals *Contested Terrain* demonstrates that as both a literary discourse and a mode of geopolitical analysis regionalism clarifies the fraught relationship between isolationism and imperialism that has shaped U S residential geography and in turn helps us rethink the role literary texts play in the postwar project of suburban nation building

Discourses on Nations and Identities Daniel Syrový, 2021-01-18 The third volume of the collected papers of the ICLA congress *The Many Languages of Comparative Literature* includes contributions that focus on the interplay between concepts of nation national languages and individual as well as collective identities Because all literary communication happens within different kinds of power structures linguistic economic political it often results in fascinating forms of hybridity In the first of four thematic chapters the papers investigate some of the ways in which discourses can establish modes of thinking or how discourses are in turn controlled by active linguistic interventions whether in the context of the patriarchy war colonialism or political factions The second thematic block is predominantly concerned with hybridity as an aspect of modern cultural identity and the cultural and linguistic dimensions of domestic life and in society at large Closely related a third series of papers focuses on writers and texts analysed from the vantage points of exile and exophony as well as theoretical contributions to issues of terminology and what it means to talk about transcultural phenomena Finally a group of papers sheds light on more overtly violent power structures mechanisms of exclusion Totalitarianism torture and censorship but also resistance to these forms of oppression In addition to these chapters the volume also collects a number of thematically related group sections from the ICLA congress preserving their original context

Representing

Segregation Brian Norman, Piper Kendrix Williams, 2012-02-01 As a touchstone issue in American history segregation has had an immeasurable impact on the lives of most ethnic groups in the United States Primarily associated with the Jim Crow South and the court cases *Plessy v Ferguson* 1896 and *Brown v Board of Education* 1954 segregation comprises a diverse set of cultural practices ethnic experiences historical conditions political ideologies municipal planning schemes and de facto social systems *Representing Segregation* traces the effects of these practices on the literary imagination and proposes a distinct literary tradition of representing segregation Contributors engage a cross section of writers literary movements segregation practices and related experiences of racial division in order to demonstrate the richness and scope of responses to segregation in the late nineteenth and twentieth centuries By taking up the cultural expression of the Jim Crow period and

its legacies this collection reorients literary analysis of an important body of African American literature in productive new directions
