Cuban Revelations Behind The Scenes In Havana Contemporary Cuba:

Cuban Revelations Marc Frank, 2013-10-22 In *Cuban Revelations* Marc Frank offers a first hand account of daily life in Cuba at the turn of the twenty first century the start of a new and dramatic epoch for islanders and the Cuban diaspora A U S born journalist who has called Havana home for almost a quarter century Frank observed in person the best days of the revolution the fall of the Soviet Bloc the great depression of the 1990s the stepping aside of Fidel Castro and the reforms now being devised by his brother Examining the effects of U S policy toward Cuba Frank analyzes why Cuba has entered an extraordinary irreversible period of change and considers what the island s future holds The enormous social engineering project taking place today under Ra l s leadership is fraught with many dangers and *Cuban Revelations* follows the new leader s efforts to overcome bureaucratic resistance and the fears of a populace that stand in his way In addition Frank offers a colorful chronicle of his travels across the island s many and varied provinces sharing candid interviews with people from all walks of life He takes the reader outside the capital to reveal how ordinary Cubans live and what they are thinking and feeling as fifty year old social and economic taboos are broken He shares his honest and unbiased observations on extraordinary positive developments in social matters like healthcare and education as well as on the inefficiencies in the Cuban economy

Sustainable Urban Agriculture in Cuba Sinan Koont, 2016-12-07 Pushed by necessity but enabled by its existing social and educational policies Cuba in the 1990s launched the most extensive program of urban sustainable agriculture in the world This study is to date the only book length investigation in either English or Spanish of this important national experiment in transforming the environmental economic and social nature of today s dominant system of producing food At Campbell University of Utah As large scale industrial agriculture comes under increasing scrutiny because of its petroleum and petrochemical based input costs and environmentally objectionable consequences increasing attention has been focused on sustainable local and agro ecological techniques in food production Cuba was forced by historical circumstances to be one of the pioneers in the massive application of these techniques After the demise of the Soviet Union in the early 1990s Cuba was left without access to external support needed to carry on with industrial agriculture The economic crisis led the country to reconsider their former models of resource management Cuba retooled its agricultural programs to focus on urban agriculture sustainable ecologically sound farming close to densely populated areas Food now takes far less time to get to the people who are now better nourished because they have easier access to whole foods Moreover urban farming has become a source of national pride Cuba has one of the best urban agriculture programs in the world with a thousand fold increase in urban agricultural output since 1994 Sinan Koont has spent the last several years researching urban agriculture in Cuba including field work at many sustainable farms on the island He tells the story of why and how Cuba was able to turn to urban food production on a large scale with minimal use of chemicals petroleum and machinery and of the successes it achieved along with the continuing difficulties it still faces in reducing its need for food
