Cultural Competence In Trauma Therapy Beyond The Flashback:

Cultural Competence in Trauma Therapy Laura S. Brown, 2008 Few of the excellent models that have been developed for working with trauma survivors take into account the complexity of an individual's unique background and experience. Even treatment for members of special groups often ignores the individual's multilayered identities which may include age, social class, ethnicity, religious faith, sexual orientation, and immigrant status in favor of a one-size-fits-all approach. Drawing on her extensive clinical experience and the latest research, Laura Brown shows therapists how to become more sensitive to individual identity when working with clients who have suffered trauma. The author explains how culturally sensitive therapists draw upon multiple strategies for treating patients and are aware of both dominant group privilege and their own identity and culture. Of particular interest is a chapter on the role of systems of faith and meaning making in trauma therapy. The book has a practical focus and contains a variety of case studies illustrating how theoretical constructs can inform assessment and treatment. Given the ubiquity of trauma in its various forms, all therapists from trainees to seasoned professionals will find this volume educational and thought provoking. Brown, 2008 *Treating Complex Traumatic Stress Disorders (Adults)* Christine A. Courtois, Julian D. Ford, 2013-09-27 Chronic childhood trauma such as prolonged abuse or family violence can severely disrupt a person's development, basic sense of self, and later relationships. Adults with this type of history often come to therapy with complex symptoms that go beyond existing criteria for posttraumatic stress disorder (PTSD). This important book brings together prominent authorities to present the latest thinking on complex traumatic stress disorders and provide practical guidelines for conceptualization and treatment. Evidence-based assessment procedures are detailed, and innovative individual, couple, family, and group therapies are described and illustrated with case vignettes and session transcripts. **Trauma, Ethics and the Political Beyond PTSD** G. Bistoen, 2016-04-12 The contemporary psychiatric approach to trauma, encapsulated in the diagnostic category of PTSD, has been criticized for its neglect of the political dimensions involved in the etiology and treatment of trauma. By means of a philosophical and psychoanalytical analysis, the depoliticizing potential of the biomedical approach is tied to a more general ethical crisis in post-traditional societies. Via the work of Lacan and Badiou on the act and the event, this book constructs a conceptual framework that revives the ethical and political dimensions of trauma recovery. *Principles of Trauma Therapy* John N. Briere, Catherine Scott, 2014-03-25 Thoroughly updated with DSM-5 content throughout, *Principles of Trauma Therapy*, Second Edition, DSM-5 Update, is both comprehensive in scope and highly practical in application. This popular text provides a creative synthesis of cognitive, behavioral, relational, affect regulation, mindfulness, and psychopharmacologic approaches to the real-world treatment of acute and chronic posttraumatic states. Grounded in empirically supported trauma treatment techniques and adapted to the complexities of actual clinical practice, this book is a hands-on resource for front-line clinicians.

Cases on Trauma-Informed Gatekeeping in Counselor Education Hurless, Nikki, Davis, Leslie E., 2024-12-05 Gatekeeping in the counseling profession is a critical responsibility, balancing the need to uphold ethical standards while showing compassion and understanding.
