Controlling Immigration A Global Perspective Third Edition:

Controlling Immigration James Hollifield, Philip L. Martin, Pia Orrenius, 2014-07-30 The third edition of this major work provides a systematic comparative assessment of the efforts of a selection of major countries including the U S to deal with immigration and immigrant issues paying particular attention to the ever widening gap between their migration policy goals and outcomes Retaining its comprehensive coverage of nations built by immigrants and those with a more recent history of immigration the new edition pays particular attention to the tensions created by post colonial immigration and explores how countries have attempted to control the entry and employment of legal and illegal Third World immigrants how they cope with the social and economic integration of these new waves of immigrants and how they deal with forced migration **Why**

Control Immigration? Caress Schenk, 2018-01-01 Using a multi method ethnographic approach **Why Control Immigration** argues that the scarcity of legal labour and the ensuing growth of illegal immigration can act as a patronage resource for bureaucratic and regional elites in Russia **Migration Control Logics and Strategies in Europe** Claudia Finotelli, Irene Ponzio, 2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions

Controlling Immigration James F. Hollifield, Philip L. Martin, Pia M. Orrenius, François Héran, 2022-09-27 The fourth edition of this classic work provides a systematic comparative assessment of the efforts of major immigrant receiving countries and the European Union to manage migration paying particular attention to the dilemmas of immigration control and immigrant integration Retaining its comprehensive coverage of nations built by immigrants the so called settler societies of the United States Canada Australia and New Zealand the new edition explores how former imperial powers France Britain and the Netherlands struggle to cope with the legacies of colonialism how social democracies like Germany and the Scandinavian countries balance the costs and benefits of migration while maintaining strong welfare states and how more recent countries of immigration in Southern Europe Italy Spain and Greece cope with new found diversity and the pressures of border control in a highly integrated European Union The fourth edition offers up to date analysis of the comparative politics of immigration and citizenship the rise of reactive populism and a new nativism and the challenge of managing

migration and mobility in an age of pandemic exploring how countries cope with a surge in asylum seeking and the struggle to integrate large and culturally diverse foreign populations **Migration** Michael Samers, Michael Collyer, 2016-12-08

While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition Migration remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at the end of each chapter Migration provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration **Migration and Integration in a Post-Pandemic World** Lin Lerpold, Örjan Sjöberg, Karl Wennberg, 2023-06-05 As the world emerges from the COVID 19 pandemic this book explores current migration and integration challenges Against the background of long term migration trends it asks whether the pandemic has changed the patterns observed transformed the circumstances international migrants face at destination or whether the opportunities and challenges for integration have been altered Twenty four researchers have contributed to this volume with research attention on how COVID 19 has affected transnationalism and identity labour market employment and impacted the discrimination of migrants in a variety of ways Loyalties and tensions created by the need to include also hesitant migrant groups in vaccination programmes are explored The role of cosmopolitanism and welfare chauvinism in narratives on inward migrations flows the stance of trade unions on migration the complexities of implementing return policies and the challenges faced by unaccompanied refugee youth from Afghanistan are also discussed **Handbook of Gender and Mobilities** Valerie Preston, Sara McLafferty, Monika Maciejewska, Brenda Yeoh, 2024-12-09 This important Handbook provides a critical overview of the complex links between gender mobility and immobility highlighting the production and politics of gendered mobilities and the importance of gender perspectives This
